

LEGAL DECISIONS.

V. ROY ET AL. VS. G. W. PARENT.—In this action, which came up for hearing recently in one of the Superior Courts in Montreal, the plaintiffs claimed \$220 for services as architects, viz., \$120 for preparing the plan of a house which the defendant proposed to erect, at a cost of \$6,000, but which was not built; and \$100 for plan, furnishing quantities, and partial supervision of a cottage built by the defendant at Montreal South. The defendant pleaded, as to the first item, that the plan was not furnished, but was only a copy taken from an architectural publication furnished by the defendant. As to the second item, the defendant pleaded that the plaintiffs were only entitled to \$66 for the plan, and that they had never given the quantities. The court held that the plaintiffs had sufficiently proved their demand, and that the defendant had failed to prove his plea. Judgment was therefore rendered in favor of the plaintiffs for \$220, the amount demanded by the action.

Plaster Your Building With

ACME CEMENT PLASTER

"NATURE'S PERFECT PLASTERING MATERIAL."

Is not an artificial compound, but perfect in its natural state, requiring only calcining to prepare it for use. No acids, chemicals, hair, fibre or ingredients of any kind used in its manufacture; requires only the addition of sand in its application to the wall. More simple in application, uniform, reliable, durable, stronger, cheaper and requires less labor than any plastering material ever produced. Most perfect, fire-proof plastering material on the market. 30,000 tons used in the United States in 1891 (1 ton Acme will cover same surface as 3 tons of the patent materials that are furnished to the trade mixed with sand.) Nearly 2,000 tons used on the World's Fair buildings at Chicago.

Does not require skilled labor. A house plastered with this material can be occupied 4 to 6 weeks sooner than if plastered with Lime Mortar. Owing to its density it makes a house warmer in winter and cooler in summer. But little more expensive than common lime mortar.
