LLOYD GEORGE --- Pioneer Typewriter User

If you were asked to name the most talked of man in the world today, the man who is "the observer of all observers", the immediate answer would be, LLOYD GEORGE, the new Prime Minister and virtual dictator of England.

Many years after, when plain Lloyd George, solicitor, had become the Right Honorable Lloyd George, Chancellor of the Exchequer, we again find him as the great innovator in the use of the writing machine. At this time he introduced the new Remington accounting machine (adding and subtracting typewriter) into his department—and this was the first machine to write and add the British budget.
