

that aviator among the birds, verily a swooper down to earth as its eagle eye perceives some species of grub.

Beyond dispute is the fact that the main diet of bird life consists of grubs and insects of every description. Without assistance of the feathered tribes,

crawling and winged pests of Manitoba's agricultural domain could not possibly be suppressed. Then, as a resultant issue, grain fields and gardens would speedily picture a condition we dare not even think of.

CHANGES IN STAFF

The following are recent changes in the teaching staffs of the Province:

NAME	LAST POSITION	NEW POSITION
