## SEEDING LATE

Owing to the backward condition of the season seeding is much later than usual. Farmers, especially on wet land, have been unable to do anything as yet. Some potatoes have been put in in the higher ground. It is hoped, however, that seeding will be well under way next week.

## TWO FINE RECIPIENTS

Miss Greta Metcaler gave her annual spring recital on Monday, May 21st and Saturday, May 26th. On Monday the Junior pupils and their mothers met at Miss Metcaler's home where a splendid program was given by these children, ranging in age from six to eleven years. About twenty-six children took part. The mothers expressed great pleasure at the splendid work accomplished in the musical kindergarten and primary grades in general. After the recital the pupils were given a little party by their teacher.

On Saturday twenty-five of Miss Metcaler's senior students were heard in a recital at Miss Metcaler's home, when many fine solos and duets were played written by Beethoven, Borowski, Lange and others. After the recital the students were entertained.

## MORE INTEREST NEEDED

There seems to be a lack of interest on the part of some members of the band, in that they are irregular attendants at rehearsals. This is greatly regretted by Bandmaster MacCallum and those who attend regularly as this lack of interest only tends to keep the band behind schedule. It is therefore requested that all members be present Friday evening.

On Friday, June 8, he will officiate at the presentation of a charter and dedication of the Royal Arch Chapter at Edmundston, returning to St. John on Saturday.

## THIS AND THAT

"Have you ever noticed how much a good shine will brighten a man up?" asked a friend of ours last night. Then he continued: "It will make a fellow feel a lot better. Muddy or dirty shoes frequently give a man the blues. The other day I ran across an acquaintance who was complaining. He said he was half sick. I noticed he needed a shine badly, and at the same time I decided he wasn't sick, but was downhearted. I tried the bootblack cure on him. He accepted my invitation to join me in getting a shine, and when we climbed off that stand he was a changed man. He had brightened up, and before we had walked half a block he was whistling. A shine is a great thing for a fellow who is blue." Get Pete to cheer you up with a good shine. Subway.

BIG INCREASE IN  
NEW AUTOMOBILES

Premier Veniot Says Outlook is for Largest Sales in History.

"There is every indication that there will be more automobiles sold in New Brunswick this year than ever before," Premier Veniot said this morning. The Premier made the remark in discussing the issuance of license plates for automobiles, which he said was keeping the Motor Vehicle Branch of the Provincial Department Public Works working day and night. As yet, he said, it was too early to give any definite figures, but the number of new cars being licensed is alarmingly large.

"The fact that automobile owners seem to have about all put off sending their license fees in until a few days before they wanted to use their cars, and the retarded spring season have combined to make the worst congestion the Motor Vehicle Branch have ever experienced," said the Premier. "An enlarged staff are working day and night, but there have been between 5,000 and 7,000 applications for license plates this month and the staff simply cannot catch up."

Premier Veniot said that the patrol system for the trunk highways was being organized as rapidly as possible, but its inauguration had been delayed by the unusual frost conditions and the necessity for immediate repairs which were engrossing the attention of the Public Works Department staff. Some of the patrol crews are already at work, the Premier said.
