TORONTO TOPICS.

morning.

TORONTO, Sept. 13.—(Special)—Hon. Wilfred Laurier will address a series of meetings in Ontario during October next, beginning on Tuesday the 8th prox., in the county of Dundas. A cable was received by Acting Mayor

Shaw yesterday from Mayor Kennedy stating that the British association will meet in Toronto in 1897. The mayor also states that he will sail for home next week. Members of the Red river expedition of 1870 had a re-union last night. Col. Denison, M.P., presided. The toast of Lord Wolseley was responded to by Col. Danison, who said the success of the campaign proved the wisdom of choosing Lord Wolseley to command it.

A very grave crisis has arrived in the position of Toronto with regard to its water supply. The Rose Hill reservoir, for all practical purposes, is empty. According to the most sanguine estimates the fresh lake water will not be available for several days. The gravity of the situation led to a conference of city officials at the city hall yesterday. The result was that a deputation paid a visit to Mayor Bond at Toronto Junction, the waterworks of which are of large capacity, and as a result of the interview an andeavor will be made to connect the waterworks system of that town and the city.
