ord on its rise of 4 to 86, and Chino also rose to a new maximum, on a gain of 1 to 54. Other metal

shares advanced 1 to 2 points.

All the telegraph and telephone shares added to recent gains. Western Union gaining 3 points at 90, its highest figure for the last nine years. but losing much ground later on pro-fit taking. The war stocks were again heavy at first, but made full recovery and more in the final dealings. United States Steel rose 1½ to 88, but there, too, realizing sales were effective, the stock closing at 87%. Canadian Pacific was the only high class railway stock to lag, but its subridiaries were appreciably higher.
Total sales amounted to 1,020,000

Bonds were strong in spite of an increase of foreign offerings. Total sales par value, \$7.550,000.

# STRENGTH CONTINUES

Steamships and Steel Are Strong -Cement Weakens on Realizing Sales for Profits.

There was a well-defined continu-Exchange yesterday, but the day's business showed considerable irregularity in price movements. Realizing was in effect in some issues, notably and was not dealt in at all on the afternoon board. This company is understood to have orders for about \$9,000,000 of shells, but has taken the order at a cut from previous prices and expectations of profits are not so read expectations of profits are not so rosy as predicted. The more staid issues came in for more attention and Mackay common advanced 2 points and Twin City bid up to 98 without sales. The Steels were strong, with Nova Scotia the exception. Steel of Cana-da made a new high at 42 7-8 and Dominion Steel Corporation at 52. Steel Corporation was in better demand at Montreal, where the price reached \$21-2. It was stated that these shares

will be dealt in at New York in the course of a few days. Steamships, common and preferred, had a big day, the common advancing nearly 3 points and the preferred 3 points from the opening. Montreal was the heavy buyer of the shares thruout the day. The unlisted issues were without feature, but prices were firm.

DIRECTORS LOOK OVER LUCKY CROSS

Another Swastika Mine May Be Reopened After Two Years' Idleness.

SWASTIKA, Nov. 4.—Directors of Lucky Cross Gold Mines, Limited, have been looking over the company's pro-perty here, and it is understood that the mine will be reopened as soon as development work on an extensive

Like the Swastika mine, the Lucky Cross was closed down for lack of funds before the property had been proved one way or the other. Develop-ment work before closing down two years ago included the making of a level at 100 feet and several hundred feet of drifting. There is a ten stamp mill on the property which produced
several gold bricks.
The Lucky Cross is controlled in

Philadelphia and was one of the first mines in northern Ontario to produce Among the visiting directors were Walter and Ralph Herd and W. West of Philadelphia and Frank Duncar of Toronto.

**EUROPE WANTS MORE** 

Telegraph and Telephone Prospects of Obtaining Supplies From Russia Considered Hopeless.

NEW YORK, Nov. 4.—Apart from the continued irregularity of war shares and the quiet strength of investment stocks, the feature of today's active market was the unusual prominence of minor lew priced issues of various descriptions. Among the latter were numerous securities whose value is yet to be determined and in which the rise was evidently of professional origin.

Sentiment was decidedly more cheerful, the European situation, involving the fall of the Greek ministry, being ignored in further domestic advices of an encouraging character. This condition once more found its dearest redection in better railway earnings, higher prices for steel and copper, and resumption of dividends by industrial companies, including American Cotton Oil, which today declared a quarterly disbursement of 1 per cent, after an interim of over four years.

Practically every branch of the stock list was included in today's advance, but coppers were most conspicuous. Anaconda made a new record on its rise of 4 to 86, and

Lower prices on hogs weakened pro-visions. About the only important buying came from traders who were

Inquiry for McIntyre and Dome Extension and Other Stocks Make New High Prices.

A somewhat quiet day was experienced on the Standard Exchange yesterday, there being about as little deterday, there being about as little desire to sell as there was to buy. Where actual buying orders had to be filled prices moved up as in the case of Porcupine Crown and Dome Extension, but other issues subject to room trading operations backed and filled within a narrow range. Silver made a new record at 50c an ounce, but this passed unnoticed for the time being except perhaps to strengthen file price. of Kerr Lake, which sold up to 399.
There was considerable public buying during the atternoon session, with Mc-Intyre and Dome Extension in chief favor. McIntyre made a new high at 57 1-2 and Dome Extension changed hands at 28 1-4. Plenaurum was another stock to reach new figures at 79. Yesterday's late interest in the mar-

Business, while still large, upwards of 22,000 shares of listed stock changing hands, was considerably below the volume of earlier days of the week. The steel stocks and Canada Steamships securities were the strongest issues of the market. Iron and Steel of Canada touched new high prices for the year, 5214 and 42 respectively, the latter representing an absolute high record for the stock. Scotia was erratic, rising to 105, and falling to 1021/2, but last sale went out at 103.
The Canada Steamship securities were at new high prices for the year. the common rising 31/4 to 19, the voting

trust certificates 4 to 12, and the preferred 41% to 751%. Further profit taking in Bridge was absorbed only at material concessions, the opening being at 2221/2, or 41/2 the mine will be reopened as soon as down, and the close at 220½. **WORKING TO CAPACITY** WITHOUT SHELL ORDERS

Dominion Steel Corporation Not Overly Anxious for Munition Orders.

One who is prominently identified with Dominion Steel Conporation made the statement to The World yesterday that it was a matter of indifference whether that company received any war contracts or not. The steel com-pany is now worked to its capacity both in the steel and coal departments. and it would be no particular advantage to accept munition orders except at profitable prices. Besides, The World's informant stated that no steel could be obtained for delivery either in Canada or the States until after Jan-1, and as prices were continually ris-ing it was difficult to get the steel companies to make contracts for advanced delivery. The Dominion Steel Corporation has submitted a tender for heavy shells, but is making no special effort to get the award. It is believed that owing to the world-wide demand as the result of the war the steel business will have a most pros-

perous period for at least five years. PRICE OF SILVER. NEW YORK, Nov. 4.—Commercial bar silver is up %c at 50c.

VIME was, when many people were reluctant to make Wills. They felt that taking death into their calculations, somehow invited it.

To-day, every man realizes that for his dependants the need of careful control of his resources is as pressing after his death as before.

Many have found our advice helpful in providing such control. We invite, and shall respect, your confidence.

LONDON STOCK EXCHANGE. LONDON, Nov. 4 .- Money was in fair

LONDON, Nov. 4.—Money was in fair supply and discount rates were easy to-day. American exchange opened at 4.64 and improved steadily to 4.65 to 4.65 %.

The defeat of the Greek Government created a good undercurrent on the stock exchange, but business was not appreciably increased. Home rails, Japanese bonds and oil shares were the best sections and foreign issues were regenerally good with Brazilian weak exceptions.

American securities developed some irregularity. The low-priced shares a were active and transactions were fair in other directions, but in the afternoon Canadian Pacific dropped and the mark ket closed easy on the rise in exchange.

LONDON METAL MARKET. LONDON, Nov. 4.—Spot copper, £47,4

Electrolytic, £89 10s, unchanged.

Spot tin, £163 10s, up £1. Futures, £162 15s, up £1 5s.

Straits, £163 5s, up £1.

Sales—Spot tin, 20 tons; futures, 50 Lead, £24 6s 3d, off 3s 9d. Spelter, £75, up 10s.
