THE TRUE WITNESS AND CATHOLIC CHRONICLE ---- JANUARY 25, 1867.

A SCIENTIFIC OCULIET. - A gentleman tells us the following story, and youches for it as having actu-ally occurred to bimeelf. Some years ago he lost an eye, and Laving a taste for comely personal appear. ance, ho had the loss of the member atoned for by the insertion of a glass eye. The counterfeit was a perfect counterpart of the other, and, except those who were told of the fact, none would have imagined him to be the 'bully boy with the glass eye.' Τωο or three weeks ago the seeing ere began to inflame, and knowieg, by sad experience, the danger of neglecting a sore eye. he determined to cousult an oculist, and not knowing which was the proper one to ge to, was unfortunate enough to fall into the hands of a man who practises the profession, but who, unill a short time ugo, had been engaged in the butchering business. Calling upon the 'celebrated oculist and aurist.' he told him that eyes were afflicted with disease, and he feared he would lose them. The quack examined the optic and pronounced them an easy cure. In fact, he would heal them up at a low figure, only ten dollars a week for treatment. What do you think of my left eye Doctor ?' esked

our friend, whose fuith was not very strong.

The Doctor examined the left eye very carefully for several moments, and then said, 'I fiad the epithelium slightly opatic, with considerable subcutaneous conjunctive in the cellular retina of the corneal achirrhesia.'

" Can the thing ever be cured ?' asked the patient, who was convinced that the fellow was an unmitigated humbug.

Oh, yes I can cure that in a very short time. I have some vegetable acid which I extract from a plant known only to myself, which will render that eye perfectly well in three weeks.'

Do you really mean to say that I can see out of that eye again ? for, to tell you the truth I have not been able to see out of it for a long time.'

'To be sure I do just as well as I do out of mine This 'ere vegetable acid of mine is really wonderful there are not any eyes that can regist it. It fixes them all.'

The you can go ahead upon that one, and if you fix it all right, I will let you attend to the other one.' The Doctor took out a large syringe, filled it with his vegetable acid, and appreached our friend for the purpose of making an application, when he raised his hands to his eye, opened the eyelids, took the glass

optic from the socket, and handing it to the operator said: Doctor, I haven't time to stop for treatment ; you

can keep the eye here, and as soon as you can get it to see I will call and get it '

The oculists, 'phoelinks' can be better imagined than described.-S. F. Call.

POPULATION OF THE WORLD. - The population of the world is increasing. From the best and latest sources of information we derive the following estimates :-- America. 63,000,000 ; Europe, 265,000,000 ; Mattes := America: 0,000;000; Million, 200,000; Japan, 35,-000,000; Oceanica, 22,000,000. Tetal, 1,200,000,000. Protestants, 85,000,000; Catholics, 180,000,000; Greeks, 68,000,000; other sects. 7,000,000; Jews, 6,000,000; Mahommedans, 144,000; Pagans, 710, 000,000. Total, one thousand two hundred millions.

LONGS AND SHORTS. - There were two barristers at the Irish bar who formed a singular contrast in their statures. Ninian Mahaffy, Esq., was as much above the middle size as Mr. Collis was below it. When Lord Rede dale was Lord Chancellor of Ireland, these two gentlemen chanced to be retained in the same cause, a short time after his lordship's elevation, and before he was personally acquainted with the Irish bar. Mr. Coilis was opening the motion, when the Lord Chancellor obsevered, 'Mr. Coilis, when a barrister addresses the court, he must stand.' 'I am standing on the bench, my lord,' said Collis .--'I beg a thousand pardons,' said his lordship, somewhat confused. 'Si: down, Mr. Mahaffy.' 'I am sitting, my lord,' was the raply to the confounded chancellor.

To RATIONAL INVALIDS .- A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. You want relief without prostration, & rapid cure without pain. The means of obtaining that relief, of accomplishing that cure, is tendered to you in BRISTOL'S SUGAR-COATED PILLS, the only cathartic and alterative in existence which reopens the obstructed passages of the bowels without a qualm or a pang, and restores to the stomach and liver the vigor stolen from them by disease. This geuial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the natural health of the digestive and secre-

PONCE DE LEON ON PERFUMES. - The celebrated lieutenant of the great Columbus, pronounced the DIOSSOMS MURRAY & LANMAN'S FLORIDA great navigator, who 'gave to Castile and Aragon a New World.' The blended breach of a conservatory of tropical plants in full bloom, is exhaled from this delicious and refreshing Water. When diluted, it purifies the complexion as well as periumes the skin ; nor could any Sybarite covet a rarer luxury than a bath fragrant with its delicate aroma. 520

cine.

DANGEROUS SUPPERATION .- Extensive abacesses are dangerous; but many of the methods of cure are more dangerous than the malady. They must not suppressed by external applications. ERISTOL's SARSAPARILLA the most harmless of all depuratives, yet the most irresistible, soon purges from the blood the poision which generates the disease. It is the same with carbuncle, which is an exaggerated and virulent species of boil, and generally denotes a weakened constitution. BRISTOL'S SARSAPA-RILLA, the great vegetable tonic and detergent, is the one ding needed in carbuncular as in all other ulcerous disorders. BRISTOL'S VEGETABLE PILLS used at same time in moderate doses, will tend to allay feverish sympt ms, and will carry off through the bowels the morbific matter set free by the Sarraparilia, thus facilitating and hastening a 509 complete cure.

IF Parchasers are requested to see that the words "Florida Water, Murray & Lanman, No. 69 Water Street, New York," are stamped in the glass on each bottle. Without this none is genuine.
