salteration since a week ago, and a feeling of seasonable quiet, more or less promounced, prevails in most lines. In groceries there is perhaps a little more doing; jobbers report a freeg demand for sugars, but refiners are not yet busy, owing to speculative lots of granulated, bought before the rise, not being yet wholly exhausted. Japan teas are being more enquired for, and come moderate transactions have been put through, but the quality of the new crop is not proving altogether satisfactory. The bulk of the orders for certain lines of fall dry goods is now booked, and with retailers there is not much doing, while collections are not as good as a fortularly as to the outcome. Morehants are in consequence inclined to be cautious. The business in wholesale circles is of a sorting-up character, and it will be a few weeks before any activity is expected. Prices, however, remain firm for all the staples, and remittances are sail to be satisfactory. At the meeting of the Executive Committee yesterday afternoon Mrs. Calvert, a lady resident in Moore Park, appeared, in company with other residents, to make complaint against Mr. John T. Moore, a gentleman well-known in business and Methodist circles. Some years ago Mr loore secured water privileges for Moore Park, which is just out of the city limits, at a very low rate. Now Mrs. Calvert and other residents allege that he is farming out his privilege to them at ex-orbitant rates. For an ordinary ser-vice, without bath or other conveniences, be charged Mrs. Calvert \$52 a year, she alleges, turning the water off at 10 p. m. and on at 6 a. m. McIntyre & Wardwell send the following despatch to their branch office in Toronto: The features this afternoon were the execution of an order to buy 5000 shares of Chicago Gas and some covering of shorts in St. Paul and Quincy, which was credited to Mr. Bell. Generally speaking the whole day's market has been extremely dull! Foreign advices indicate the possibility of complications between Russia and the Triple Alliance over Bulgaria. which had some influence over Bulgaria, which had some influence over foreign financial sentiment. Increased offerings of exchange are an important factor. It is generally believed that the period of extreme high rates has been successfully tided over by the syndicate and that gold exports are unlikely. shipping 1,000,000 gold unless exchange becomes easier. Sugar rose to 111 on covering of shorts, subsequently losing all the improvement on sales by Mr. Weil's brokers. The independent anthracite operators have combined to stop the demoralization of the trade. At the close market was dull and heavy in tone.
