### DR. HUNTER OPPOSES IT NOW

Says That Dr. Hawke is Ahead of Him in Seeking Office.

Dr. John Hunter of the board of education will oppose the appointment of a medical health inspector for the schools until the necessity has been fully discussed.

"I was talking to Dr. Sheard to-day," he said last evening, "and he told me he had a report in his office which covers the particulars which the school inspectors would be expected to ascertain. If Dr. Sheard's report is what I believe it to be, then the appointment of a special inspector will be unnecessary."

Dr. Hunter intimated that he was receiving unearned criticism.

"I was very much surprised to find that my friend Dr. Hawke is several leaps ahead of me in getting support from the other members of the board," he said. "I believe that my four years' service on the board and my remarks on the subject before the medical association and at other times entitled me to some consideration if an appointment was to be made."
