Apart from the standpoint of naval strategy, the proposals thus put forth for the establishment of a single navy for the empire, under a central naval authority, are strong, but not unanswerable. The experience gained in this war has shown that in time of war a dominion navy (e.g., that of Australia), can operate with the high-est efficiency as part of a united navy

He never for one mo-ment contemplated casting any re-flection on the integrity of a single member of the house. The thought of bribery had never entered his head. What he did say and wished to be inferred and what the conference understood him to mean was that the race-track people had money to send deputations to Ottawa and the Methodist churches had no such funds at their disposal and had to be con-

Essad Pasha Asserted His Property Losses in the War Reached Ten Million Francs.

Paris, June 14 .-- A few minutes before his assassination Essad Pasha gave to the representative of The Temps a lengthy document signed "Essad, president of the Albanian government," reciting his part in the war as the "recognized head of an allied country."

He was in Salonica when the armistice with Bulgaria took place, having gone there on a French warship, attended by two representatives of the French foreign office.

"On the same day the armistice was signed with the Bulgarians, the French minister of foreign affairs recalled his representatives," says the document, "and made it known to me that I would not be permitted to return to Albania as long as the peace conference had not decided the fate of my country."

Essad estimated his property losses during the war at ten million france and complained bitterly of wrongs he said had been committed against him. The so-called press bureau of the Albanian government has issued a statement affirming "that Essad had no official capacity and that the chief of the Albanian delegation is Mehmed Bey Konitsa."

Mr. Hicks, the U.F.O. whip, made a surprising speech the other day to the effect that the farmer members in the Ontario legislature had withstood some awful attempts to persuade them to vate for the big interests and others, but that for the big interests and others, but that they had stood firm. Mr. Hicks next day explained that he had been misreported; that a wind blowing at the time he spoke must have disturbed the recording men-tality of the reporter—that Hicks didn't say anything of the Kind! Two days after, Mr. Vick, representing the men of the Toronto Railway on a board of concidention to settle a warr
