The Market Question.

The question of the market, as outwas discussed, and it met with little fayor. The main reason of opposition to the proposal was the fact that should a market be established in East London on the spot suggested, the farmers 500 at 52½, 5.000 at 54; Shredded Wheat, 25 at 79; Niplssing, 20 at 730

It is the scheme of the Progressives to place the market between Rectory and Glebe streets on Dundas with entrances off each street. This is the only favorable spct, and it would be an ideal site if there was accommodation for the farmers, but they would not come to the East End mart n preference to the downtown market, where everything is right at hand. Therefore, it was thought that the East End market would not be a success, and the meeting declared itself

as opposed to the idea. City Hall Site. The members present at the meeting were unanimous in the opinion that the site of the new city hall should be near the corner of Waterloo and Dundas streets. Many of the members were present from other rarts of the city than East London, but all were of the opinion that the growth of the city was steadily extending eastward, and that if the future was to be at all considered in the building of the new city hall, the building should be erect-

ed in the above-mentioned vicinity. Tearing Down Roundhouse. Workmen started on Tuesday to tear down the old C. P. R. roundhouse at the corner of Adelaide street and Central avenue, and it is expected that in a few days nothing will be left of the building but a pile of bricks and timber. It is the intention of the company to use the property where the old roundhouse stood for a diamond, and tracks will be laid down as soon as the building has been cleared away.

Christ Church Entertained. The members of St. Matthew's A. Y. P. A. entertained the members of the Christ Church A. Y. P.
