### Combing Won't Rid Hair of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arsanol; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most, if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

An explanation of the reason why with an increase of \$8,238.83 in receipts our surplus is \$25,229.19 less than it was

### COM. WIGMORE SUBMITS REPORT

Annual Statement of Water and Sewerage Department

TO COUNCIL TODAY

Reports Great Improvements To Systems at Lower Costs Than Before—Surplus of \$20,000—Some of the Figures

R. W. Wigmore, commissioner of water and sewerage, submitted his annual report at the meeting of the common council this afternoon. The most important sections of the report are given herewith. The full report contains much valuable information in addition.

Your Worship and Commissioners—  
Gentlemen—  
I hereby submit the fifty-ninth annual report of the water and sewerage department and my third report as commissioner of water and sewerage.

The total expenditure has been as follows:

Water Department.	\$7,284.43
Construction account.	16,887.74
Maintenance account.	7,460.04
Interest and sinking fund.	111,941.60
Reserve account (renewals).	12,823.03
Totals.	\$209,186.10

Sewerage Department  
Construction account. \$17,371.13  
Maintenance account. 16,887.74  
Interest and sinking fund. 28,016.75  
Fire Hydrants. 14,071.65

Grand total. \$279,586.37

The most important construction work was the building of a thirty-six inch masonry sewer along the shore of Marble Cove, a distance of about 1,800 feet, at a cost of \$14,000.

The total cost of new main sewers for 1914 was \$19,009.45; main pipe extensions, maintenance account, \$6,840, construction account \$7,884.43.

Water Reserve Account.  
Following the practice of former years the sum of \$18,066.57 was set apart from last year's surplus for the renewal of old and small size mains. The sum of \$12,283.08 was spent and 7,001 feet of pipe laid from this account, leaving \$5,784.49 plus \$4,297.28 from this year's surplus, for next year's operations.

The water maintenance account shows expenditures of \$189,481.64, including interest \$80,463.07, and sinking fund, \$31,448.53. The receipts were \$209,669.02, including assessment \$169,073.84, meter customers, \$40,230.99, and steamship supplies, \$6,964.36, leaving an unexpended balance of \$20,187.48.

Population Served.  
The estimated population of the city and parishes of Lancaster and Simonds is 62,470, of whom 54,564 are supplied by the city water system with an average daily consumption of 228 gallons per day per consumer on the east side and 292 gallons on the West Side.

Leading Mains.  
No repairs have been effected on either the wood stave pipe or conduits. There were four leaks on the thirty-six inch main, seven leaks on the twenty-four inch main, and ten on the twelve inch main on the East Side; eight of these required pipe renewals. On the West Side there were seven leaks on the twenty-four inch main, all minor repairs.

Distribution Mains.  
Under this head \$688 feet of new extensions were made at a cost of \$6,840. The twelve inch main between Marsh Bridge and One Mile House was thoroughly repaired and in places renewed at a cost of \$1,896.56. This main is used to supply the new sugar refinery.

Service Pipes.  
136 new service pipes were laid at a cost of \$3,998.22.

One hundred and fifteen service pipes were renewed at a cost of \$2,170.87, over three thousand feet of lead pipe being used.

Special efforts were made to reduce the enormous waste caused by leaky pipes and defective fittings and also by the habit of allowing water to waste in cold weather. Probably one-fifth of our service pipes are defective, and one or another and, as an 18-inch stream will waste about 8,000 gallons daily, about one-half of our consumption is wasted by one-fifth of the people. The only remedy seems to be to meter all services commencing at these forms defective, and continuing as our finances will allow. I will report further on this matter shortly.

Meters.  
Forty-five new meters were placed and sixteen taken out, nineteen others were exchanged. Total number in use 294.

Fire Hydrants.  
The expenditure for fire hydrants was \$10,071.55. New hydrants to the number of twenty-nine were installed at a cost of \$8,919.94. Twenty-four were renewed at a cost of \$2,000.62.

Sewerage Maintenance.  
The expenditure for sewerage maintenance was \$18,967. Interest \$19,982, sinking fund, \$5,083.

Chad Basins.  
Thirteen new inlets costing \$870.45, were added, making the total 1068.

Sewer Extensions.  
In addition to new sewers chargeable to bond issue sewers were laid from maintenance account in St. John street, Albert street, St. James street, West End, Gregory road and Londonderry avenue, at a cost of \$1,368.58.

General.  
While the foregoing gives a general idea of the work of the department during the year, it does not tell of the splendid co-operation of the employees by which more work has been done at no perceptible increase of cost, notwithstanding that both wages and material have considerably increased. I am pleased to be able to report on this loyal service.

An explanation of the reason why with an increase of \$8,238.83 in receipts our surplus is \$25,229.19 less than it was

Mr. Finson was born in Levant sixty-one years ago and for twenty-three years was associated at Vancouver as inspector of customs, resigning two years ago on account of ill health. He had since made his home with his brother. He was a conscientious and obliging official and his many friends among the travelling public will regret to learn of his death.

Mr. Finson's wife died nineteen years ago and he leaves two brothers, Jerome C. Finson of this city and James T. Finson of St. Paul, Minn., and a sister, Mrs. William Heugens of this city.

The news of the death of Mr. Finson was learned with regret by friends in St. John. He had many friends here. Up to two years ago, when his health began to cause him trouble and ill health he had been a regular visitor to St. John in his run from Vancouver.

Cooked Corn Beef, 2 lb. tin, 37c.  
Cooked Corn Beef, 1 lb. tin, 25c.  
Choice Delaware Potatoes, 14c. peck

### Combing Won't Rid Hair of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arsanol; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most, if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

An explanation of the reason why with an increase of \$8,238.83 in receipts our surplus is \$25,229.19 less than it was

### BITES "TIPPERARY" SINGER.

Dog Raised by German Family. New Owner's Lack of Neutrality.

No self-respecting German dog, be he Jackshund or no, would stand for anyone singing "Tipperary" in his presence, says a Salem, Ill., dispatch to the Chicago Journal. And, anyhow, what right has a man named Goepfer to sing "Tipperary"? It doesn't seem right, so reasoned Stein.

Stein is a bulldog, raised by a German family on sausage and discipline and sold to Dick Goepfer, proprietor of the Park hotel in Salem. Soon after buying the dog Goepfer was playing with him and changed to start singing about how far it is to Tipperary. There was a snarl, the dog flashed upward and one of Goepfer's ears was nearly chewed off. Goepfer has announced that strict neutrality will be his future policy.
