HEVICTORIA ROOFING PAINT COMPANY 66 ADELAIDE ST. EAST, TORONTO. TO THE CANADIAN PUBLIC, GREETING:

During the summer of 1886 we introduced our Fire and Waterproof Roofing material to the citizens of Cornwall, Ontario, and last fall we started a factory at Montreal. Without any special booming, orders came in upon us this spring so thick and fast that we decided to establish a factory also at Toronto. We manufacture fire and waterproof roofing for shingles and metal which beats the world.

beats the world.

It is cheap, durable, effective and ornate. It is a scientific combination of Asbestos, Manganese, Burgundy gum, mica and

It is a scientific combination of Asbestos, Manganese, Burgundy guin, mice and Stockholm tar, and has a consistency of cement. It preserves new roofs, arrests decay and makes old roofs tight and strong. It costs less than ordinary paint. It is warranted fireproof, waterproof and stormproof. It will not crack, scale, nor wear off. Insurance Companies take risks wherever our roofing material is used as cheaply a on metal roofs. No house-owner can afford to do without it. We have coated a great number of both shingle and tin roofs in Eastern Ontario and Montreal, but have only space for a few testimonial.

The Montreal Gazette of September 3, 1837, said:--The fireproof qualities of a Roosing material made by the Victoria Roosing Paste Paint Ca, were fully and successfully tested on "Champ De Mars." About a thousand people gathered to see the exhibition. A small house coated with the Fire Proof subtance was surrounded with most inflammable stuff, such as dry boxes, pitch barrels, etc.; a half ton of straw was heaped on top of these, with kerosene cil thrown over the whole. An intense heat was the re-sult upon ignition, but the little house came through the fiery ordeal without even scorching.

HOUSE OWNERS!! Yeu cannot afford to do without this cheap and desirable pr from sun rents and rot rents, sap rot and rot knots, which cause leaks and precipitate of the roofs of your houses.

Fictoria Roofing Co. Gentlemen, -I consider both your Felting and Fire Proof Roofing Paint worthy of patronage. I used both to advantage. For shingles it is the best I ever saw, and I hear for melat too it is as good. I saw the little house you coated on Champ De Mars come out all right though surround-ed by a bot fire close to it. Yours, etc., JOSEPH CARPENTER.

A Superior Article at a Low Price is sure to become Popular. A single trial of our Prepared Roofing Felt will Guarantee its Future Use.

ATTRICK OF

That this roofing contains a great amount of waterproof material and will remain water tight is easily seen when the component parts are given and the manner of combining described, viz: 1st. A strong foundation of best saturated roofing felt. 2d. A water-proof layer of vegetable gum. 3d. Felt same as first. 4th. Another layer of vegetable gum. 5th. Felt. All this is subjected to hydraulic pressure and is formed into a solid, impermeable sheet, and covered with Fire and Waterproof Paste Paint. On flat roofs this is confisted is confisted as a solid, impermeable sheet, and covered with Fire and Waterproof, will not mildew, can be used over old shingles or tin, This Roofing is warranted every time. It is inexpensive, durable, adapted to steep or flat roofs, portable, convenient, fire-proof, will not mildew, can be used over old shingles or tin, not affected by gases or condensation, easy to preserve by renewal of coating, a splendid sheathing, water, air and vermin, proof. Can be applied by unskilled labor.

MONTREAL, April 13th, 1888.

We manufacture under T. NEW's Patent, New York City. See what the insurance companies think of it:

WHERE?

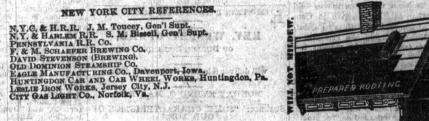

The Victoria Roofing Paint Co. Gentlemen. --Your Patent Roofing Paste has proved all that we could desire. Our factory was leaky and gave us annoyance before we got you to put on your material. We have no trouble leaky and gave us annoyance before we got you to put on your material. We have no trouble leaky and gave us annoyance before we got you to put on your material. We have no trouble leaky and gave us annoyance before we got you to put on your material. Jours truly, JOBIN & CO., 63 Canal street. 10 CHABOILE SQUARE, MONTREAL, Nov. 3rd, 1887.

Office of New York Board of Fire Underwriters. Il5 Broadway, New York, April 16, 1884. Dear Sir: The Insurance rate on buildings covered with T. New's Prepared Roofing, painted with one coat of Victoria Pasts Paint, anded, is the same as our regular rate on metal roofs. Yours truly, JAMES HARRISON, Supt. for New York Board of Underwriters.

Fort Davis, TEXAS. Dear Sir: The first lot of roofing we bought of you we used on our own building, which some time after caught fire on the inside, and the board sheathing underneath the roof burned out in several places and the felt would not and dis not burn. This has been a big adver-tisement for your roofing in this country, and we intend hereafter to carry the roofing in stock to supply other parties. Very truly, ABBOTT & DAVIS, To T. NEW. Post Traders.
