A CARD TO THE PUBLIC.—The prevalence of Diphtheria in Canada at present is a just cause for you to feel uneasy about your children. Have you any medicine at your homes? It may be too late when you call in your physician. What do the physicians say about my medicine? They who have seen its effects recommend it highly, and have openly expressed the opinion, that if this medicine be applied, in the first stages of Diphtheria, there would be very few fatal cases of it. In cases of Ulcerated Sore Throat, Canker Mouth, and Croup, it has never failed; and as to Croup, I challenge any other medicine in America to compete with it, either as to the quickness or to the permanency of the cure. Those people who are afflicted with Croup can receive satisfactory proof of the curative power of my medicine by referring to those persons whose testimonials have been published from time to time. Yours truly, MADAME SANGSTER, 130 Wellington St. North, Hamilton. Sold by Harrison Bros., Hamilton.
