

## MOST BRILLIANT SOCIAL FUNCTION SINCE THE WAR

Dutchess of Albany Ball Attended by Great Gathering Aristocracy and Royalty.

EIGHTEENTH CENTURY COSTUME FOR LADIES

Feature of Ball Was Set of Quadrilles Representing the Great Allied Powers.

By Dresden.

Special Cross-Atlantic Cable Service to the Standard. Copyright, 1920, London, April 14.—What was probably the far gayest and most brilliant social function since the war was held today. No greater gathering of European aristocracy and royalty has been seen in recent years than was present at the ball given by the Duchess of Albany at Devonshire House, the big dual mansion on Piccadilly, famous for its great social balls.

Many American society leaders were among the guests.

Late eighteenth century costumes were compulsory for the female guests, while the men were allowed to wear court dress, naval dress uniform, or military uniform, kilts or hunting costume. Kilt was not admissible.

In keeping with the costumes, jazz music was barred.

The feature of the ball was a set of quadrilles representing the great powers. This was preceded by a procession, all taking part.

Mrs. Davis, wife of the American Ambassador, organized the American quadrille.

The dresses of the English quadrille recalled the Gainsborough pictures of Louis XV. period.

The French quadrille was notable for its striking gowns, which were worn by the French guests.

The Duchess of Albany was gorgeously attired, and received her guests on the famous marble staircase.

The ballroom itself was festooned with yellow roses.

The ball was given in aid of the Deafblind fund, which benefits the very poor section of London.

The English quadrille was led by the Countess of Athlone and her husband. Among the two thousand present were: Duchess of Buccleuch, Duchess of Devonshire, Duchess of Portland, Countess Fitzwilliam, Countess Grey, Countess of Warwick, Lady D'Abernon, Lady Salisbury, Lady Churchill, Lady Swynton, Comte and Comtesse de la Rochefoucauld, Comte and Comtesse d'Ormonde, Viscountess d'Hallouet.

BRITISH BUDGET WILL BE PRESENTED MONDAY

Being a Deficit of Three Hundred and Twenty-Six Million Pounds.

London, April 13.—The Chancellor of the Exchequer will introduce the budget next Monday. He will be called upon to make up a deficit of £326,000,000, while the revenue needed amounts to £2,200,000,000. The postal letter rate will probably be increased from three pence to two pence, and several important alterations in the income tax will be made.

The Postmaster-General states that there is no intention to increase the telegraph rates, although some assert the present loss on this traffic is £200,000 yearly.

SARNIA WANTS C. P. R. CONNECTION

Sarnia, Ont., April 15.—Industrial interests in Sarnia and vicinity are most anxious to have the Canadian Pacific Railway extend their line to this district, and a deputation will wait upon President E. W. Beatty when he visits the city about the end of April.

American industrial men from Marysville, Michigan, and industrial city across the St. Clair River from Sarnia, will also visit Sarnia during President Beatty's visit and make an effort to have the C. P. R. run a line to their city on the American side of the border.

The coming of the C. P. R. to Sarnia would mean a number of new industries and would bring about a population of 50,000 in this city within the next three years.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens so Naturally Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grand-mother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyneth's Sage and Sulphur Compound." It is very popular because nobody can tell it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time, by morning the gray hair disappears, but what delights the ladies with Wyneth's Sage and Sulphur Compound is that, besides darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

At the new shops of the Onward White Star and other important lines are to be oil burners. The Aquitania is being adapted for fuel.

Shipping men point to the great saving in wages of firemen and stokers, and a rapid fall in freight rates cannot but result in a declaration of war.

Representatives of Norwegian, French, Italian and Japanese ship-owners here report a similar movement in their respective countries. The maritime supremacy of King Coal is doomed.

NO DOCTORS OR DISEASE.

There are no doctors, lawyers, dentists or politicians on the island of Tristan da Cunha, in the South Atlantic, 1,220 miles from land. On the visit of Surgeon Lieut. Commander H. St. C. Colson of H. M. S. "Yarborough," last winter, there were 11 inhabitants.

Disease is almost unknown, except an occasional case of rheumatism, asthma, lumbago or failure of eye-sight. After the visit of a ship most of the islanders suffer from "colds" but never at other times.

## FORMER N. B. PASTOR MEETS WITH SUCCESS

Rev. N. I. Lynde Has Important Pastorate in Bradford, Pa.—Spent Number of Years at St. George and Hampton.

The many friends of Rev. Henry I. Lynde, for some years located at Hampton and St. George, will be glad to hear of the success which has attended his ministry among our countrymen to the south.

For the past three years he has been acting as Vicar of All Saints Chapel at Lockport, N. Y., and has just left that place to assume the rectorship of that church, when he appeared at Bradford, Pa.

The Bradford Evening Star and Daily Record has the following to say about Mr. Lynde:

"The Rev. Henry Irvine Lynde, of Lockport, N. Y., the recently appointed rector of the Church of the Ascension, yesterday assumed the pastorate of that church, when he appeared before its members at the morning service for the first time as their minister. A large number were present and all were profoundly impressed with the Rev. Lynde, especially after he had preached his introductory sermon.

"Great success is predicted for the church under the leadership of this new rector, for it is believed by all that he possesses the true missionary spirit. That the vestry has made a wise and careful choice is verified by the fact that all who have had the privilege of hearing his new minister."

Before leaving Lockport, Mr. Lynde was substantially remembered by the members of the church he had served so well during his stay among them.

COTTON GROWING IN THE BRITISH EMPIRE

"Export Mail" has the following on the movement to grow cotton within the Empire:

Manchester, April 11.—Throughout Lancashire during the last few weeks there has been great interest in the report of the British Government Committee on Empire Cotton Growing.

Special meetings have been held in Manchester for the purpose of considering the situation, and it has been decided to approve the report and urge the extension of cotton growing within the Empire and to ask the Prime Minister to receive a deputation on the subject. It may be stated briefly that the committee recommended that the Empire Cotton Growing Committee be authorized by the Government to continue its work, and that a grant made to it by the Treasury of a sum not less than £10,000 per annum for five years. In order to supplement the present knowledge of growing it is proposed to establish a Central Research Institute. The desirability is also expressed of increasing the supply and improving the training of scientific men by the provision of Readerships and Studentships at the various Universities. On the question of finance the committee recommended that money should be provided by the British Treasury, from the local revenues of cotton-growing areas, and by the Lancashire cotton industry. On the latter point it is suggested that users should agree to a voluntary levy of a half upon all cotton imported. It is estimated that a levy of this kind would provide a fund of £100,000 a year. The opinion is given that the cotton farmers in the United States will not in the future grow much larger crops of raw cotton. It is said that many phantoms of the cotton industry in the past, and it is probable that the growing of food-stuffs will be more remunerative than cotton in the years to come. The cotton growing industry has conducted experiments in various parts of the Empire with a certain amount of success, but its financial resources are limited. Undoubtedly cotton of good quality can be grown on an extensive scale in Africa, but a good deal of work has yet to be done in the way of transport facilities. Many people believe there is a possibility of larger supplies in South America.

MARITIME SUPREMACY KING COAL DOOMED

Oil as Fuel Rapidly Replacing Coal at Sea—Expected Freight Rates Will Come Down.

By Dresden.

Special Cross-Atlantic Cable Service to the Standard. Copyright, 1920, London, April 14.—A vast revolution in the shipping industry is being accomplished through the substitution of oil for coal fuel. Nearly five thousand new ships, over two-thirds of the total number of vessels now on order for American interests in British yards, are to be oil burners. A resultant drop in freight rates is expected.

Already plans are being carried out to establish oil storage reservoirs at established coal bunkering points.

The large number of tankers now under construction or on order is pointed to as evidence of the movement.

All the new ships of the Onward White Star and other important lines are to be oil burners. The Aquitania is being adapted for fuel.

Shipping men point to the great saving in wages of firemen and stokers, and a rapid fall in freight rates cannot but result in a declaration of war.

Representatives of Norwegian, French, Italian and Japanese ship-owners here report a similar movement in their respective countries. The maritime supremacy of King Coal is doomed.

NO DOCTORS OR DISEASE.

There are no doctors, lawyers, dentists or politicians on the island of Tristan da Cunha, in the South Atlantic, 1,220 miles from land. On the visit of Surgeon Lieut. Commander H. St. C. Colson of H. M. S. "Yarborough," last winter, there were 11 inhabitants.

Disease is almost unknown, except an occasional case of rheumatism, asthma, lumbago or failure of eye-sight. After the visit of a ship most of the islanders suffer from "colds" but never at other times.

## MR. NELLIE PECK, of Kansas City, who says her little boy never had a well day until he began taking Tanlac. Declares she will never get able to pay the debt of gratitude she owes the medicine.

"I will never be able to pay the debt of gratitude I owe to Tanlac for what it has done for my little boy and me," said Mrs. Nellie Peck, No. 1421 Charlotte St., Kansas City, recently.

"My little boy, Curtis, is fourteen years old and never in his life had he seen a well day until he began taking Tanlac. I worried and worried over his condition, but in spite of everything I could do he didn't seem to gain any strength and was weak and delicate practically all his life. He seemed to have a very weak stomach. It just looked like he couldn't eat anything and digest it like other children.

He had no appetite at all and what little he did eat seemed to sour on his stomach. Sometimes his heart would palpitate terribly and he would get so dizzy he could hardly walk and as I stood and looked at him I thought he would surely fall over. He would have bad headaches and he could never sleep well at night. At school he was never able to keep up his work and he had to stay out a great deal on account of poor health.

"I had heard so much about Tanlac I decided to try it and see if it would help him. Well, you just der the person I wanted. I was right in giving him the medicine until now it is hard for me to believe he is the same child. His health is better than ever before in his life and he is bright and playful all the time and he enjoys going out and playing with other boys. He has a splendid appetite and I let him eat anything he wants. He is not the least bit nervous any more and is asleep as soon as he goes to bed. In fact, he is perfectly well in every way.

"After seeing what Tanlac did for him I began taking it myself. I have been suffering from stomach trouble, headaches and dizziness for five years. Since taking this grand medicine I am now happy to say that I never suffer any more with these troubles.

"Tanalac has been one of the greatest blessings that ever came to me. I feel the person I wanted. I was right in giving him the medicine until now it is hard for me to believe he is the same child. His health is better than ever before in his life and he is bright and playful all the time and he enjoys going out and playing with other boys. He has a splendid appetite and I let him eat anything he wants. He is not the least bit nervous any more and is asleep as soon as he goes to bed. In fact, he is perfectly well in every way.

"Tanalac is sold in St. John by Ross Drug Company, and F. W. McCurdy & Co., the general direction of a special Tanlac representative—Adv't.

JAPANESE BUYING NEW COTTON CROP

Market Showed Marked Activity—Threatened Bad Weather Caused Selling.

(F. B. McCurdy & Co.)

New York, April 15.—The character of the buying in the latest rise is leading to belief that some firms market for several days on a theory that it had been overbought and that bullish features had been fully discounted had been discounted and were rebuying. Demand was stimulated by the reported action of the American Cotton Association with reference to fixing a price of sixty cents basic middling for the balance of the crop. The threat of possibly some unsettled weather in the central belt led to selling which became more acute after the publication of the March consumption figures showing that 577,740 bales consumed during that month against 433,485 last year. Japanese interests were buyers of the new crop and sellers of the old.

MUST PAY PENALTY.

Prescott, Arizona, April 14.—Nelson Martin, convicted March 29 in a charge of having murdered Arthur Le Saunderson, overseas veteran of the Canadian Army, last October, was sentenced yesterday to be hanged June 25.

ECZEMA MEETS FINAL ENEMY IN POSLAM

If you have any idea that your eczema is too stubborn to respond to Poslam's healing influence, consider this splendid remedy has made its record by making difficult and baffling cases of years standing. Pick out the hardest spot you have—where itching and smarting annoy most—give Poslam an overnight chance to show improvement. Try the same if you have pimples, acne, rash, scabs, herpes or any skin disorder—Poslam will give you a free sample write to Emergency Laboratories 24 West 47th St., New York City.

Urgo your skin becomes clearer, brighter, better by the daily use of Poslam Soap medicated with Poslam.
