We have had the pleasure of inspecting Messira McMurray: A Burkhardt's Photographic Studio due to has been so vastly improved and enlarged, and we do not hesitate to say that it is the best arranged and most convenient one in the Province. The upper flat of the building has been converted into a luxuriant gallery in addition to the does formerly in tues by the firm. The operating room, with excellent light, is 28x18 and is neatly carpeted and furnished with beautiful seenery and other necessary as well ascoramental appointments. To the rearist the reception room, elegantly fitted up, and the Studio is copied from some of the best established of the kind in New York, which were personally inspected by Mr. Burkhardt during his tour to the States last summer. The camera and its adjuncts are of the most approved style, and with such facilities Mr. Burkhardt twill be able to make as good a Photo as the best artists on the Continent. We have much pleasure in calling the attention of the public to these changes and can confidently recommend the neterprising and oppular firm of McMurray & Burkhardt to even more extended favoure than they have hitherto received.
