These Pills, the result of long investigation and study, are offered to the public as the best und most complete which the present state of medical geienge can afford. They are compounded not of the drags themselves, but of the medicinal virtues only of Vegotable remedies, extracted by chemical process, in a state of purity and combined together in such a mamier as to insure the best results. The composition of my preparations is laid open to all men, and all shows competent as judge, to the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Peetoral was pronounced by adouting men to be a wonderful medicine before its effects were known. Many concent Physicians' have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal wisedra to purify the blood and attinuists it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such denaugements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.
