#### CIRCULAR.

MONTREAL, May, 1867. THE Subscriber, in withdrawing from the late firm of Messrs. A. & D. Shannon, Grocers, of this city, for the purpose of commencing the Provision and Produce business, would respectfully inform his late patrons and the public that he has opened the Store, No. 443 Commissioners Street, opposite St. Ann's Market, where he will keep on hand and for sale a general stock of provisions suitable to this market, comprising in part of FLOUR, OATMEAL, CORNMEAL, BUTTER, CHEECE, PORK, HAMS, LARD, HERRINGS, DRIED FISH, DRIED APPLES, CHIP BREAD, and every article connected with the provision trade, &c., &c.

He trusts that from his long experience in buying the above goods when in the gracery trade, as well as from his extensive connections in the country, he will thus be enabled to offer inducements to the public unsurpassed by any house of the kind in

Consignments respectfully solicited. Prompt returns will be made. Cash advances made equal to two thirds of the market price. References kindly permitted to Messrs. Gillespie, Moffstt & Co. and Messra. Tiffin Brothera.

REV. SYLVANUS CORB thus writes in the Boston Ch istum Freeman: We would by no means re-commend any kind of medicine which we did not know to be good - particularly for infants. But of Mrs. Winslow's Southing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harm'ess; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever.

ENDURING POPULARITY. - If ever a luxury posseased the elements of enduring popularity, that luxury is MURRAY & LANMAN'S FLORIDA WATER. Its freshness, its purity its delicacy, its unchangeableness its wholesomeness, and is disicfectant properties in the sick room, place it far in advance of every other perfume of the day. No other toilet water is like it; nothing can supply its piace; no one who uses it can be persuaded to use any other perfume. Hence the amazing rapidity with which its sales increase. It is so far superior to all other perfumes of this hemisphere that it may be said to have no second; it stands alone, and after being thirty years before the people, is now making more progress that ever before.

Beware of Counterfeits; alwing ask for the legitimate MCREAY & LANMAN'S FLORIDA WATER prepared only by Lauman & Kemp, New York. All others are worthless.

THE ALABAMA CLAIMS are now up again for adjustment and the British government has expressed itself desirous of an arbitration. Among the claims persistingly pressed are those of the ever-present and active J. C. Aver & Co., for the value of shipments of Cherry Pectoral, Sarsaparilla, Agua Cure, and Pills, in transit for Oregon, Vancouver's Island and Russian America destroyed on the Anna Schmidt off the coast of South America. So universal is the use of their remedies, that they are affoat on almost every sea; and this firm is frequently caught between the upper and nether millstones of contending nations. A CARD FROM THE AMERICAN WATCH COMPANY

WALTHAM, MASS.

THIS Jompany beg lease to inform the cit zens of the new dominion of Canada that they have made arrangements to introduce their celebrated Watches to their notice. They are prepared to prove that their watches are made upon a better system than others in the world.

They commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one hall of all the watches sold in the United States. Up to the present time, it has been impossible for them to do more then supply the constantly increasing home demand; but recent additions to their works have enabled them to turn their attention to other markets

The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand. In them, all those mysterious and infini esimal organs which when put together create the watch, are the result of slow and toilsome manual processes, and the result is of neces sity a lack of uniformity, which is andispensable to correct time keeping. Both the eye and the hand of the most skillful operative vary. But it is a fact that except wat hes of the higher grades, European watches are the product of the cheapest labor of Swizerland, and the result is the worthless Ancres, Lepins and so-called Patent Levers - which soon cost more in attempted repairs, than their original price Common workmen, boys and womer, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant. He stamps and engraves them with any name or brand that may be orderedwhether Loudon, Paris, Genesa or what not; and many a man who thinks he has a genuine "M. I. Tobias, of Liverpool," (whose only fault is, that he can never regulate it to keep vers good time), is

really carrying a cheap and poor Swiss in itation. HOW AMERICAN WATCHES ARE MADE. The American Wattham Watch is made by no such uncertain process-and by no such incompetent workmen. All their operations, from the reception of the raw materials - the brass the steel the silver,

the gold and the precious stones, to the completion of the Watch, are carried on under one roof, and under one skillful and competent director. But the great distinguishing feat, re of their Watches, is the fact that their several parts are all made by the finest the most perfect and delicate m chinery ever brought to the aid of human industry. Every one of the more than a hund-ed parts of every watch is mode by a machine - that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of at y particular style and then to adjust t e hundred to chines necessary to reproduce every part of that watch, and it follows that every succeeding watch must be like it. It any part of any American Walt ham Watch should be lest or it jured, the owner has only to address the Company, stating the number of his watch and the part wanted, whether it be spring, pinion, jewel, or what not, and by return meil be would receive the desired article, which any water-

maker would zojust to its position, The Company respectfully submit their watches on their merits only. They have fully succeeded in overcoming popular prejudice in the States in favor of European watches, and solicit a thorough examination and fair trial for their manufactures elsewhere.

They claim to make A BETTER ARTICLE FOR THE MONEY by their improved mechanical processes than can be made under the old-fashioned handicraft system -They manufacture watches of every grade, from good, low priced, and substantial article, in solid silver hunting cares, especially adapted to the wants of the farmer and lumberman, to the tinest chronometer for the navigator; and also ladies' watches in plain gold or the finest enameled and jewoled cases; but the indispensable requisits of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named "Home Watch Company, Buston," ALL

WATCHES made by them
ARE FULLY WARRANTED by a special certificate given to the purchaser of every watch by the seller, and this warranted is good

### Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medi-cine is so universally re-quired by everybody as a cathartic, nor was ever ar an antic, nor was ever any before so universal-ly adopted into use, in every country and among all classes, as this mild-but efficient purgative Pitt. The obvious rea-son is, that it is a more re-liable and the more offerliable and far more effec-

son is that it is a more reliable and far more effectual remedy than any other. Those who have not, know that it cures their neighbors and friends, and all know that what is does ence it does always—that it never fails through any fault or neighet of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why onld we publish them? Adapted to all ages and aditions in all climates; containing neither calcact or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these PHBs rapidly cure:—

Pills rapidly cure:

For Riyspepsia or Indigestion, Listlessness, Eanguor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Edwer Complaint and its various synaptoms, Ellions Eleadache, Sick Readache, Jaunetice or Green Sickness, Hilions Colic and EliCous Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which class it.

For Idyscatery or Diagramsea, but one mild dose is generally required.

for Islands, which the state of the Islands of the Islands. Fair in the Side. tation of the Breart. Pain in the Side. Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints

Elropsy and Dropsical Swellings they

For Ebropsy and Ebropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purse.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dece stimulates the stomach and bowds into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the disestive apparatus. There are numerous cases where tive apparatus. There are numerous cases where a purgative is required, which we cannot enumer-ate here, but they suggest themselves to everybody, and where the virtues of this PiH are known, the public no longer doubt what to employ.

#### Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs,

such as Coughs, Colds, Wheoping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniforal character and power to cure the various affections of the langs and through have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and langs. As a provision against sudden attacks of Cromp, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to somethic by the Cherry Pectoral. So complete is its mostery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral Fablic Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

cured by it.

Broughitts is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that it is unneressary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.
