spection of Meat, Fish, Fruit and Vegetables.

Ottawa, Dec. 12,--Hon. Sydney Fisher in the House to-day introduced a bill for the supervision and inspection of canned and uncanned meat, fish, fruits and vegetables. The inspection of can-

ned and uncanned goods is to be more drastic than that in regard to fish, fruits and vegetables.

Hon. Mr. Fisher preceded his explanwere certain revelations in Chicago which affected the markets of the

It is feared that the Monarch and cargo as the government to have a system

be more easily marketed abroad. The workmen engaged in Canadian packing houses were of a superior class, and came principally from Europe. There was no kind of inspection, however, and this was necessary so that the trade might regain and hold its place upon the British market.

"Since the Chicago revelations the governments of European countries have been investigating more closely than ever the character and sanitary condition of food products imported." said Hon. Mr. Fisher. "Communica-AWAY THIS MORNING tions have been directed to my department from England and other countries abroad asking what were the laws of Canada in regard to this matter. The British government sent an officer to the United States to report on whether it would be possible in fu-
