Special to The Advertiser.

Flint, May 16 .- London made two in a row and gained the series by winning today's game from the Vehics, 10-3. Sharp fielding in the pinches, good pitching by Lefty Har-ris and heavy hitting, gained the de-

cision in easy fashion.

The Tecumsehs solved Fiegert easily and also quickly. Naleway drove a homer over the left walk in the first, and Barbelon scored in the second on a pass, a steal of second and Eiffert's drive, which caromed off Fie-gert's glove to left. Beatty's single and Nason's triple

coupled with an error and infield out added a pair of runs in the tird. But the fourth was the big inning, when Feigert was driven to the showers by the heavy gunning of the invaders. Harris lifted one over the left field fence with Parker on second through a pass and sacrifice, and then Beat-ty duplicated with Sandquist and Naleway on, through a single and

cold until the ninth, when singles by Luce, Jahn, Tice and Brannigan resulted in a brace of runs.

Associated Press Despatch. Paris, May 16.—Mariano Barbaresi, Italian heavyweight, today was in-definitely suspended by the International Boxing Union. Barbaresi will not be allowed to box in any country in Europe the governing body of which is affiliated with the union. Barbaresi refused to continue fighting after the fifth round of his meeting with Erminio Spalla, the Italian champion, in Rose, last December. The Italian Boxing Federation held up his share of the purse, contending that although badly punished, he was in condition to continue.

London's two senior baseball teams jump off with home games. Two teams will divide the patronage and divide the strength, but aa anyrate there is no blinking the fact that there are two London teams opening today, and they are worthy of plenty of support by fans who would rather inject little town against town rivalry than see the more perfect and scientific game played by professionals, if it came to a matter of choice. However,

there should be plenty of support for both kinds of baseball .. If the pros have found the backward weather an obstacle to good play, now much truer will that be of the amateurs? That fact must be borne in mind by the increasing number of fans who go to see the games more t satisfy their appetite for criticism than their desire to see competition.

WANTS WOSSA CHANGED.

Principal D. J. Campbell of Sarnia C. I. will ask that the Wossa track meet be changed to the fall. He believes that there is not sufficient time after the hockey and basketball seasons are over, and with cadet training filling the gap, to properly prepare athletes for a spring meet. Furthermore, there is the cramming for June exams, probably the biggest obstacle

The objection to the fall lies chiefly in the fact that holding it ther might tend to kill off rugby. Track stars who are going to perform in the spring are willing to take chances with rugby in the fall, but the two do not ceam up well. Otherwise it would seem that the fall was the logical season

EVEN ECCENTRICS WILL HELP.

Mr. John Joseph McGraw, who is in a mood that is far from jovial at the current writing because of the temporary demoralization of the Giant pitching staff, declared against self expression by baseball players some time ago. Gradually Mr. McGraw seems to be approaching the attainment of his ideal team. Yet there are times like these on a western invasion when he might be induced to make allowances for a "Bugs" Raymond or two, provided he could win some ball games.

Mr. McGraw dropped "Oil" Smith for expressing himself in various ways that were regarded as being prejudicial to the discipline of the Giants "Oil," who comes from the State of Arkansas, where much corn grows, had the Arkansas notion that corn should not be taken internally unless distilled. He has a hunch that Catamaran, the London entry, is going to flash ome winner of the King's Plate and that Chilhowee will finish ahead of the probable favorite, Black Gold, in the Kentucky Derby.
