SIMPSON SHOOT RECORD 20 BULLSEYES OUT OF 21

Forty-Eighth Highlanders Win
First of the Series of Matches
for Stimson Trophy.

Staff Sgt. J. H. Simpson of the Royal Grenadiers established a marksmanship record at the Long Branch Ranges Saturday, that will probably stand for a long time to come. He scored 104 points out of a possible 105, at 200, 500 and 600 yards, only missing the bull's eye once out of 21 shots, and then putting on a fine "inner."

The result of Mr. Simpson's work stirred up a wave of excitement at the ranges, as his phenomenal score was made in the Stimson Trophy match, for which ten sergeants from each of the three chief regiments were competing. This was the first of the series of three matches for the trophy.

When things were figured up, however (including the total of Sergeants Kerr, Bayles and Whitley shooting at Biele), the 48th sergeants led by 8 points ahead of the Grenadiers, and 12 points ahead of the Queen's Own. The poor shooting of the latter organization is hardly fair to the regiment, as some of the best men were not out.

48th Highlanders—Staff Sgt. A. Graham, 99; Q. M. Sgt. McVittie, 87; Staff Sgt. W. Davidson, 87; Sgt. W. Elliott, 91; Staff Sgt. J. C. Smith, 90; Staff Sgt. J. O. Spence, 90; Sgt. Kerr (Biele), 90; Sgt. D. W. Smith, 87; Sgt. S. Buchin, 87; Col. Sgt. H. R. Roberts, 86; total, 914.

Royal Grenadiers—Staff Sgt. J. H. Simpson, 104; Sgt. W. Kelly, 88; Sgt. Surplus, 86; O. R. Sgt. J. Phillips, 84; Sgt. C. E. Phillips, 90; Staff Sgt. D. Craig, 88; Sgt. Bayles (Biele), 88; Sgt. F. Seale, 88; Sgt. F. Armstrong, 81; Col. Sgt. T. McEwen, 78; total, 901.

Queen's Own—Staff Sgt. Creighton, 101; Staff Sgt. A. Rose, 88; Sgt. J. P. White, 85; Staff Sgt. G. Cliff, 80; Sgt. G. F. Atkins, 75; P. Sgt. W. Giles, 78; Sgt. Whitley (Biele), 71; Sgt. J. Dempster, 68; Col. Sgt. J. W. Robertson, 66; Staff Sgt. F. Webb, 66; total, 772.

The feat of Staff-Sgt. Simpson will likely stand as a record for many a long day. This is the first time that his remarkable score has been made on the Long Branch ranges, and is all the more creditable as it was made in a squadded competition and under strict match conditions. Staff-Sgt. Simpson's shooting this year is a very high order. He has represented Canada many times on the Wimbledon and Biele teams, and his record as a marksman is one to be justly proud of. His 104 was scored out of a possible 105, with 7 bullseyes, one each of the 200 and 500 yards ranges, and 6 bulls and an inner in the 600 yards; the inner being his fourth shot on the range.

SETS TYPE BY WIRE.

Printer Expects to Revolutionize the Transmission of Messages.

Milan, July 14.—A young printer named Cava has invented a method of typesetting by telegraph which he thinks will revolutionize the transmission of messages. He couples the Hughes instrument with the monotype composing machine and instead of the message being printed on a tape receiving apparatus, perforations are made in monotype paper bands. The experiments are said to have been completely successful. The newspapers bitterly complain that the Italian government will not allow them to have private wires, without which it is impossible to make use of the Cava discovery.

Lost Memory.
A Bingley tailor, who had completely lost his memory after suffering from influenza, was restored to his friends by the Leeds police. His identity was traced by a receipt in his possession bearing the name of a Bingley doctor.

ROSSLAND HAS TWO FIRES WITH LOSSES OF \$30,000

Two Buildings Gutted and Explosion Directs Attention to Blaze in Warehouse.

Roseland, B. C., July 14.—Roseland had a \$30,000 blaze to-day. The fire started in the F. C. Harrison Block, a three-story structure on Columbia avenue, and soon communicated to the Windsor Hotel on the east, and the building occupied by T. P. Morrow, druggist, on the west. The Harrison Block and the Morrow Building were reduced to ruins, and the Windsor Hotel completely gutted. It was then thought that the fire was completely burned out, but sparks from the burning building set the dry grass alight around Hunter Bros. warehouse, in the centre of the block, and an explosion of a small quantity of gunpowder occurred.

The losses are: Hunter Bros. warehouse and goods, \$12,000; insurance, \$30,000; F. C. Harrison, three-story block, \$40,000; insurance, \$100,000; Ben Lewis, furniture in Harrison Block valued at \$250,000; insurance, Dr. Stevenson, one-story building, \$1500, insurance \$2000; T. P. Morrow, druggist, occupied the Stevenson Building, with a drug store, lost \$5000, insurance \$2000; Windsor Hotel, owned by J. Macmillan, lost on Building \$5000, insurance \$25,000; N. A. Burrett, loss on furniture and fixtures in Windsor Hotel \$5000, insurance \$2500; N. W. Newton, loss on two-story building occupied by Empey Bros., \$150; Empey Bros. damage to stock by water and smoke, \$2500; Josiah Stacey, loss of household goods \$1000, insurance \$200; Robert Fox, residence, occupied by Josiah Stacey, \$300, insurance \$75; Horace C. Harrington, fruit and cigar dealer, lost \$250, fully covered by insurance.

TO BUCK THE STANDARD.

Railways Lower Oil Rates to Assist the "Independents."

Chicago, Ill., July 14.—Executives of western roads to-day decided to resume prorating arrangements with the eastern roads, materially reducing the rates on oil and its products from the eastern oil fields and refineries to all points west of Chicago.

Independent oil men declare this action will enable them to compete with the Standard Oil Co.

TAY PAY'S VISIT.

Will Tour Canada and Speak in the States.

London, July 14.—T. P. O'Connor, president of the United Irish League of Great Britain, will go to America early in September.

He will be a guest of Sir Thomas George Shaughnessy, president of the Canadian Pacific Railway, and will address meetings in Philadelphia, Chicago and Boston.

INTIMIDATING WITNESSES
IN A SENSATIONAL SUIT

Pittsburg, July 14.—It was learned late to-night that threatening letters had been written to witnesses for Mrs. Hartley, who is being sued by Augustus Hartley, for divorce. As a result Mrs. Alexander W. Sloum, who is said to be Mrs. Hartley's closest friend, is constantly attended by a physician, and also is guarded by two private detectives. Mrs. Sloum was one of the first persons to testify for Mrs. Hartley.

To-day Mrs. Sloum received a letter commanding her to leave Pittsburg, retract her testimony given in favour of Mrs. Hartley, or she would be shot.

FARM LABORERS' EXCURSIONS, 1906

Reports from the west indicate that the wheat crop of the Canadian northwest will be greater this than any previous season. A large number of eastern farm laborers will be required in the west to assist in harvesting this year's crop. Farm Laborers' Excursions will be run as follows:

August 14, 1906.—Stations south of, but not including, Toronto to Toronto to Sarnia (including Toronto).

August 17, 1906.—Main line from Toronto to Sarnia and stations north (except north of Cardwell Junction and Toronto on North Bay section).

August 22, 1906.—From all points, Toronto and east to and including Sharn Point Lake and Kingston, and north of Toronto and Cardwell Junction on North Bay and Midland divisions.

Tickets will be sold to female as well as male laborers. Tickets will not be sold at half rate to children.

For pamphlet giving full particulars apply to nearest Canadian Pacific Agent or write to C. B. Foster, D.P.A., C.P.R., Toronto.

CATHEDRAL ON CROCKER SITE.

San Francisco, July 15.—Bishop William F. Nichols of the Episcopal Church says that the site of the Crocker Mansion on Nob Hill will be given to the diocese of California for the building of a cathedral.

The lot is probably the most valuable piece of residential property in the city, as it is the finest site in the most exclusive district and commands a view of the Golden Gate, the bay and the city.

Tennamni (Deep Water).

This new resort reached only by the Grand Truck, and opened only last year, is the "Sportsman's Paradise." Splendid accommodation. Ask any Grand Truck Agent for information and illustrated folders, or call at City Ticket Office, northwest corner King and Yonge-streets.

Prosecute Kleptomaniac Princess.

Hanover, July 14.—The crown prosecutor has decided to prosecute the Princess von Wrede on a charge of robbing hotels of their table silver. A large quantity of this silver was discovered in the princess's castle at Basedow, Mecklenburg, last April. The friends of the princess declare that she is a kleptomaniac, and she has been confined in a sanitarium since the exposure.

Body Floating in Lake.

Sarnia, July 14.—The body of Mrs. Taft, an inmate of the House of Refuge, was found floating in the lake this morning. She disappeared from the refuge only a few hours before.

Gervona Floated.

Quebec, Que., July 14.—The Thomson liner Gervona, previously reported ashore on Anticosti coast, was floated off this morning, and is being towed to this port.

REFUSING INSANITY DEFENCE THAW DISMISSES COUNSEL

Judge Olcott Receives Formal Notice—Mrs. Thaw in New York to Assist Boy.

New York, July 14.—Mrs. Wm. Thaw, mother of Harry K. Thaw, accused of the murder of Stanford White, returned to New York to-day on the steamer Kaiser-Augusta-Victoria. When the passengers landed at 5 P.M., it was too late for Mrs. Thaw to visit her son in the Tombs. To-morrow being Sunday no visitors are allowed there except by special permission. Realizing that she perhaps would arrive too late to see the prisoner to-day, Mrs. Thaw sent a wireless telegram, which was delivered to Thaw, and seemed to cheer him. Mrs. Thaw was said to be in fair health.

Mrs. Wm. Thaw was accompanied from England by her son-in-law and daughter, Mrs. Carnegie. She was met on the pier by her son, Josiah Thaw. The party was driven in automobiles to the Hotel Lorraine, where Mrs. Thaw was soon closeted with Mrs. Evelyn Nesbit Thaw. Their meeting was said to be most cordial.

No Statement.
Speaking for his mother-in-law, Mr. Carnegie said: "I am very sorry, gentlemen, but Mrs. Thaw is so nearly prostrated over this terrible case that she cannot possibly see you. She has absolutely no statement to make. If she has anything to say it will be communicated through her lawyers some time later—possibly Monday or Tuesday, probably not at all."

As she was leaving her stateroom Mrs. Carnegie passed long enough to say to the reporters: "Mother asks me to say that she has returned to America to defend her son. She is naturally not conversant with all the details of the case. All the information we have received is from the newspapers and personal cables, supplemented by wireless reports aboard the boat."

It was announced to-night that Harry Thaw had the law firm of Black, Olcott, Gruber & Bonning in a fit of anger. The dismissal came as the culmination of several arguments Thaw has had with various members of the firm over the question of a defence. Judge Olcott, who has been the active member of the firm in connection with the case all along, has insisted that insanity be made the chief point in the defence. It is believed, while Thaw has insisted with emphasis that he would not permit the insanity plea.

On Friday afternoon Thaw, during a verbal combat with Judge Olcott, became enraged and told the lawyers of the family that the firm was no longer his counsel. Judge Olcott then left the prison, and to-day the firm received the letter from Thaw:

Dear Sirs.—After careful consideration, I have concluded to make a change in my legal advisers, and to engage the services of Messrs. Black, Olcott, Gruber & Bonning, who I have concluded to no longer retain as my attorneys. You will therefore regard your connection with my case as finished, and will please deliver all papers in my case to Clifford W. Hartridge.

I have sent a copy of this letter to Mr. Hartridge and ask you to communicate with him as you may deem proper. Harry K. Thaw.

Mr. Hartridge heretofore acted as personal counsel to young Thaw.

WILL OPEN SHORTLY.

Ed. Mack Says That the Genuine Semi-Ready Will Soon Be Obtainable in Toronto.

For a few days there will not be a real Semi-Ready store in Toronto. Ed. Mack, the merchant tailor, who has secured the exclusive franchise for Toronto for Semi-Ready tailoring, says the first store will be opened shortly at 47 West Queen-street.

He gets possession of the store adjoining his Yonge-street premises on the first of September. Existing stores will be joined and made one, and will be open in time for the fall trade with a \$25,000 stock of real Semi-Ready tailored garments.

Those who have seen the new Semi-Ready garments pronounce them the finest they have ever seen.

Cupid Was Along.

New York, July 15.—Another marriage arising from the trip of the Taft party to the Philippines and Japan a year ago was announced to-day by the engagement of Congressman W. Bourke Cockran of New York, and Miss Anne Ide, daughter of Gov. Gen. Ide of the Philippines, having just been announced.

Mr. Cockran and Miss Ide met for the first time on that trip. Miss Ide joining the party at Manila and going with it to Japan and China.

Ideal Vacation Trips.

That everybody should take a vacation is acknowledged by all. No matter how pleasant your home may be, a physician will tell you that a change from every-day life is desirable. A few days, weeks or months as you please of inclination may dictate, spent in the woods among the pines, cedars or balsams, along the beautiful Canadian resorts of Lake Simcoe, Muskoka, Georgian Bay, Algonquin Park, Massey, Kawartha Lakes, Thousand Islands, is what the busy people need for strength and vigor. Recollect it pays to take a vacation. Ask any Grand Truck Agent for information and illustrated folders, or call at City Ticket Office, northwest corner King and Yonge-streets.

GOMPERS TO TAKE A HAND.

Washington, July 14.—Speaker Cannon has decided to prosecute the American Federation of Labor, are preparing to go upon the stump and combat each other in the coming congressional campaign.

To Extract Whiskey From Empties, Albany, July 14.—To-day was applied a certain method for the purpose of extracting whiskey from the empty barrels previously containing whiskey. The object of the Greater New York Extracting Company of Brooklyn, incorporated to-day, with a capital of \$5000,

Some of the Strong Features Brought Out at the Recent Investigation of

The Mutual Life of Canada

We Have Been Examined by the Royal Commission

and the investigation proved thoroughly honest management. The company is sound to the core and its affairs are conducted along scientific and popular lines, solely and economically in the best interests of its policyholders.

Gilt-edged Assets, Dec. 31st, 1905—\$9,296,092

Not a dollar of stocks.
Not a dollar of unauthorized securities.
Not a dollar of speculative investments.
Not a dollar with subsidiary Companies.
Not a dollar "written up" in its list of securities.
Not a dollar for stockholders; every dollar for policyholders.
The Company is in the enviable position that it can convert on demand its entire assets into gold and at the same time largely increase its surplus.

The Real Estate

held by the Company (outside of Head Office Building) IS LESS THAN \$1000.

Expense Rate Unusually Low

Being the LOWEST OF ALL Canadian Companies for the year 1905, notwithstanding that the LARGEST VOLUME OF NEW BUSINESS in the history of the Company was written in that year.

Remarkably Favorable Mortality Experience

The losses by death in 1905 were only 49% of the losses that were normally expected to occur. The fine quality of this Company's business is shown by the notable fact that during the past 15 years the death losses AVERAGED ONLY 53% OF THE EXPECTED.

The Rapid Growth of the Company's Income

The income for 1895 was \$735,079, while in 1905—ten years after—it reached the large sum of \$1,956,519. The interest income exceeded the death losses during the same period, by \$568,945.

The Mutual Life of Canada

(Head Office, Waterloo, Ont.) is an Ideal Company, Furnishing Absolutely Perfect Protection to its Policyholders at the Lowest Possible Cost.

WOMAN'S WORLD

Economy in Ice.

It is surprising how much one may economize in the ice used in the refrigerator or icebox if one uses a little care. To begin with, it is more economical to have the ice in large blocks, getting one large block if necessary every second day, rather than one small block daily. See that it is clean, that the sawdust has been removed, then wrap it in a large, clean piece of grey flannel before putting it in the icebox. You will be surprised how slowly it will melt.

Do not open the lid of the ice chamber any more than necessary, say each day the cost of refrigerators has been so reduced as to put them within the reach of most people, while for those who have even a refrigerator too much there is the icebox, made in various styles and at almost every price.

Fresh Air and Sunlight.

Fresh air and sunlight will do more toward putting people in good health and keeping them so than almost anything else, perhaps with the single exception of good food, properly prepared, and plenty of pure water. Certainly were one asked to name the four essentials to health, none of these things could be ignored in the reply.

Fresh air should be admitted freely to every part of the house, from cellar to garret, and the necessary outlet for impure air should also be provided. Bedrooms, for instance, should have an open transom over the door, as well as the opened window, if one would awake in the morning fresh and vigorous.

The daily sun bath for the rooms is another necessity. The direct rays of the sun are considered as actively promoting the assimilation of nutrition by the tissues of the body and the formation of vigorous blood elements. Sunlight, too, is one of the best disinfectants, and acts directly in the destruction of organic matter by retarding the development of bacteria.

Many physicians say that plenty of fresh air and sunlight are the most efficient of medicines in that dreadful plague, consumption. Certainly they are important factors in its prevention.

About Moths.

A word about moths. The damage to clothes is done by the larvae of the moth, hence our object must be to prevent any eggs being laid in the house. Then all woollens and furs, too, should be tied in tight cotton bags, or packed in boxes with strips of paper pasted over the cracks around the lid. Each article should be thoroughly aired and tightly wrapped in newspaper, with a mothball, some camphor, pepper, or any other of these preventives, before being placed in the bag or box.

Of course your grocer has WINDSOR TABLE SALT.

He will send it to you always, if you specify WINDSOR.

Burns and Their Treatment.

Boys

When a burn does not break the skin it is best treated by covering it thickly with baking soda or flour and applying a layer of cotton batting and a bandage to exclude the air. Or binding it up immediately in an oiled cloth is also very beneficial. In taking out the fire, if the outer skin is destroyed, dry powder is not so useful, as it will adhere to the injured part, and be difficult to remove. When the skin is broken it should be kept perfectly clean and washed with a weak solution (one part carbolic to 40 of water), and then dressed with carbolized or pure vaseline or olive oil and bandaged, not too tightly lest circulation be affected.
