WANTS NEW NAME FOR THE WHEAT

Suggested That "Manitoba No. 1" Be Hereafter Called "Canada No. 1."

EMERGENCY GRAIN BILL

Railways Must Supply Cars to Districts Where Damage to Grain Is Feared.

Ottawa, Feb. 6.-It is more than probable that the word "Manitoba," which throughout the markets of the world has been employed to designate the superior grade of wheat grown in the Northwest since the commencement of the wheat-growing industry in that part of Canada and Hospital in an ambulance, where which has always been associated with the hardest class of wheat on the market, will be compelled to give

Intimation of this change was given ome.

Both parties are Russians, and Hon. George E. Foster, minister of trade and commerce, in the further When Menkin was placed in Foster suggested that Manitoba in the early days, when she was the Beautiful Catholic Edifice at pioneer grain-growing province of the west, had a right to the appellation, but that since Saskatchewan and Alberta had been increasing rapidly in their grain production a wider term should be used. The minister of trade and commerce suggested that instead of "Manitoba" the

word "Canada" should be employed. In this suggestion the minister was indorsed by Saskatchewan and Alberta members, though Conservative members stood out jealously for the

old name. Naming Wheat.

In his contention the claimed that greater credit would accrue to the country at large if the name of wheat were not confined to one section. He was of opinion that the change would not militate against the market currency of the grain. If there was any danger that it would do so the word "Manitoba" in brackets might be placed after the new name, and he would suggest that the change do not come into effect before the season of 1912. Dr. Schaffner, of Souris, opposed the

and commerce. There arose, however, a difficulty in carrying the theory a step further. There were five or six definitions in existence in the west as applied to grain. There was Manitoba spring wheat, Alberta winter wheat. Canadian western oats would not be applicable. He would suggest the word Northern to distinguish all grains raised in the west. though some people were delicate about the use of that word on acount of its climatic suggestion.

Mr. Staples, Macdonald, was jealus of the name "Manitoba." If the word was to be aropped, then the other provinces must relinquish the distinguishing name. He would suggest the word "Prairie" instead of "Canada. Mr. Robb. Huntingdon, stood up

or Manitoba's claims. A reputation had been built up in the east and in the Liverpool markets for Manitoba wheat and Manitoba flour. The name was a trade mark, and the minister should think twice before changing it Sir Edmund Osler objected on the ame grounds. Mr. Turriff favored the change with safeguard proposed by the min-

Iberville Is Completely Destroyed.

SACRED VESSELS LOST

Solid Gold and Rich Ornaments Valued at Thousands of Dollars Consumed by Flames.

St. Johns, Que., Feb. 6. - Sacred ressels of solid gold, and rich ornaments, valued at \$10,000, were destroyed when the handsome Roman Catholic Church at Iberville was razed. to the ground in the early hours this morning. The big church was valued at about \$75,000, and the entire insurance amounting to some \$50,000, will not by any means cover the loss. The fire was discovered about 2:30 o'clock, and when the Iberville brigade arrived the whole rear of the edifice was a solid mass of seething change. Manitoba, he said, had a flames. Powerless to stay the fire right to stand out as the picneer of themselves, a call for aid was sent to the grain-growing industry in the St. Johns, and the whole fire-fighting west. In the markets of the world force of this town quickly responded, the province had always stood out as bringing their entire apparatus to the scene. Headed by Mayor C. J. Brown, Hon. Frank Oliver agreed with the of Iberville, and directed by Chief argument of the minister of trade Audette and Chief Bouchard, of St. Johns, the firemen were able to save the presbytery and parish hall. The church was a fine structure, rebuilt in 1894 by the late Canon St.

George.
