DREDGE TURNED TURTLE

Effort to Tow New Brunswick Into Harbor Failed—Will Try Again

An attempt was made on Saturday to tow the wrecked dredge New Brunswick into harbor here. During the early morning the government tug Helena went down to the stranded craft, which had been stripped of the machinery. After some pulling the battered hull was pulled off the rocks and the tug started with her tow for here. Apparently the holler, which is still in place, made the dredge unsteady, for it turned turtle and had to be beached again after being towed some distance. Cables were taken ashore and what is left of the dredge was made fast and a later effort will be made to get it into the harbor.

Operations Reported in Carleton—Animals Owned by E. A. Young and J. E. Cowan Killed

It is reported that the dog poisoner is again at work this time in Carleton. Several valued dogs belonging to residents of the West Side have been destroyed, including a collie owned by E. A. Young, of Guilford street, and a spaniel owned by J. E. Cowan 9 King street. Strychnine was used in most of the cases, and it is believed that poisoned food is being placed where the dogs can get it. The police are looking into the matter.

Hanley was told that he was liable to a three months' term in jail without the option of a fine. Rochford arrived in the city only a few days ago from Moncton, where he had some trouble in the courts over a horse which belonged to G. W. Fowler, M. P. of Sussex.

John Ferry, a cripple, charged with begging, pleaded guilty. He said he arrived in the city on Saturday from Newfoundland. He was remanded and an effort will be made to have him sent back to his home.

Joseph Mills, arrested on Friday on charges of being while and profane, was fined \$8 or thirty days in jail, on the first charge, and \$8 or two months in jail for profanity.

CARVILL HALL TO BE CONVERTED INTO APARTMENT HOUSE

The apartment house idea seems to be growing in favor in St. John. An interesting announcement was made this morning to the effect that Carvill Hall in Waterloo street, is to be remodelled along the lines of the new idea in homes. Mrs. John P. Morrison, who has been the lessee of Carvill Hall for some time, will give up her lease at the first of November and Mr. Carvill now has an architect preparing plans for the scheme which he has in his mind.

His idea is to have four apartments, one to take in the whole of the first floor, another the whole of the second floor, and two on the upper floor. There will be rooms in the basement for a janitor. All of the large centre stairways will be removed, thus throwing the large area of the building into commodious living apartments.

WIFE OF DAVID RICHARDS IS DEAD

Rain General Along River and May Help Some of the Lumber Out

Fredericton, N. B., Oct. 23.—Mrs. Richards, wife of David Richards, a Campbellton lumberman, died last week. She was a native of Carleton Place, Ontario, and was seventy years of age. Three sons and four daughters survive. Rev. Dr. MacDonald went to Campbellton on Saturday to preach the funeral sermon.

Heavy rain set in here on Saturday and continued until this morning. The storm was general along the river, and a rise of water is looked for. There are 30,000,000 feet of lumber hung up at the head of the river, and it will not require a great deal of rain to move it.

John Palmer, ex-vice commissioner for York county, declares that the Fredericton enumerators did their work in a most careful manner, and he is certain that a complete count was made.

MORE BREAKS INTO HOMES OF SUMMER RESIDENTS NEAR CITY

The practice of breaking into the summer homes of suburbanites at some of the stations along the C. P. R., which has given annoyance to them in other years has apparently not ceased. On removing to the city the suburbanites usually secure their windows and doors to safeguard whatever furniture, bedding, dishes, etc., may have been left for the winter, but although this was done in the home of a summer resident at Sagua, the house was entered recently, and whoever gained admittance helped themselves to a stock of canned goods and groceries, besides taking a refrigerator and some other articles.

From the fact that in many houses which have been entered, canned goods only were taken, while clothing and other articles were left untouched, it is believed that oftentimes those who force an entrance are hunting parties of two or three. The houses nearer the river are those which are more open to breaks of this nature as there is less danger of being seen than nearer to the main roads.
