came a part of the army ration. His answer was: "You had better ask the Secretary of War or the Commissary General. I think hey can tell you. I know it was sent to the army as food, and the pretense is that it was sent as an experiment."

Gen. Miles, in saying that this food was sent to the army as a pretense for experi-

sent to the army as a pretense for experiment, says that which implies corruption. I answer that it was not furnished under the pretense of experiment, and if, and when Gen. Miles charges that it was furnished as a pretense of experiment, and if, and when Gen. Miles of experiment, he lies in his threat, he lies in his threat, he lies in his beart, he lies in every hair of his head and every pore of his body. He lies wilfully, deliborately, intentionally and maliciously. If his statement is true, that this was furnished under pretense of an experiment, then I should be drummed out of the army and incarcerated in state prison. If his statement is false, as I assert it to be, then he should be drummed out of the service and incarcerated in prison, with other libellers.

His statement is a scandalous libel, reflecting upon the honor of every officer in the department who has contracted for or purchased this meat, and especially and particularly on the Commissiary-General-myself. In denouncing Gen. Miles as a liar when he makes this statement, I wish to make it as emphatic and as coarse as the statement itself. I wish to brand it as a falsehoods of whoise cloth, without a particic of truth to-gustain it, and unless he can prove his statements he should be deemounced by every honest man, barred from the clubs, barred from the society of decent people, and so ostracised that the street bootblacks would not condesseend to speak to him. He has fouled his own nest, he has uspersed the honor of a brother officer without a particle of evidence or fact to sustain in any degree his scandalous, libel.

Montreal Bank Clerk Got Speculating and Came Out at the Wrong End of the String.

Montreal, Jan. 12.-(Special.)-There was a big sensation to-day in bank circles when it was reported that a bank clerk had gone wrong. Investigation showed that Mr. A. Rossland to-day, defeating Mayor Wallace E. Mussen, who has had charge of the up-E. Mussen, who has had charge of the uptown branch of the Merchants' Bank of Canada, had admitted that he had appropriated to his own account a large sum of money. Mussen had accounts open wish at least three brokers, and had evidently been speculating at a loss. When confronted with his wrong-doing Mr. Mussen admitted the corn and quite a large sum of money was returned to the bank. He had in fact about \$500 to his credit with one of the leading brokers. Mussen belongs to a wealthy family, and he will probably be given a show.

Mr. Ryerson Barnes of Sebright, Ont., Meets Instant Death in a Runaway.

Orillia, Jan. 12.—On Tuesday Mr. Ryerson Barnes, a respected resident of Sebright, met his death in a peculiarly sad and shocking manner. His wife and son were preparing to come to Orillia, and he stood holding by the head a spirited team of coits, which he had just harnessed. The armals became frightened and started to run, carrying Mr. Barnes on the point of the tongue or skeigh pole. The horses collided with a stump, the pole impaling Mr. Barnes, and causing almost instant death.

## Yankees Will Not Give Free Lumber for Free Logs.

CANADIANS MADE THE OFFER

And Also Agreed to Give Free Pulp Wood Into the Bargain.

United States Delegates Would Entertain No Such Proposition, But ber, Making It \$1.60 Per Thousand Feet-And There the Matter

Washington, Jan. 12.—Representatives of the American and Canadian lumber intering the American lumbermen were: W C McClure of Duluth, S T McKnight, C A Smith and B F Nelson of Minneapolis, C W Goodyear of Buffalo and Judge J W Cochran of Ashland, Wis. The Canadians were represented by Wil-

resenting the J R Booth Lumber Company, J H Eagan, A Lumsden and others of Ottawa and George M Clinky of Montreal. There was also present United States

There was also present United States High Joint Commissioner John A Kasson, Congressmen Stewart, Broussard and Towney and Mr. Charltou, a member of the Canadian High Joint Commission.

Mr. Charlton, the first speaker, was followed by Representative Towney, and he by Mr. Edwards.

Free admission to Canada of American forest products and free export of saw logs and pulp wood are the concessions the Canadians offered. In exchange they put in a strong piea for free lumber. The Americans, however, produced data tending to show that the manufacture of lumber in Canada is much cheaper than in the United States and that their proximity to the New England market and the important concession granted them by the Canadian reads, placed the northwestern and southern product of the United States at a very great disadvantage, and consequently their demand is wholly untenable. It seems probable, however, that the American lumbermen rather than that the pending treaty between the two countries should completely fall, will consent to any further which would make the rate \$1.60 a thousand feet, but under no circumstances, it is said, would they consent to any further reduction.

The conference came to an end this afternoon, with no further results than, as one of the American said, "to have had

and than in the Stotes of Machigan, Minnesota and Wisconsin. They do not regard the comparisons made to-day as fair ones, and think that the Americans did not make that thorough enquisy since the cost which the importance of the subject demands, preferring to cite isolated cases rather than have a general average arrived at, which would be out the contention they make, and give subjected products.

William Hayes is lying at his home at 54 Regarding covered conveyances to take prisoners to the cells or the jail, the judge said that perhaps nowadays the community was paying a little too much attention to the comfort of persons convicted of crime. The idea of codding them, which was exhibited, for instance, in the supplying of tobacco for prisoners in penitentiary, so that they could enjoy themselves at the ccuntry's expense, was not called for by any good reason that he could see. A treadmill would be a public improvement on some of the present comfort of peniteatiaries. The most valuable thing the country is could do for either itself or an offender against society was to give the latter the habit of hard work. Once accustomed to that, an idle life would mean misery to them. No one accustomed for years was paying a little too much attention to the comfort of persons convicted of crime. The idea of coddling them, which was exhibited, for instance, in the supplying of tobacco for prisoners in penitentiary, so that they could enjoy themselves at the country's expense, was not called for by any good reason that he could see. The most valuable thing the community could do for either itself or an offender against society was to give the latter the habit of hard work. Once accustomed to that, an idle life yould mean misery to them. No one accustomed for years to hard work was likely to relapse into an idle life. The judge's opinion was that the main origin of crime in the community was not drink, but idleness.
