

CANADA TODAY/D'AUJOURD'HUI

NOVA SCOTIA

"Our sons would never give themselves wholly to anything but their rocky homeland on the sea's edge, where life is a struggle that demands a man's utmost and will take no less, where beauty alone is bountiful and only death comes easily."

Thomas H. Raddall was talking about Nova Scotia.

Although the province is called "Canada's Ocean Playground," few visitors frolic in the chilly summer waters. The province is nevertheless enchanting all year round, and some of the people who live there are as handsome as the three above, photographed by Mia and Klaus in 1972.
