POOR DOCUMENT

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., APRIL 24, 1901.

It was late one afternoon as a man step- own fancy boat! Will you come round and ped from a small sailing boat on to the quay at Waterport, Gibraltar. Looking round he caught sight of a little group some 50 yards away—a girl, a middle-age lady, and ooking man in a "brass bound" nething in the girl's appearance nearer to the trio. He got within a dozen paces of them, and, standing behind a pile

of crates, enjoyed a view at closer quarters. She had raised her arm and pointed across the bay to where a large white yacht lay at anchor.

"You mean to say the Scud can't sail to-day, Capt. Flint!" she exclaimed. Her voice sent a thrill through him. There was the slightest, most delicious suspicion of transatlantic accent in it, and he was en-

In a drawling tone the captain gave an account of what had happened. It appeared that the Scotch engineer, McAlister, had gone off on a birthday frolic, and, as the result of a jovial little excursion in the vicin ity of Algeoiras, had managed to get hauled off to a local Spanish jail. waiting for an explanation. Kenyon gave a nervous laugh.

The girl was in despair. The man standing behind the crates had been drinking in every word, his eyes fastened on the girl's face. Suddenly an idea flashed upon him-it was a mad one, but it just heard one of my old messmates ha

gripped him.

Without a moment's further considera-

"Beg pardon, 'he said, touching his hat. "I happened to overhear. I gathered yo

The girl looked at the figure before he "Are you an engineer?" she asked,

"I could take you to Alexandria in the

Capt. Flint was interested. "Say, young feller, got papers to show? he drawled. "And what's your name?" The man looked him back square in the

"My name is Dannis," he said. "And l haven't get papers to show."

He turned to the girl frankly.

"You would have to take me on chance, he said. "I give you my word that I am capable of running the engines of your yacht, and getting her to Alexandria in the time, bar a breakdown—but more I cannot

say. Will you risk it?"

The girl glanced at him hesitating y.
"The Soud must sail—" she began. whether he's up to the job," said Captain

Flint suggestively.

The man looked at the girl with an inquiring smile. She gave him one more then made up her mind.

"You're engaged," she said briskly.
As engineer he was a complete success, and quickly earned the warm approval of Capt. Jake Flint, from whom he gleaned a good deal of interesting information. It appeared that the yacht was the property of Mr. Silas Lewison, a rich American, and that the girl on board was his only daughter. Her father had left her in England, and, a few weeks ago, had made the journey to Cairo, leaving her to follow more

leisurely in the Scud. For the first two days he spent most o his time in the engine room. It was on the third day, when he happened to be on deck, sleeping rooms with this perfectly that she spoke to him.

"We are getting on famously, Mr. Dennis. I think a good fate must have ing cough and croup, the doctors say dropped you from the clouds!" she said

He looked at her and tried to hide th look of admiration that had crept to his eyes. She seemed more gloriously beautiful than ever. He made some vague reply, and she went on talking about the yacht. It was intoxicating to him. He had faller desperately in love at first sight, and he wondered what it would all lead to. The next few days passed delightfully.

This was no fleeting fancy, he was really in

Then came a bitter shock of disappointment. They were within a day's run of Alexandria, and he was about to go on deck. As he raced up the companion something white on one of the stairs caught his attention. He picked it up and found it was a telegram. Glancing at it he saw it was the cable that had been sent to her at Glancing by the conditions of the stairs caught his attention. He picked it up and found it was a telegram. Glancing at it he saw it was the cable that had been sent to her at Glancing by the conditions of the con Gibraltar by her father. Almost unconsciously he read the few words:

"Get Soud to Alexandria by 22d without fail-Lord Hillmarch has promised to come

With a frown on his face, he made his way slowly on deck, the telegram still in his hand. A few yards away Miss Lewison was sitting in her deck chair, studying a book. She looked up as the engineer appeared and smiled. He crossed to her and held out the telegram.

"I found this on the stairs," he said shortly. He caught sight of the book she was reading, and saw it was "Debrett's Peerage." He felt exceedingly bitter. She thanked him with a smile, and he

turned and walked moodily away. He remained down in the engine room the rest of the time-he felt almost sulky The next day they anchored off Alexan dria, and old Lewison with Lord Hillmarch came on board. Another hour or so and she would have passed out of Kenyon's life forever. In his fit of abstraction he had not noticed a torpedo destroyer which was out for practice. She was going at quarter speed past the yacht.

Suddenly a voice broke on his ears. "Why, it's Kenyon, by jove! How are

The engineer awoke from his reverie with a start A few yards away the bronzed

Then a slight noise behind him made him swing around. He saw Miss Fay Lewison and Lord Hillmarch standing at the open door of the companion. The girl was watching him. "He called you Kenyon," she said won

deringly. Lord Hillmarch stepped forward. He was an almost middle-aged little man, with a kindly face. He held out his hand to the

"That happens to be his name, yo know-Dennis Kenyon," he said, with

"You know him?" "Slightly," he replied. "You see his estate adjoins mine at home " "But he has been our engineer !" sh

There was a patise. Lord Hillmarch shot a little alert look at Kenyon, and stroked his moustache. The girl stood

"There isn't really much to explain," h said. "You see, before an uncle died and left me a bothering lot of money and an estate, I was an engineer in the navy-you ne." He gave a jerk of his finger towards the destroyer. "You know the rest. I tion he stepped forward and confronted the was idling about Gibraltar when I accidentally heard your trouble about the engineer. I did it on impulse—I suppose——" She did not speak. He moved his head slightly and her gaze met his. Lord Hill-

march looked from one to another critically, then a slight smile crept over his insignifi cant little face. "Supposing," he observed dryly, "we

all be delightfully frank with one an-The two turned to him with a start.

"I just love frankness!" said Miss "Then, as a beginning," he said coolly, 'I'll remark that I don't think I'll come to England in the yacht with you."

The little lord smiled pleasantly, and strolled away. The two stared at one another blankly; then suddenly they both laughed.

with her. Her lips parted in a half smile, but in that smile Kenyon saw much that Oats, Ontario, gave him encouragement.-[Philadelphia

Germs, Germs.

We hear a great deal about them these days, and rightly too; for they are the direct cause of whooping-cough, diphtheria scarlet fever and other diseases of childhood.

When any of these are in the neighborhood, you should use Vapo-Cresosafe remedy. It is so easy to prevent the disease in this way. For whoop-

it is a perfect specific. Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, \$1.50; extra supplies of Cresolene 25 cents and 50cents. Illustrated booklet containing physicians' testimonials free upon request, Vapo-CresoLene Co., 180 Fulton St., New York, U.S.A.

A Cynical Quory.

"A man ought to make as many friends as pessible in this life," remarked the gentle philosopher.

"Of course," answered the cold blooded onfidence man. "If you don't get friendly with people, how are you going to get near enough to get their money away from them"

-Washington Star.

Pain.

She—"You know Henry, my birthday comes to-morrow. Of course—er—you needn't buy me a present, love."

He—"Yes, I'll buy you some little reminder this time, but please never remind me of the event again; it pains me to know you are growing older."—Ohio State Journal.

Stunned Him.

"Oh! Effie, your new gown and hat are stunning."
"Yes, Alfred hasn't recovered yet from the shock the bill gave him."—Philadelphia, Bulletin.

"Mankind is divided into two great classes—those who have more dinner than appetite, and those who have more appetite than dinner," says the Westmount philoso-

face of the lieutenant of the destroyer was laughing at him.

"Can't keep away from the old game, I see—lucky chap to be able to choose your

The Watchman says the Baptists of New England number the great host of 148,161 souls. The call now te carry through to success the Newton endowment is for \$5 a head from 10,000 New England Baptists.

Where is "Way Daown East?"

"East" does not mean to the Washingtonian what it means to the New England er. Anything the other side of the Missouri is "East" to us. A new arrival from Massachusetts was once greeted very cor-dially, in my hearing, by a lady who had been here some time, and who said, "I came from the East myself." "Ah!" said the New Englander. "From what place?" "From fowa," was the unexpected answer. - Atlantic Monthly.

Improved Proverbs.

Quacks are stubborn things.

It's a wise girl who knows her own mind.

Society's the mother of convention.

Home was not built in a day. Modesty is the best policy. Circumstances alter faces. A rolling gait gathers remorse.

All's not old that titters.

Let us eat, drink and be married, for tonorrow we dye.—[Carolyn Wells in Smart

Get Out.

Harry-What did Katie say when you asked her to marry you?

Dick—She only said, "You get out!" But she said it with a smile that made it as satisfactory as anything else she could have

said.

Harry—And her father?

Dick—He said "Get out," too; but he said it in quite a different way, and the gesture he made with his foot convinced me that I'd better get out.

Didn't Want It Pulled Out.

Lewis Avard. Sackville, April 22.-A telephone mes age from Great Shemogue states that Lewis Avard died there yetserday afternoon. Deceased was a much respected shock to his friends throughout the count He leaves a wife, four daughters and tw sons; Mrs. Fannie Carter, Mrs. Ivey Avard, Martha and Louisa, all of Great Shemogue; Angus, of Sackville, and James of Moncton. Mr. Avard was 66 years old

His funeral will take place Tuesday. On the Contrary. -

"I understand that visionary chap is regarded as being twenty years ahead of hi time."
"No." auswored the grave-looking citizen,
"I am his landlord, and I know hetter than
that. He is about six months behind time."

A queer sentence closes the inscription on a tombstone in a churchyard in Leigh, Eng. After announcing the name and other particulars of the lady there buried, these words follow—"A virtuous woman is worth 5s. to her husband" The explanation is that space prevented "a crown" being cut in full, and the stonecutter argued that a crown equals 5s.

We all go to extremes, even those of us who condemn them.

98 King Street. Summer Boarders.

The New Brunswick Tourist Association receives many enquiries from Americans asking information as to places where a few weeks in summer may be pleasantly spent. Persons in the country, especially along the St. John river, and on the sea shore, who are able and willing to take boarders, would confer a favor by communicating with the Secretary of the Association, stating how many they can accommodate well, and what attractions as to seenery, boating, driving, fishing, etc there are in the vicinity. The Association, of course, cannot guarantee to set tourists to any house. What it can do, and what ought to be of advantage, is to place before enquiring tourists the information received from those willing to accommodate them. Address.

What Changed Hin?

He used to hoss his house and home. And run the furnace fire;
He used to feel that he could roam Where fancy would desire;
He used to kick the cat at will
And pinch its spotted tail,
But now he goes about so still
He emulates the snail.

With wondrous appetite; He used to feel so young and gay He'd sit up half the night. He used to sing and pun by rule, But fate has caught him fast; His wife has joined the cooking school, And serves him his repast. —New York Herald.

Building Notes.

F. Neil Brodie, architect, signed con-tracts yesterday with Mr. A. L. Dodge, carpenter, and Messrs. Sproul & Burley, masons, for the erection of a large four tenement house to be situated on Water-loo street, for Mr. H. I. Smith. The plans and specifications call for an up-to-date tenement with hot water heating; open plumbing, gas and electric fixtures; the November, and will add greatly to that section of Waterloo street, when completed.

Lemons Weighing Four Pounds.

while travelling through Florida recently, along the southeast coast, the writer paid an interesting visit to Pitts Island, a place of about five acres, at the head of Lake Worth. Mr. Pitt keeps a small boarding house and grows various fruits that are mostly calculated to interest his visitors.

Just as the writer was about to leave he ospied a basket full of some very large citrus fruit, which he took to be some variety of pomelo, but inquiry developed the fact that they were simply lemons of unusually large size. The tree that produced this fruit did so uniformly, and the specimens can hardly be called abnormal. One weighed just four pounds.—Meehans' Monthly.

The All-Important Question.

A school committee in Boston has decided that Boston schoolma'ams may wed. Yes, but can they '-Cleveland Plain

A good story ends happily; a bad story

Mr. Peevish—Where is that*bool mine? You know I told you last i where I had put it for safe keeping.
Mrs. Peevish—Yes, dear; but I don member where you said you had put it.
