WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office, July 27th to August 2nd, 1904.

ncement of the week the barometer was high over British Columbia and the North Pacific states, with a low pressure area over the region of the Rocky ountains. By the 28th the pressure had ncreased over the province, and there set in the regular type of summer weather, and becoming low from California east-ward. On August 1st a low pressure area from the ocean developed again in Cariboo; this held its position until the 2nd, when it crossed the mountains 'nto the Terrisonable on the North Pacific slope; light showers fell on Vancouver Island, the Lower Mainland, and in the valley of the 31st. In the Pacific states the rainfall was light and only one thunderstorm was re-

Agricultural Association apbeing put in excellent condition for the proaches the executive committee grows 82 at New Westminster. Further east, at Kamloops, the week was warm throughout, venue collected during the past month amounted to \$62,615.16, and the total for the progress made by the city of Vancouver, and conditions of the province generally. The report is illustrated by pictures of public buildings in the Carlboo temperatures were about normal.

In the Pacific states temperatures have races to be held in-connection with the | more active in preparing for the event. in every particular those of previous years. Special attention is being paid the arrangement of merchants' manufacturers' displays, strong efforts have been made by revising the cash and increasing the number of special prizes to increase the number of miscellaneous entries, and every endeavor is being made to draft an entertainment programme that will prove striking feature of the fair.

Wednesday a meeting of the manufac-turers' and industrial committee was held at the offices of Secretary Swinerton when the question of inducing business men to exhibit more generally was dis-cussed. It was decided that it would add to its success if the merchants could be persuaded to take a more practical interest in the show. After some con sideration a motion was passed request ing the board of trade to appoint a con mittee to work in conjunction with the Agricultural Association in the efforts to secure more of these exhibits.
