FINANCIAL AND COMMERCIAL

FINANCIAL BRIEFS.

COBALT, Sept. 20.—The shareholders of the Temiskaming Telephone Co. voted against the sale of the company to the firm of Montreal brokers which recently offered 110 a share for the stock.

Though nothing is officially known, it is generally believed the Bell Company was behind the offer. As a protest against the action of the meeting, Arthur Perkins, one of the directors, immediately resigned from the board.

Mr. Amelius Jarvis, the vice-president of the B. C. Packers Co., has left for British Columbia, and he and the other directors will, no doubt, be joined in view of the big fall run, in saying a dividend on the common stock.

So far this year Canadian banks have opened 59 new branches in this.

It is said that a prominent Toronto banker recently bought 1,500 shares Dominion Steel for a "long pull."

CHICAGO, Sept. 20.—Recent export has led to general recognition of a farmer as the price-maker in wheat. He has won out against the speculators in the winter wheat season, and created a "domestic situation" in the Northwest, the big wheat belt in the face of the persistent claims that farmers were holding their wheat to a greater extent than in the past. The country elevator men shipping out the wheat that was given them by farmers for storage, and the victor man has been forced to ship the wheat out for self-protection, and has bought December and May in Minneapolis and Duluth as a hedge. On the recent decline, speculators sold wheat on the theory that the farmers would not store a crop that they would not be able to sell it all on their own account within a short time. The kindly sold it for them. Of late the speculators have been buying back the wheat that they sold for the farmer while the farmer has been selling wheat more freely than ever.

FORTUNES IN STEEL STOCK

The great rise in U. S. Steel shares has made fortunes for hundreds of thousands of shareholders in the States and Canada. The common stock's market value has been as follows:

has been as follows:

	Price.	Value of Common stock
May, 1904	83-8	\$13,291-2
Oct., 1907	217-8	111,835-0
Feb., 1909	411-4	209,405-0
Sept., 1909	84	426,974-1

It will be seen from this that the present value of Steel stock is 10 times greater than it was in 1904.

And now they are saying that Steel common is going to par.

SIX DIVIDENDS TO BE RAISED

"The reports of increased dividends on several stocks are not mere rumors, but come from high quarters. Rock Island preferred will get a dividend this year, and we confidently expect Reading, American Cotton Oil, Southern Pacific, Steel and Atchafalaya to get increases." One commission house advises.

WORCESTER TEAM TO PLAY HERE THIS WEEK

New England Pennant Winners Meet the
Marathons on Friday and
Saturday.

Manager David B. Donald of the Worcester team, announced this morning that he had completed arrangements to bring the Worcester team to the local diamond and the matches should be a fitting wind up to one of the greatest base ball seasons.

On Saturday, September 11, the Worcester team defeated Haverhill and captured the pennant. Worcester made a grand finish in the New England league. About a month before the close Worcester advanced the second division.

During the last few games Manager Jesse Burkett decided to make a change. He selected a number of veterans and put youngsters in their position. The team went ahead, winning game after game, and finally landing the pennant.

The fans who so generously attended the city championship matches, will not be looking at the Worcester-Marathon matches. A record number of enthusiasts should attend both games. The visitors are being brought here at a large expense.

The Greeks line-up, which has suffered from a few deaths during the season, will in all probability be strengthened for the series with the visitors. The Worcester team will find the Marathons a tough proposition as assured, as the Greeks have proven too much for the fast provincial teams.

Verbal, Perkins, Murphy and Gilmore will probably be on the twirling staff. The Worcester line-up contains the names of several players renowned throughout New England for their showing.

DOCTOR
ADVISED
OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Canifton, Ont.—"I had been a great sufferer for five years. One doctor told me it was ulcers of the uterus, and another told me it was a fibroid tumor. No one knows what I suffered. I would always be worse at certain periods, and never was regular, and the bearing-down pains were terrible. I was very ill in bed, and the doctor told me I would have to have an operation, and that I might die. I wrote to my sister about it and she advised me to take Lydia E. Pinkham's Vegetable Compound. Through personal experience I have found it the best medicine in the world for female troubles, for it has cured me, and I did not have to have the operation after all. The Compound also helped me while nursing through change of life." Mrs. LETHIA BLAIR, Canifton, Ontario.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has proved to be the most successful remedy for curing the worst forms of female trouble, including, but not limited to, inflammation, fibroid tumors, irregularities, period pains, backache, bearing-down feeling, flatulency, indigestion, and nervous prostration. It costs but a trifle to try it, and the result has been worth millions to suffering women.

Local physicians who have been striving to get the permission of the Board of Commissioners of the Public Hospital to treat their own patients who enter the private and semi-private wards of that institution, have been again refused. No official reason was given, but upon enquiry, several doctors learned that the regulations of that institution would not permit the prayer of the request. Yesterday a number of the physicians who signed the petition met in the market building to decide that an effort would be made to procure legislation giving the right of private and semi-private hospital wards to any duly registered physician.
