### A BRINSMEAD PIANO

As used by Royalty

This is the best piano built in Great Britain, and is used not only by Royalty but the most musical and best people in England. This firm was established during the reign of King Wm. IV, and is recognised as one of the greatest piano makers in the world. They ship pianos everywhere which are constructed especially for the climate for which they are intended.

One of the special features of this piano is a treatment of the strings which prevents them rusting in this damp climate and they have many other special features. You should call and see our samples of these superb instruments.

### MAY HAVE TO MOVE CROP EARLIER NOW

Toronto, Aug. 10.—A hurry-up call for harvesters was received by the C. P. R. last night from their western crop experts, who telegraphed that cutting will be general next Monday. The advisability of moving the harvesters' excursions ahead a few days from the dates originally set will be discussed by railway and western Government officials this morning. The first excursion has been set for Thursday, 19th instant, but it is probable that a few train loads of harvesters will be rushed off within a week. Manitoba is calling for 15,000 men. The other provinces, Saskatchewan and Alberta, have yet to be heard from officially, but careful estimates of their needs show that work for about 7,000 to 8,000 outsiders will be offered in those provinces. This means a demand on the east for 23,000 of experienced farm laborers. Jas. Hartney, Toronto agent for the Manitoba Government, has just returned from a visit to eastern Ontario, where he attended the western harvesters' excursion. He believes the lateness of the harvesting here will hold a great number back and result in an unusually small contingent. Harvesting in Ontario will not be over until August 20 at the earliest.

### SEARCH FOR RECORDS LED TO HALIFAX

(Boston Transcript.)  
The search for the journals of the New Hampshire Assembly from 1769 to 1773 has led to Halifax, whither went Governor Sir John Wentworth, prior to the outbreak of the Revolution, and this seems a likely place in which to look. Every old Loyalist family in the Maritime Provinces treasures innumerable souvenirs of our own Colonial days, and if the certain bibliophile or collector of autographs could prevail on the owners to part with such treasures he might very profitably spend six months in St. John and Halifax. It should be added at once, however, that tradesmen would better not try to improve the apparent opportunity. Canadians are not any more than Americans in the habit of selling family papers. But the journals of the Assembly would of course be viewed impersonally by almost anyone into whose hands they might have fallen. The Lord's Day Alliance of New Hampshire will find Nova Scotia historians and officials willing to help him if they can.

### ICE CREAM PARLORS WILL NOT SUFFER

Hamilton, Ont., Aug. 10.—The police have decided not to prosecute the proprietors of ice cream parlors who kept open on Sunday, in view of the decision of Judge Monks that if cakes and other refreshments are served with the ice cream, prosecution cannot succeed. The Lord's Day Alliance will probably have a test case taken to a higher court.

### GET-RICH-O- GRAPHS THE NEW MARVEL

It Makes a \$10 Bill Easily Enough But Balks at Larger Sums.

New York, Aug. 10.—Among the mechanical marvels of the century must now be reckoned the duplicator, a piece of mechanism described at length yesterday in the Harlan Court, where Louis Steinler, a pedler, of No. 145 Norfolk street, told how, at the solicitation of two inventors, he had placed \$800 in the duplicator, expecting to take \$1,000 out.

"Three weeks ago," said Steinler, "I met Jacob Yonky and Max Rosen-garten, who told me they had invented a machine which would duplicate paper money of any denomination. I went with them to East New York where they took me up into a room and showed me a machine. Yonky borrowed \$10 from me, and he took the machine under his arm and went into another room. At the end of an hour he returned bringing the machine, my \$10 bill and another \$10 bill which he said had been made by the machine. We went out and spent both the tens in celebrating.

"Yonky then asked me how much more money I wanted duplicated. 'I told him I had \$800 in the bank and that I would be much obliged to him if he would duplicate that. 'I went to the bank and got the \$800 and then Yonky and Rosen-garten went back to the room where the machine was. Yonky put my \$800 in the machine and walked into the next room with it. After an hour I opened the door. There was a soap box on the floor, with some clock works in it. Both Yonky and Rosen-garten had gone away. I saw them later in Third Avenue and had them arrested. 'Will mechanical wonders never cease?' Magistrate House asked Yonky and Rosen-garten. They grinned.

### LABOR CHIEF TO BE GIVEN RECEPTION

Washington, Aug. 10.—In honor of the return in October of Samuel Gompers who has been in Europe studying continental labor conditions and problems, all the labor organizations of the eastern states will unite in a monster parade in this city, if the plans adopted by the central labor union in this city at a meeting last night are carried to completion. Oct. 15 is the day fixed for the celebration. The labor unions of Philadelphia, Baltimore, Richmond, Wheeling, Harrisburg and other cities will be invited to send as large delegations as possible to be in the line. The day will culminate with a meeting in Convention Hall which will be a rallying point for many men who have gained reputation in the field of organized labor. The address of Mr. Gompers on this occasion it is anticipated will be fraught with international significance as he will discuss labor conditions as he has seen them abroad.

### HOTEL MEN SEEK TO GET AROUND ACT

Toronto, Aug. 10.—A number of hotel keepers who lost their licenses look out restaurant licenses, and did a land office business on Sunday selling two per cent. beer and sandwiches from behind the bar. The Lord's Day Alliance are taking steps to have a test case brought before the courts to decide as to the legality of this procedure.
