Here the buyer and dealer has to meander over broken baskets and littered floors. He has to cross from one side to the other over improvised bridges of flat cars and broken planks. Attempt to hurry is out of the question. It is the principle laissez faire in locomotion, as well as in barter. Expert knowledge in dodging or running broad jump is the one credential to a successful deal.

Our Fruit Possibilities.

Ontario fruit orchards are growing yearly into more prominence. Thousands of our people are depending upon the success of the trees and gar-dens for their livelihood. Any obstruction to their successful operation means not only a loss to the owners, but a big hindrance to our rural population.

Ontario has produced and can produce the best apples, peaches, plums and pears to be found on the continent. For lavor and appearance we take no second place. It is true that other parts of Canada and in the United States fruit may put on a color that all hot climates give to their produc-tions. But for flavor the temperate
