MOUNTAIN HILL, QUEBEC.

Twenty-Five Dollars in Gold.

We will be pleased to pay any one who will send us a more delicious bush bean than the Warren, or a better pea than the Excelsior. You can't afford to raise the American Wonder, when the Excelsior, as good, as early and nearly as dwarf, bears (see Rural New Yorker), larger pens, larger pods, and many more of them. Our Catalogue (sent FREE) on pages 3 and 27 tells all about them.
J. J. H. GREGORY & SON, - - - Marblehead, Mass.

Hay, Straw, Corn and Ensilago cutters of all sizes with or without Elevators Corn "Planters", Corn "Shellers", Churns, Seeders, Cultivators, Harrows Ploughs, all and every kind of Agricultural Implements used on or about a Farm. Also all kinds of Carriages, Wagons, &c., &c. All new and Im-

proved Implements are found first in our stores. Farmers you should see the new Spade Harrow, the best tool to pulverize the soil ever made.

Get our Catalogues and Prices.

Special attention paid and extra discounts given to orders by mail.

LATIMER & LÉGARÉ, Québec, Que.

LATIMER & BEAN, Sherbrooke, "

R. J. LATIMER, 592 St. Paul Street, Montreal.

It affords us great pleasure to have it known that the improvements brought to our hay press "La Canadienne" have made it superior to all other horizontal presses working in the shape of half a circle. The fuller's course is 33 inches, that is from 6 to 9 inches longer than in any other horizontal press, which gives a wider opening to put the hay in and more speediness. Three men will do more work with our press "La Canadienne" than with any other press in the shape of a half circle, while it is much less tiresome for the horses. The materials employed are of the first quality, with the exception of two pieces of chilled cast iron, all the other parts are of steel and malleable cast iron.

We guarantee our press to work at the rate of 10 to 13 tons of hay every day without the horses being tired.

We manufacture four sizes of presses:

14 x 18 16 x 18 16 x 20 16 x 22

We will send this press free to any responsible party. Write for our Catalogue and list of prices.

LA CANADIENNE
Perpetual Press (Patent and improved)

The only one on the market, which the horses can run without their work being hindered.

The thrashing machine represented in the above engraving is our vibrating machine. It has a run of 28 inches long with teeth in steel guaranteed so that they can bend without breaking as the Norway.

The iron work that support the drills is all in wrought iron which is very advantageous and economical as any blacksmith can make it, so that all long delays are avoided.

The sieve of our vibrating machine is longer and wider than all the other machines of the same kind manufactured in Canada. This new shape facilitates the cleaning of the grain and the sieve is less exposed to spread its contents outside. We give seven faces with this sieve.

The horse power runs on cast iron rails all the shafts of the bridge measure an inch which represents half a line of a larger size than those employed by the other manufactures. All the shafts in the separator, the sieve and the horse power are in steel. We never use any iron shaft. Our machine is acknowledged to be the easiest to run and the one which lasts the longest.

Write for a catalogue and list of prices.

We also manufacture a Machine to work Cotton, Standing Hay Presses for Railroad, Standing Hay Presses with rod; Straw Cutter No. 9, 11, 13; Spring Harrows, 16 teeth; a Washing Machine patented May 1892.

We want active and responsible agents in all the localities where we have none yet.

Any farmer shall find it an economy and be certain to have the most improved machine in applying to us.

We allow a special discount for orders sent by mail.

J. B. DORE & FILS

MANUFACTURERS

LAPRAIRIE, QUE.

JOHN.—I am a member of the Farmers' Central Syndicate of Canada.

JAMES (his neighbour).—I am not.

JAMES.—You pay one dollar a year to the Syndicate and then? that represents a dollar less in your pocket.

JOHN.—This dollar yields me five other on a hundred, to say the least, if not ten or fifteen.

JAMES.—How is that?

JOHN.—To buy in retail cost dearer than in wholesale. The syndicate buys in the wholesale trade for me as for all his other members, and sells me the goods at the same terms as at the cost price. One thousand persons united together can buy more advantageously than a single one, can they not?

Besides, the Syndicate is at my disposal for any information I may want or any exchange, and before a long time elapse for all my sales. It is progress itself; it will soon be the most powerful Association in Canada. Do you understand now why I am in such good humour?

If you wish to be like me, write to

THE FARMERS' CENTRAL SYNDICATE OF CANADA

30 St. James Street, Montreal.
