COUNSEL WILL REPRESENT ONTARIO

Sir James Whitney Feels Pretty Sure That This Province Will Take Advantage of Suggestion Made by Minister of Justice—Bill to Govern the New Provincial Museum.

Counsel representing Ontario will be appointed to watch the discussion before the privy council of the marriage question arising out of Mr. Lancaster's bill in the House of Commons. Sir James Whitney read a communication in the legislature yesterday afternoon from the minister of justice at Ottawa, setting forth the features of the bill to be discussed, and inviting the Ontario Government to add any further suggestions that would be of particular interest or concern to the people of this province. The appointment of counsel from Ontario at the privy council hearing was also referred to. Sir James Whitney remarked after the house had adjourned that he did not know just yet who the counsel would be, but he felt pretty sure that Ontario would be represented when the case was heard.

Questions of law were before the legislature at yesterday afternoon's session. Hon. J. J. Poy's bills to make alterations in the acts respecting the law society of Upper Canada, respecting barristers-at-law, and to amend the County Judges Act were some of the bills discussed. Several amendments were introduced in the acts respecting the law society of Upper Canada, and also in the County Judges Act. Hon. J. J. NEWS ABOUT THE SPRING HAT AND ITS RELATION TO A WOMAN'S HAIR.

Edith M. Weidenfeld, writing of the spring hat in The Woman's Home Companion, says that an arrangement of the hair plays a more important part in millinery than the average woman admits. The average woman, when she chooses a hat, has an idea that she ought to get the newest in color, shape and trimming, regardless of its relation to the shape of her head, the contour of her face, or the arrangement of her hair. She wonders, then, why she does not like her hat after she has worn it, and it takes several long interviews with her mirror before she realizes that she hat which the saleswoman assured her was the newest thing, and becoming, is entirely inappropriate and unrelated to her own particular style.

"Stiff, heavy spring hats are no longer modish; they have been succeeded by soft straw braids and many of the new models are covered with taffeta, either plain or in changeable effects.

"Trimmed hats are slipping around toward the front, many being placed at the direct front, and others at the side very near that point. For dress hats, ostrich plumes are fashionable for trimming. They are either tucked up on the side, or they are tucked up on the front, or they are tucked up on the side and front. They are either tucked up on the side, or they are tucked up on the front, or they are tucked up on the side and front.

H. H. Stevens, M.P., of Vancouver, Speaking in Canadian Club, Claims That All White People Are Opposed to the Admission of Wives of Sikhs.

Once again did H. H. Stevens, M.P., of Vancouver, uncock his views on Oriental immigration, this time before the Canadian Club yesterday. He made a thoro analysis of the situation on the coast and declared against the Hindu, Japanese, and Chinese, and he was especially severe on the majority of the white people in British Columbia. He refrained from being sensational, and despite his reputation as a jingo, his main objection to the admission into Canada was his argument that assimilation of the races was impossible. Therefore, he opposed the admission of Hindu and Japanese immigrants, and he would foundate the country and tend to build up a number of separate nations, creeds and races, and thus work a serious menace. K. J. Dunstun presided.

Unreliability was one fault of the Hindus he said. They could not be trusted. They perjured themselves in the courts. The judges of the coast never pronounced sentence on a Hindu who swore by any oath or affirmation. He would foundate the country and tend to build up a number of separate nations, creeds and races, and thus work a serious menace. K. J. Dunstun presided.

A FRENCH DRESSMAKER WHOSE SALARY IS \$80,000 A YEAR.

In The Woman's Home Companion there is an interesting account of Mme. Paquin, who is at the head of the most successful dressmaking business in the world. Following is an extract from the article:

China Are Slaves.

There is big money to be made by syndicates in coast cities in British Columbia to Canada. These celestials had the passage and had to pay, and then they were taken to work in mines and other establishments and ordered to live there until they had paid their debts. They were then taken to the coast and sold as slaves.

An Organ for a Song.

The old adage that one may buy an article for a song or the price of a song is an illustration just now in the wonderful bargains that the old firm of Heintzman & Co. Ltd., 193-195-197 Yonge-st., are offering in high-class organs. This firm are neither pianos nor pianos they are constantly taking orders in exchange. It is to their interest clear them out of the warehouses as rapidly as possible and some thirty-five men in stock have been marked for sale at \$15 each, a mere fraction of the regular price, and they may be bought on payments of \$5c a week.

DON'T EXPOSE CHILDREN TO ANY KIND OF DISEASE.

In an article on the treatment of sick children in The Woman's Home Companion, a famous New York specialist, Dr. J. M. Denton, says: "Never let a child be exposed to any contagious disease in order that he may have it once and be done with it. Even the so-called simple child's diseases, such as measles or whooping-cough, have a death-rate that is appalling."

Sunder Singh's Reply

Before leaving for Vancouver last night, Dr. Sunder Singh prepared the following statement for The World:

"Mr. H. H. Stevens, the energetic member of parliament for Vancouver, B.C., is trying to fan up the flame of race hatred and prejudice against the loyal Sikhs. He did not go into personalities and regale the audience with heaping abuse on my poor head, as he did before the Women's Canadian Club the other day. For if the question of Hindu immigration is to be settled at all it is by hard matter of fact and business like presentation of the pros and cons of the case and not by abusing a person or a set of persons. I hold no brief for oriental immigration and it is an outrage on the Sikhs of the empire to be lumped together with the Chinese and the Japanese. Mr. Stevens says that the Hindus are not pioneers. Perhaps he is right. But the great Uganda Railway in East Africa, the prohibitive terms demanded by the township. The section of the line between Sunnyside and the Hudson's Bay wharf, however, he took over this summer.

The radial line has operated thru the Township of Etobicoke under an agreement with the Hudson's Bay wharf and with franchises granted by the Township of Etobicoke. Proposal to Take Over the Mimico Radial Line Will Be Discussed - City Required to Give a Bond to Make Good Its Obligations and Protect Township From All Loss.

Mayor Geary stated yesterday that there would be a conference between the city and Etobicoke Township tomorrow regarding the city's proposal to take over the Mimico Radial Line, running thru that township. In the past the city has been unable to secure the line, owing to prohibitive terms demanded by the township. The section of the line between Sunnyside and the Hudson's Bay wharf, however, he took over this summer.

NEW PARKS COMMISSIONER WILL SOON BE RECOMMENDED

By Monday or Earlier Parks Committee Will Send a Name to Council, and Probability is That Chas. Chambers Will Be Suggested.

Controller Foster stated at the meeting of the parks committee yesterday afternoon that a recommendation as to who should be the new parks commissioner would be made by the board of control at the meeting of the council on Monday. The committee, under the leadership of the new parks commissioner, has been reviewing the various parks in the city. The board of control will recommend a name to the council, and it is probable that Chas. Chambers will be suggested.

AN AMERICAN GIRL'S EXPERIENCE WITH AN ITALIAN MUSIC TEACHER.

A professional singer tells in The Woman's Home Companion of the experiences she had in Europe preparing for her career. Thousands and thousands of American girls are yearly subjected to the experience of a teacher who has not a word of English to speak. The following describes the following account:

"I started for the studio and my first lesson. Evidently the maestro had my history at his finger-tips. He was an unrepentant proponent of an American girl's health was enormous. He said I was a plump person and I must be careful. He said I was a plump person and I must be careful. He said I was a plump person and I must be careful.
