ment a strong stream of water is turned on to the cans to cool them, and they are then laid out on the floor to cool until the next morning, when they are tested by experts before being piled up ready for lacquer. At the end of the season the pile of cans is thoroughly overhauled by experts to see that all is in order before passing into the lacquer tanks, a solution of benzine and lacquer, from which the cans emerge a beautiful brown colour, so familiar to the consuming public. They are then labelled (if necessary) and again tested

After emerging from the second boil the cans are placed in the lyc-tank, made up of strong caustic soda, etc., where they are thoroughly cleansed from the dulling effects of the steam in the boiling. Coming from this treatment before being boxed up for shipment either to England or other parts of the world so that it is extremely difficult for a can to leave the cannery which is not perfect in every respect. Sailing ships for both London and Liverpool come up the

Fraser River and lie at the cannery wharves, the salmon being thus loaded right from the cannery direct to England.

The canning process has reached a perfection rarely equalled in any business where individual skill is required in intricate operations. The credit for many improvements in machinery devised to facilitate the process, is due entirely to British Columbians. The new machine for "topping" cans, invented by two business men of Vancouver, is a marvel of ingenuity and has contributed much to the perfection of this industry.

HARRISON HOT SPRINGS.
St. Alice Hotel.

WITHIN three hours' ride from Vancouver is situated the Harrison Hot Springs, well known as a charming health resort. The season opens on the 1st of May and extends to the 1st of September, and a more beautiful spot would be difficult to find in any country. Though visited by people from all parts of the Province, it is essentially a Vancouver resort, owing principally to the convenience in reaching it. The C.P.R.

is mineralized by sulphur, and is found very healthy both for drinking and bathing. Trout-fishing in Harrison River is excellent, and good sport abounds throughout the entire immediate surroundings. Boating and sailing on Harrison Lake is very much indulged in, and any desirable craft is obtainable at the boat houses, which are conveniently located near the hotel.

runs weekly excursion trains, leaving here Fridays and Saturdays and returning Mondays and Tuesdays, for which the fare is \$2.50 for the round trip. The hotel accommodation is first-class and the charges moderate. The Springs are about 400 yards from the hotel, within the shadow of the mountains, and offer every convenience to bathers in the way of private bath houses, etc. The water
