QUERY IN COMMONS

Under Secretary of War Tennant Admitted Difficulty in Placing Them.

Canadian Associated Press Cable. LONDON, June 7 .- R. P. Houston, Conservative member of Toxteth, addressed a series of questions to the under secretary of war in the house of commons this afternoon bearing upon the alleged undue detention in England of the Royal Canadian Horse Artillery, unuder command of Colonel Panet, and upon the efficiency of the unit and its officers. Mr. Houston explained that Colonel Panet had had great difficulty in managing his men in consequence of their disappointment and keenness to go to the fighting line and in many cases they had deliberately absented themselves and stowed away to France with other units, only to be discovered and sent back to Maresfield Camp

whether the R.C.H.A. landed in England so fa ras October 18, and are still at Maresfield, although the other three of the four units comprising Brig.-General Seely's column, the Canadian Dragoons, Strathcona's Horse and the 2nd King Edward's Horse have already Canadian Horse forms part of the permanent forces Canada and its commanding officer is one of the best and most efficient Canadian regular soldiers; (3) whether the governor-gen-eral had assured the brigade before its departure that they would be util-ized immediately; and (4) whether their detention was due to their being armed with the 13-pounder gun. Hopes to Use Them Soon.

Mr. Tennant replied that the facts stated regarding the early part of the question are substantially accurate. "I have no information as to what the "I have no information as to what the Duke of Connaught told the battery pefore it left Canada. I have every reason to believe Colonel Panet to be a very efficient officer and the same and men of it also It is true artillerymen who are efficient and well trained with any particular gun can soon make themselves efficient with some other gun, but there is no justification for the suggestion that a slight is placed upon them by being retained in this country for military reasons. Some difficulty is found in placing and utilizing the battery which does not form part of a brigade, especially when it is armed with 13-pounder guns, but it is hoped that the eccasion to utilize their services at the front may shortly occur."

many of the light class of butchers' steers and heifers, such as buyers have been asking for.

The large number on sale caused trade to be dull and draggy, as buyers were trying to buy at lower values, which sellers refused to take. The market lasted all day and closed with 1200 cattle reported unsold.

There were several lots of export cattle left unsold and if one of the local commission firms had not been buying to fill an outside order for this class there would have been many more.

Having compared the sales made during last week with those made yesterday we found that there was little or no we found that there was little or no change in values, only that the market was slower and a larger number left over. The best heavy export cattle again sold at \$8.50 and the choicest of butchers' heifers and steers sold at \$8.40.

A very large number of butchers' cattle sold at \$8 to \$8.25, a very few reaching either \$8.40 or \$8.50, nor were there a very large percentage selling under \$8 considering the number on sale.

Stockers and feeders were slow sale at unchanged quotations.

Drop in Prices Discourages Drovers - Market Was Quiet Yesterday.

MONTREAL, June 7.—At the Montreal Stock Yards, west end market, owing to the drop in prices for cattle a week ago, the receipts have since decreased considerably, and in consequence the supply offered for sale today was very limited, which tended to create a strong feeling, and drovers generally were demanding an advance of 25c. per cwt., which was realized in some instances for small lots, and especially so for good to choice steers. The market on the whole was rather quiet. Sales of small lots of choice steers were made at as high as \$8.85 to \$9. and one or two full loads changed hands at \$8.60 to \$8.65 per cwt.

There were no further developments in the small-meats trade, prices for all lines being steady. Calves were fairly active. Hogs about steady under a good demand from packers.
