HIGH LICENSES.

to the Editor :- I notice in a letter adsed to the city council re liquor ises, would it not be well for the city cil to take up the matter of all liquor

believe that all our liquor licenses are low. I would advocate doubling the ent rate of liquor licenses.

ligh tariff on this particular subject is only kind of high tariff I believe in. It possibly limit the number of licenses, in my opinion, would make matters all round. I hope the city council I take this under their consideration HIGH TARIFF.

RAILWAY TO THE NORTH.

the Editor .- It is a question who. ld be the gainers of a railway to the th end of Vancouver Island with its. ican lines of steamers at either end. see where the agitator states as a fact upport his conclusion that Seattle was It from twenty-five thousand to a popuon of one hundred and ten thousand in very few years-practically since the dike rush.

ow this man lives in Port Angeles and . s somewhat jealous of Seattle's prosity. The trend of his arguments is that ling the Northern trade was diverted Port Angeles that town, too, would ress in a like manner. I contend, how that, like the company operating the. hern stages which, after securing its ract from the government, crossed to American side and obtained the horses. equipment for providing the service, would be one-sided. So it is in many The Americans secure the gold of Yukon, American cities are built toetriment of Canadian interests, indials are made wealthy, but the nation

believe that Canada should retain all gold at home. She should control the e of the North, and, to my mind, there but one way of accomplishing this de-ed end. Let Canada build her own rail-There is a good country to be ope p in the northern part of this province, we know that once a system of trans-tation is established that prosperity and wth will be witnessed all along the

wns would be built up, and the ld create an important trade of their This same road should connect with lard river and run through the Peace Mackenzie river countries to the Yukon. this railway was completed it would ound that thousands of dollars of gold. taken from the Yukon to the Ameriside would not leave Canada, but ld help in building up towns along the line. A vast amount of machinery be required in these districts, and

silence, but as our host was leaving the llord," he said, "you know Professor "Landlord," he said, "you know Professor Moriarty?" "No, sir, not to my knowledge." "Ah, so I should expect; well, then, my good landlord, if it be your good fortune to see him one of these days tell him that Shamrock Holes has set his face to the wall and will not turn back until he con-fronts him to his confusion at the least unexpected moment." The Colonial Adventures of Shamrock Holes MYSTERY OF THE RIGHT-HANDED SHUNT. CHAPTER II.

"Yes, sir; certainly, sir," said the land-lord, and got away quickly. Holes shook his head warningly. "We will have him yet, Watson, and when we have stripped him of every dis-guise and every shred of dissimulation that hides his blackened carcase, will hold him up to the scorn of the enlightened multi-tudes who read the Strauded, a double cloaked monster of duplicity, a whited sepulcher." That I must swiftly pass over without de tail our tour of the Empire is possibly less matter for regret to my readers than a rsonal grievance, inaşmuch as although

I have been censored out of a round score of magazine articles, I must admit that they consisted largely of guide book pad-ding aud court circular stuffing-for, if the ruth be told, the journey was entirely lacking in those mysterious crimes and family skeletons that make so much for tae penniness and financial welfare of Sham. A cry of "All aboard!" a tolt, and the set of the set family sketcrons that make so much for the happiness and financial welfare of Sham-rock Holes and myself. Throughout all the colonies there seemed to be a positive epidemic of placid virtue ind uninteresting straightforwardness, ren-leger Holes's neutring at the set of the

to be a positive epidemic of placid virtue and uninteresting straightforwardness, rem-dering Holes's position a wearlsome sine-cure, and mine, the unenvisible lot of silently bearing his resultant ill-nature. Fortunately, some two months out a happy thought struck me. Poison! I hroached it to Holes, he to the Equerry, he to the First Lord, and so on' to the Duke, with the result that all liquors served to their Highnesses and staff were first inspected and tasted by Holes and wrself.

self. oles original idea was that he should all the tasting; but when I pointed out it a humorous coincidence it would be hill some modern Medici change our edy into a tragedy, he allowed me to e with him, and even insisted on giving merchange.

re with him, and even insisted on giving precedence. Hence onward the days passed more issuitly, even at times joyonsly, for the e was large and the quantity and ety of liquor that required sampling not inconsiderable. Hortiy after reaching Hallfax, however, were considerable annoyed to learn a the chief commissary that His R. H. tactfully decided to patronize nothing "Canadian Club," and such was his dence in the sturdy backwoodsmen who alate this colony that he would not w them to be insulted by the faintest th of suspicion.

then to be instituted by incorked in ereafter all bottles were uncorked in Royal presence, and Othello's occupa-was up a stump-as the Canadians say.

the total variable of the fraction of the fraction was up a stump-as the Canadians say. Personally, I cannot quite acquit my friend Holes of a slight tendency to grouse on the smallest provocation, and, although it does not become an individual like my-self to criticise such a high strung char-acter as his, I was not very much sur-prised that his petulant behavior resulted at Winnipeg in an unmistakable hint that our further attendance, was not absolutely essential to the Royal progress. As a matter of fact, the car on which we travelled was sidetracked (if I have the term aright) and the train went on without us.

Search of Timber Limfts. Jas. Anderson has returned from a tip made to the northern part of British Col-umbia as representative of a syndicate of american capitalists, with which is asso-ciated some Canadians. He has been in search of timber lands. The steamer Clansman, owned by Mackenzle Bros, was chartered for the purpose. He proceeded out and all the other points in the neigh-torhood of the proposed terminus of the Grand Trunk Pacific. Mr. Anderson thinks that no decision will likely be mached as to a terminus this season. The Impression prevails in the North that the coming summer will be spention surveys, and that addecision as to the exact route will not be made until perhaps the following year. He does not therefore anticipate any marked activity the company's engineers will likely be busy pinand. After a decision has been reached as to the exact route active work will be spin and business will become Drisk. For a time Holes was stubborn and re-sed to leave our abandoned carnlage, but the course of two days hunger com-iled us to evacuate and make terms with

tel. were in a desperate situation. les had little more than a thousand ds in his pocket, and I about as many

pence. We concentrated our resources—that is, he commandeered my twenty dollars, and locked himself in his room with a pound of black shag and a syphon, and proceeded to worke a place black shag and a syphon, and proceeded to evolve a plan. At three in the morning he rapped on the wall of my chamber adjoining; hurriedly donning a bath robe and slippers I passed in and found him pacing like a caged lion in an atmosphere dense with smoke. "Sit down, Watson, and help yourself to a drink"-he pointed to the empty bottle-"I want you to listen for a few moments to my theories, and correct me if I am wrong," with a smile of humor. "I have been balancing probabilities, Watson, excluding the unnecessary, avoid-ing the immaterial; traching the inevitable, and have arrived at this conclusion: Who cut us loose at the switch? And why?" "Well," I answered dubiously, "the general traffic superintendent said that if you persisted in thrusting your feet out of the car window at way stations he

A Simple Plan That Should Be Fol-lowed by All Who Are Sick. tivity.
