Totals	1,933½	\$129,171 02	\$5,829 00

“ We give away our property, while Quebec for 1,933 square miles, received the sum of \$129,171, and a rent annually of \$5,829. Our concessions are given away, and that for 21 years, while Quebec during that period collects \$122,409 in annual rent. And from these 1,933 square miles Quebec therefore receives the following sums :

Bonus.....	\$ 129,171
Annual rent.....	121,409
Total.....	\$ 251,580

If, instead of giving away our 15,660 square miles, as we have done, we had exacted, like Quebec, a price, we should be the richer by \$2,020,140.”

These are not my words, or the words of the liberals of Quebec, but of the conservatives of Ontario. I do not know whether they are right, for the conditions are certainly not the same in Ontario. It is not my intention to criticize their policy, to which all in this province are more or less strangers. But I desired to place before you the difference in the stand taken by the conservatives of Ontario and those of Quebec. Perhaps they are quite wrong. I would not be surprised if they are, if I am to judge them by what our opponents say.
