

PROTECTION IN DOMINION IS REQUIRED

Policy Necessary If Laborers Are to Be Employed and Country Developed.

(Continued from page one) "It is not for the fact that Mackenzie King has said so many contradictory statements on the tariff question, I would do so, I could prove to be anything at all, quoted to which of his speeches I referred. If you ask him whether he is in favor of free-trade or protection he tells you he is in favor of neither. A man who is not in favor of either, and that it is not a question of free trade or protection, that man is a fiscal humpback. Think of the speaker of a leader in a party, asking whether he believes in protection or in free trade, throwing his hands in the air and telling you that he wants tariff reform. I have tried to follow the windmills of the Government, but I have not been able to do so. The Liberal leader in his endeavor to yoke up with the Farmers' party and have lost track of them in a mass of demagogic verbiage that means nothing at all, or anything you like to call it.

Where Do They Fit? "Those who must make a case against us for partisan reasons and who cannot make a case out of the truth, keep constantly asserting that the Government is a high protective Government. The cry men who assert it themselves supported a Government for fifteen years that maintained a tariff of an average rate of 28.30 per cent. In 1914 the average rate was 23 per cent. These figures are official, and those who have disputed them seem to forget that the 12 per cent tariff was taken off this spring. There is not a member of the Government who favors high tariff. We want a moderate tariff, and no more than a moderate tariff, and a tariff limited by its principle I have described cannot be described by any reasonable man being as high. With this tariff as it is we are buying from the United States now at the rate of a billion dollars a year.

As a consequence, the Canadian dollar is worth only 88 cents across the line. From with the tariff as it is our imports are increasing every month. In the face of a situation like that, can you comprehend the policy of a party that wants to take down that tariff in order that they may get more goods over there, make less goods at home and pay heavier penalties in exchange? "If anyone knows how we can help exchange except to see us are buying and buy less, I would like to have his proposals. There is no other way; Mr. Crear has no other way to suggest, and the way they are going to sell more and to buy less is to make it easier to buy and harder to sell. With Canadians paying one hundred millions in exchange we are not very likely to take very good chances either on the programme of Mr. Crear or the puzzle of Mr. Mackenzie King.

HON. TWEEDALE PUSSYFOOTING IN VICTORIA CO.

(Continued from page one) It is realized in the county that the powerful Fraser interests are behind the candidacy of the Minister of Agriculture. He is their spokesman in the Legislature and a willing tool to pull the chestnuts from the hot coals. The knowledge is not working to the advantage of the Tweeddale campaign and is causing the electorate to sit up and take notice. The Frasers are getting a strange hold on "Crown Lands" and the electorate feel they should not have the same grip on cabinet members should the Government be re-elected.

Premier Mist? It is supposed to represent the County and not come back here seeking favors. The electors sympathized with the "Boy Premier" when his own taxed him down, and sent him to Fredericton. Since that time little has been seen of him and he has taken no interest in things pertaining to the County at least he has given no evidence of it. A Government Lieutenant says the Premier will seek election in St. John City. If that is so he will be regarded as one who has suddenly become sanguine and is willing to face the lion in its den.

Opposition Busy The Opposition to the Government is so busy to the importance of the "snap election" called at a time when all rural communities are busy with their farm work. They will have a ticket in the field that will command the respect of all electors and it looks now as though one would be endorsed by the Farmers. It is believed that time has come when men of brain and sound business ability, not wind and words and contracted ideas, should represent the County. They have had enough of the dictations of the Minister of Public Works and are sickened by the intoxicated speed with which debt is piling up, making unnecessary burdens for the rate payer to bear. Victoria is determined to do its part in making a change in the Government at Fredericton. Watch Victoria. There will be lively and interesting doings here in the next few weeks.

Ottawa, Sept. 21. — Evidence that certain porters and news agents on Canadian railways are implicated in the carrying of drugs across Canada has caused the Federal health officials here and immediate action, it is believed, will be taken.

IMPERIAL TRADE POLICY FAVORED AT CONVENTION

Tariff Policy Made Britain Great Declares Delegate from London.

(Continued from page one) T. L. Macdonald, of Huddersfield, who opposed the resolution advocated absolute free trade within the empire. Scoring the results of protection in Canada, he said it cost him twice as much to get his goods into Canada as it did in England; a ton cost him three times as much here.

"A tariff of any kind causes manufacturers to increase the cost of their commodities," he said, "and bolsters pecuniary interests. We must buy in the cheapest markets, and cut production costs down, and any preference would increase cost of living in England. For the past five years, we have had practical protection, and are sick of it."

We are tired of United States methods, for neither these methods nor their products are satisfactory. He declared the prosperity of Great Britain was built on a free-trader foundation. A Lambert, of Montreal, favored a preferential tariff. "Cheapness was not the only object to aim at, and, indeed, the object of employment was more to be desired," was the opinion of Oliver Edgington of the British Board of Trade in Paris.

Venezuela's thirty per cent different duty on produce and merchandise imported into Venezuela from the British West Indies colonies was denounced by the congress on the motion of Geddes Grant of Trinidad. A resolution in favor of an imperial trade propaganda, moved by H. L. Symonds, of London, Eng., was carried unanimously. Mr. Symonds urged that facilities of commerce should be established in the various universities of the Empire.

Stanley Machin, J.P., London, Eng., in a resolution which was carried, pleaded for employment for excessive men. Mr. Machin stated that 153,000 excessive men in England were drawing unemployment pay, and 33,000 of them had registered as willing to go to the British Dominions. "And forty per cent of these are anxious to accept employment."

Blunders, But Not Afraid The Anglo-Saxon sometimes blunders, but he has never been intimidated," said a message from the New York Chamber of Commerce to the Congress, acknowledging the empire business men's greeting to New York after the Wall street explosion.

New York's message, signed by D. P. Kingsley, president of the Chamber of Commerce, told the British congress that New York had answered the challenge of the trade with a complete resumption of business within 24 hours. Mr. Kingsley's telegram was read to this morning's session of the congress at St. Leonard's, the chairman. It was greeted with applause.

ANOTHER LIQUOR SEIZURE REPORTED

Wet Goods Taken at Edmundston Consigned to Man Who Disclaims Ownership.

Fredericton, Sept. 21.—Another big seizure of liquor, valued at about \$3,000, was put across yesterday at Edmundston by Inspector Allen MacLaughlan, District Chief Inspector of Madawaska County. The liquor was en route from Quebec to St. Leonard's, and was held up between the two points by the inspector when it was learned that the party to whom it was consigned knew nothing of it.

The shipment was labeled as food and included 24 bags of oats, 133 cases and 15 barrels of liquor. Rivers, at St. Leonard's, to whom it was consigned, disclaimed all knowledge of the shipment, and it is suspected by the sub-inspector who made the seizure that it was intended for a man in St. Leonard's who had recently suffered heavy losses of the same nature and who doubtless intended to smuggle it across the border.

It is expected that the shipment will arrive in this city tomorrow and it was stated this morning that Inspector MacLaughlan would accompany the liquor here to make certain that it arrived safely.

ONCE MORE HEAD OF TRADES CONGRESS

Congratulate The St. John Victor

Messages Expressing Joy at Success Coming to Hon. Mr. Wigmore from All Canada. Ever since the result of the polling of the by-election here became known on Monday evening, the Hon. R. W. Wigmore has been receiving a flood of messages by telegraph congratulating him upon the victory. Among them are the following:

River Du Loup, Quebec. "Just returning from Europe; hearty congratulations, your success." T. J. STUART. "Well done; heartiest congratulations." THOS. A. DUFF. "My sincere congratulations on your re-election." W. S. STRONG. "Vaudreuil, Quebec. "Hearty congratulations on your splendid majority." J. A. BRODEUR. "Very hearty congratulations on excellent result." J. C. DOUGLAS. "Congratulations on your splendid success." FRANK J. CURRIAN. "My congratulations. Great victory for you and Mr. W. H. THORNE. "Please accept my best wishes for overwhelming majority." S. F. TOLMIE. "Congratulations on your splendid victory." J. M. FLEWELLING.

WILSON ATTACK IMPUGNS HONOR OF WOODSTOCK

Prominent Citizen Takes Exception to Charges Laid by Chief Inspector. Special to The Standard Woodstock, Sept. 21.—Indignation is stirred to a high pitch in this town over the standard letter, signed by W. D. Wilson, which appeared in the Standard Saturday, Sept. 18th, and which libelled the fair name of the city, its officials and citizens. Mr. Wilson's article which started "with malice towards none, but with facts before me," in discussing the McAnish affair of Saturday, Sept. 11th, bristled with false statements. Reputable citizens, who believe in "fair play and decency" which the Wilson letter laid great stress and emphasis on, think the Reverend gentleman in charge of the enforcement of the liquor laws went on his way to impugn the honor and good sense of the community.

A Citizen Talks In talking with the Standard representative, a prosperous and leading business man of the town brands the Wilson charges as the "most rot" that New York had answered the challenge of the trade with a complete resumption of business within 24 hours. The perpetrator is a reputable citizen of the county, held in favor by all, and in the spirit of malice paraded in front of the inspector with the newspapers bulging from his pocket. The sleuth of the Prohibitory forces pounced upon his prey with grand stand effect, and as the affair is viewed here, was agreed at his disappointment in not finding liquor, giving vent to his feelings in pugilistic action.

The crowd that gathered about by the disturbance was riled by the inspector, and might have made it very uncomfortable for the inspector had it not been for the opportune arrival of the police. What the citizens of Woodstock object to is the interpretation of Mr. Wilson that the Mayor, Town Manager and Police Officers were a party to mob violence and took no action to quiet the disturbance. This is false. The officials of the town, who were attacked by the disturbance, had a quieting effect when they arrived on the scene. The infuriated mob was wisely counselled and advised to scatter. The police were active in dispersing those who might possibly have been intent on doing the inspector bodily harm, and the danger was over.

Mr. Wilson should be sure of his facts before he rushed into print, and if malice toward none" sent broadcast ugly statements which leave a stain on the reputation of a town second to none in its regard for law and order and its high sense of decency and morality. The officials of this town have never failed to do their duty, and they have given every assistance possible in the enforcement of the Prohibitory law. The Wilson attack on the good citizenship of Woodstock, inspired it is reported, by a clerkman of the town, who wholly uncalculated, and the injury done his fair name should be remedied by the Chief Inspector.

Other citizens were even more emphatic in their denunciation of Mr. Wilson who has made very serious charges, in their opinion.

DIED.

KELLY—In this city, on September 21, 1920, John, Jr., third son of John and Susan Kelly, leaving his parents, three sisters and four brothers to mourn. Funeral Thursday morning at 8.30 a.m. to Holy Trinity church for requiem high mass, from his late residence, 314 Rockland Road.

FUNERALS.

The funeral of Francis J. O'Connor took place yesterday morning from his late residence, 135 Dorset street, to the Cathedral, where solemn requiem high mass was celebrated by Rev. Zuel Landry, with Rev. Raymond McCarthy deacon, and Rev. Simon Oram sub-deacon. Rev. W. M. Duke was master of ceremonies, and final absolution was given by Right Rev. E. A. LeBlanc, with Rev. H. Ramage in the sanctuary. Interment was in the new Catholic cemetery.

Mr. and Mrs. Benjamin MacKenzie, of Hillgrove, West Co., announce the engagement of their eldest daughter, Annie to Roy H. Coombs, of Petticoe. Wedding to take place on September 29th.

Charged With Stealing Sugar

John McCormick and Robt. Vernon for Theft and Phil. Bushfan for Assault.

Although John McCormick slipped out of his coat and escaped after being caught in the act of stealing goods from a C. N. R. freight car on the Ballast wharf by C. N. R. Inspector Ryan, he was later arrested on a warrant and charged in the police court yesterday with stealing three bags of sugar valued at \$60 and in the possession of the C. N. R. while in transit. Inspector Ryan stated that he had discovered sugar missing from a car on the wharf and concealed himself to await the return of the thief. A motor boat came to the end of the wharf and three men went from it to the car. He arrested one man as he was picking up a bag of sugar but the other two heard him coming and ran away. His prisoner managed to slip out of his coat and escape but was later arrested by the witness and Detective Biddiscombe.

Jeremiah Coughlan, a C. N. R. yardman corroborated the evidence. The accused pleaded not guilty and on request of E. S. Ritchie, his counsel, he was remanded. C. F. Inches conducted the prosecution. A charge of assault was lodged against Phil Bushfan by his wife. She alleged he struck her, threw her on the floor, and tried to choke her, while intoxicated. She admitted throwing a flat-iron and poker at her spouse but stated it was merely in self defense. The accused denied the charge and stated that he had been subjected to the household baggage without just provocation. The case was postponed.

Robert E. Vernon was charged with stealing \$17, the property of Nai Burns, a showman. A plea of not guilty was entered, but no evidence was taken as the complainant and accused made a satisfactory agreement and the matter ended. WANTED: KEATING'S POWDER. To kill cockroaches—BVERY cockroach. Sprinkle Keating's round the cracks and crevices in the kitchen at night, and sweep up the cockroaches in the morning—DEAD. Sold in Carleton only at all dealers. Insist on having Keating's. The speculator who gets a straight tip often finds there is something crooked about it.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA? Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.
