

14. The Committee on Chemical Weapons

Norway

Provision of data relevant to the Chemical Weapons Convention

In order to contribute to the negotiations on the Chemical Weapons Convention, Norway presents below data according to the outline in document CP/874 of 12 April 1988.

The data in Tables 1 and 2 reflect the situation in Norway as the beginning of 1988 based on an extensive survey co-ordinated by the Division for Environmental Toxicology of the Norwegian Defence Research Establishment. The chemicals included in the survey were those given in the provisional list of the Schedule (I), (II) and (III) chemicals in document CP/874 of 12 September 1988. The chemicals for production and consumption were for Schedule (I): 100 grams/year, Schedule (II): 1 ton/year and Schedule (III): 10 tons/year.
