

hang together to oppose all progress... just because he is an old settler... Mr. Pooley will probably succeed.

"DIRTY DAWSON"

Dr. Richardson Tells of Life in the Filly Gold Camp.

The following is an extract from a letter received from Dr. W. A. Richardson, formerly resident physician of the Jubilee Hospital, who is now at Dawson City.

Dawson City, Sept. 28.—I hear that a boat is going down the river to-day and have just time to send this letter to you.

Arrived here safely on Wednesday last, 22nd September, and am glad to say in good health. We spent a rough time on the way, but nothing occurred to hinder us. I cannot describe this place yet, as I have had no time to examine it, but I can tell you that it is the dirtiest place I have ever seen. Ever got his foot into it, and next spring it will be almost uninhabitable.

Winter is coming on, and we have been busy starting our log cabin. It is now in part on an old log cabin of Van Milligan and Serreau. The place is a mass of tents, buns, and rubbish, but we are upon a hill near a good spring and away from the filth of the town.

Winter will soon set in, and it will be a very hard and trying one on many, and many are going to suffer a great deal from privation and famine; for provisions are very scarce. Only one boat has come up so far, and that had only whisky, tobacco, and some other things.

The flies that have been told about the place are hideous, and those circulating them are deserving of hanging. They will be the cause of the greatest suffering and starvation the world has ever known.

I have sufficient grub to last me during the coming winter by exercising the greatest economy. There are some who are going down from here to meet the boats, or rather are going to try to get to where the food was left. I trust all who are short of food will be compelled to go also. The police are not of much service in this respect, in charge of fifteen men. There will be some sort of organization of the well disposed, and no doubt order will be maintained by that means. Mr. Constantine is down at Fort Mackay, 100 miles from here, and is expected here next.

As to the mines I cannot give you any definite information but that they are not so numerous and profitable as represented.

I can certainly assure you one that there has been gross exaggeration in many reports concerning them. You may tell any one who wants my opinion that they had better keep out of this country and keep shy of any investments until next spring when the clouds will reveal the truth concerning them.

There have been a great many people come in here, and I should judge that only one-tenth of those who started have arrived here so far.

I have heard of a few accidents, and some have lost their lives, but it is very hard to find out who got through and who did not.

Jim Macaulay is going out on the ice in January.

Dan McKee, Jim Todd and I propose to live together this winter, which will be a pleasant change.

Don McKee, Serreau, Todd, Spencer and Van Milligan are all here and well.

BENNETT ATTEMPTS TO ESCAPE
Knocked Down Warden John and Tried to Secure His Gun.

The habeas corpus proceedings instituted to secure the release of Bennett, held for extradition on the charge of attempting to murder his wife in San Francisco, came very near being precipitated on Monday evening. Through some mistake Bennett was taken to Warden John was ordered to produce Bennett in court, which was quite unnecessary. As it happened the court set in the chief justice's private chambers. When the warden appeared with his prisoner and chief justice ordered his removal and spoke rather severely to the warden for bringing a prisoner into his private room. Mr. Jones explained that the papers ordered by the chief justice were to produce Bennett, and that Bennett had been taken to the warden's room.

Bennett seemed to be rather nettled over the affair. On his way back to the jail and while going up Hillside avenue he made a deliberate attempt to escape from the warden's grip. Bennett was in front of him he tripped him, and an instant had him pinned to the sidewalk and was endeavoring to take his revolver from him. Although rather severely hurt and having the use of but one arm Mr. Jones kept Bennett from securing the revolver and called upon some passer-by to come to his assistance. Three men responded and Bennett was soon laid behind the bars. Warden John is still in bed suffering from the injuries he received.

It is thought that Bennett's attempt to take the revolver was for the purpose of committing suicide, he having previously attempted to take his own life. The warden seemed to have more confidence in the prisoner than did the other officers, who always handcuffed Bennett when taking him out. Jones took him out without any handsets and allowed him to walk to and from the jail.

The facts of the attempted escape have been kept very quiet.

CONSUMPTION CURED.

An old physician, retired from practice, having passed into his hands by an East Indian missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and Nervous Complaints, after having tried his wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow men. This medicine, also a desire to relieve human suffering, will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparing and using. Sent by mail by attaching a stamp of 50 cents to the order, New York, 320 Western Block, Rochester, N.Y.

MR. HEINZE IS SIDE TRACKED

Van Horn Gives Him the Go By and Will Build the C.P.R. into Rossland.

Montreal, Dec. 1.—The Canadian Pacific railway will build its line into the Rossland, the great mining centre of British Columbia. That announcement was made to the Star representative this morning by Sir William Van Horn, president of the C.P.R. It was a statement of great importance to the mining interests of that section of British Columbia, as the miners have long been in the midst of the misapprehensions as to the future of the camp.

Mr. Van Horn's statement, however, is a very bold and trying one on many, and many are going to suffer a great deal from privation and famine; for provisions are very scarce. Only one boat has come up so far, and that had only whisky, tobacco, and some other things.

The flies that have been told about the place are hideous, and those circulating them are deserving of hanging. They will be the cause of the greatest suffering and starvation the world has ever known.

I have sufficient grub to last me during the coming winter by exercising the greatest economy. There are some who are going down from here to meet the boats, or rather are going to try to get to where the food was left. I trust all who are short of food will be compelled to go also. Bicycle pedals are being made with an adjustable extension at the rear to slide into the hollow of the shoe next to the heel and prevent the foot from slipping forward on the pedal.

CANADIAN BRIEFS.

Col. Strathely to Appeal—Drowning Accident at Oshawa.

Whitby, Dec. 1.—James Shoubridge, warden of Bruce county, is the Conservative candidate for Centre Bruce for the legislative assembly.

Montreal, Dec. 1.—It is rumored that Col. Strathely, who has been dismissed from the militia for his criticism of Major-General Gascoigne, will appeal to have the case heard before a court martial.

In the honor list of Cambridge university, published by Hamilton Weight of Montreal, gets the scholarship of \$50 value.

Frank J. Wabon, divisional agent of the Grand Trunk at Stratford, has been appointed to succeed Mr. Harris as district freight agent in Montreal.

Oshawa, Dec. 1.—Two Oshawa boys, Fred Horn and John Robinson, on their way from school last evening went skating on thin ice in a creek and went through and were drowned.

Toronto, Dec. 1.—The two-year-old daughter of James Dusett who was badly injured by burns received through a dress catching fire from playing with matches, died early this morning.

Paris, Ont. Dec. 1.—D. A. Hozarth, an insurance agent, was sand-bagged and robbed near his residence last night. He was carried to hospital and is in a dangerous condition.

London, Ont. Dec. 1.—Lady Aberdeen went to London today to open the hospital. She will return to-night.

Harry Mayber, of Sutherland, Ont., aged 13, was run over and killed by falling from a wagon while teaming wood.

Bracebridge, Ont. Dec. 1.—The second trial of W. J. Hammond, the young man charged with the murder of his wife, who was married under an assumed name, and whose life was insured for his benefit, commenced this morning before Judge Macdonald. Hammond was tried in the spring and the jury disagreed.

It is absolutely necessary that we should reach Rossland with a line of our own and we are under a pledge to Rossland to do so. We would have preferred to purchase the Trail Creek road, which could have been adapted to our purpose by a considerable expenditure, but we could not come to terms and we are now obliged to go on with our own work.

The above statement is what the mining people of Rossland have been looking for for a long time. It means that the C.P.R. will go ahead and construct an independent line to Rossland. Many months ago the people out there appealed to the management of the C.P.R. to give them relief. They said that they were unable to do business with Mr. Heinze because of the excessive charges demanded. At the time Mr. Shaughnessy stated in an interview that the C.P.R. did not want to interfere between the people of Rossland and Mr. Heinze, and would rather wait and see what arrangement satisfactory to all concerned could not be arrived at. The C.P.R. did not want to duplicate Mr. Heinze's road unless such course was absolutely necessary, and the above statement made by Sir William that the company is pursuing exactly the same old reason.

It is evident that the C.P.R. has no intention of reaching an agreement with the C.P.R. That gentleman informed a Star reporter on Monday, before the conference with Sir William, that it was purely a matter of time before the C.P.R. would be disposed to give up a valuable property for less than it cost him to acquire it.

When the news reaches Rossland it will be met with delight by the people there, judging by the statements recently made by leading mining men who visited Montreal.

FIGHTING IN CUBA.

Insurgents Capture a Village—General Pendo Killed.

Havana, Dec. 2.—The insurgent generals Rabi and Salvador Rios have besieged the village of about 15 houses, which they are attacking with military commander and one lieutenant. The garrison, after losing 50 soldiers killed and wounded, surrendered. The insurgents plundered the stores, securing rich booty, two months' supplies, and a quantity of ammunition and two hundred rifles. The Spanish have sent reinforcements to re-take the town.

New York, Dec. 2.—A dispatch to the Herald from Havana says: "The report that General Pendo, who was placed in charge of the military operations in Cuba by General Blanco, had been killed in an engagement with the insurgents in Santa Clara province, has just reached Havana. No details of the killing of the Spanish commander have been received beyond the statement that he was about in a battle with a force of insurgents when he was killed by the insurgents." The report that General Pendo was killed in Cuba by General Blanco, had been killed in an engagement with the insurgents in Santa Clara province, has just reached Havana. No details of the killing of the Spanish commander have been received beyond the statement that he was about in a battle with a force of insurgents when he was killed by the insurgents.

RIFLE CORPS FOR B.C.

Civil Authorities in Southern British Columbia to Be Assisted in Maintaining Order.

Ottawa, Dec. 1.—The militia department is considering a scheme for the organization of a rifle corps as a part of the active militia in southern British Columbia. At present, if any trouble occurred in any of the mining camps of Kootenay, no force is available for to aid the civil authorities in maintaining law and order. As it is a mountainous country a special uniform will be provided. This will consist of a felt hat, jacket, cartridge belt, breeches, and gaiters. They will be armed with Lee-Enfield rifles. The corps will be recruited from among British subjects at Kamloops, Sandon, Nelson, Rossland and other points.

The militia department is considering a scheme for the organization of a rifle corps as a part of the active militia in southern British Columbia. At present, if any trouble occurred in any of the mining camps of Kootenay, no force is available for to aid the civil authorities in maintaining law and order. As it is a mountainous country a special uniform will be provided. This will consist of a felt hat, jacket, cartridge belt, breeches, and gaiters. They will be armed with Lee-Enfield rifles. The corps will be recruited from among British subjects at Kamloops, Sandon, Nelson, Rossland and other points.
