Grattan, Jan. 9th, 1868.

AMERICAN NEWS!

The following is a special dispatch to

orning paper: — Munfreesboro, Jan. 5th, via Nashville Jan. 6th.—The enemy evacuated in haste during Saturday night. It is reported they were terribly demoralized from losses, but they left no property behind. General Negley pursued them with infantry; a cavalry force also followed. To-day Spear's first Tennessee brigade attacked and dispersed vious to the Mu hundred on Thursday; over 1200 on Friday and 100 on Saturday night, including wounded and captured. We have 1500 of them prisoners, including two Colonels and several Majors. The bodies of Brigadier Generals Rains and Hanson are here.

New York, Jan. 8. General Brickenridge was severely wounded and General Adams had one arm broken. Major Clarmer was wounded in the thigh.

The famous first Louisiana Regiment was destroyed. Our own losses in all the engagements was 1200 killed, about 6000 wounded, and several thousand prisoners. One-third of the wounded will soon be able to resume duty. The army was considerably depreciated by stragglers including a number of officers, who will be disgracefully dismissed—several for desertion. Col Moody, 47th Ohio, Colonel Charles Anderson, 93rd Ohio, Col. Nish Anderson, 4th at the meeting on Saturday last, but there gratuitous insertion to the enclosed address Ohio, and Col. John F. Miller, are wonded;

did not leave the field. Col. Widiago, 25th Illinoisiis killed. Lieut. Col. Hall, of the 7th Indiana, is wounded, not dangerously. We had twenty-five field officers killed and as many wounded. The Chicago board of Trade battery, which behaved gallantly, lost 4 killed and 8 wounded. Syme's Michigan battery lost one killed, twelve wounded and thirteen horses killed. A review of the field of battle since the

The first cutter of the Rhode Island, the on the motion of Mr. Mathie seconded by Mr. Affleck, for the second reading and upon the motion of Mr. Ireton seconded by crew, whose names I have not been able to Mr. Mathie for the third reading, read a ascertain. They have not been heard of up first, second and third time and passed.

The By-law providing for the delivery of

cers and erow of the Monitor, I gather following narrative of the facts attending the loss of that noble little vessel and so many of her crew:

"We left Fortress Monroe, on Monday. the 29th of December, in tow of the steam-cr Rhode Island, with the Passaic in tow of the steamer State of Georgia. We passed der, about 300, went into action and behav-ed gallantly. Notices had been sent along o'clock, with a smooth sea and light wind. The Passaic was a little way ahead. The weather continued fine until five o'clock on Tuesday evening, when it commenced to wife of Mr. Thomas Cairns, senior proprietblow from the south-west, with a heavy or of the Expositor of a son. sea running and making a clean sweep

"At 9:30 Hattaras bore N. N. W., distant 20 miles. The gale still increased.
The vessel labored very heavily, the upper hull coming down upon every sea with fearful violence. Up to this time the Worthington pump and bilge injectors were entirely competent to keep the vessel free.

"At ten o'clock several heavy seas struck the vessel in succession, when word was C. L., to Miss Soloma, daughter of Thos. sent from the engine rooms that the water B. Prentiss, Esq., Merchant. was gaining on the pumps. Orders were then given to start Adams's centrifugal ton, Mr. James Thomas, to Miss Mary pump, capable of throwing three thousand Lester, all of Clarendon. gallons of water per minute. For a while the water appeared to be kept under. "In a short time, however, word wa

measure stopping the draft. The water at this time was standing two feet deep on the ward room floor. "All hands were then set to work with

division 12,000 strong had taken up its line ever, was gaining upon the pumps until with-"A Coston signal was then flashed, to cal chiefly guerillas, who were falling upon the attention of the Rhode Island to our condition. After much delay, consequent upon the heavy sea running, a boat was lowered from the Rhode Island and sent to our assistance. After several trials she succeeded in getting alongside of us.

"The Rhode Island at the same time, going astern, caught her launch between her own side and our vessel, crushing the boat badly, and bringing her own counter very years. heavily down upon our side. For a time she could not move her engine. Getting on 250 carts had arrived from the United a centre, she finally started ahead, and the 44 years. States, but more transportation was daily launch, smashed as it was, succeeded in conveying to the steamer 30 of the crew of the

"After the departure of the launch, thos remaining on board worked at the buckets with a will. The gale at this time was raging furiously, the seas making a clean sweep over the top of the turret. The water at this juncture had succeeded in rising up to the great bars of the furnaces, and was gradually extinguishing the fires.

The steam in the boilers consequently ran down, and the pumps could not be worked

for want of sufficient steam.
"At this time three boats were discovered coming toward the vessel. Word was pass- \$4.50 to \$4.55; Fancy, \$1.65 to \$4.75; Council met this day, a full Council present. ed that boats were at hand sufficient to take Extra, \$4.90 to \$4.95; Superior Extra, read, approved and signed, the following sinking. Every pump was stopped, and her deck was under water. Several, in coming A letter from the Council of Lanark Vil- off the turret, were swept by the waves to

> "The boats then shoved off from the sinking vessel. Although entreated to come down and get into the boats, several remain-Island in safety, and all in them got on board.

"A picked crew, with the gallant officer of off in the launch to return to the Monitor The moon, which up to this time had been this session of Council, introduce a By-law throwing some light upon the waves, was providing for the delivery of the books, accounts, vouchers, and balances of the late "At a quarter to 1 o'clock in the morning the Monitor's light disappeared beneath the waves. The Rhode Island then started for the spot where the Monitor was seen Mr. Campbell gave notice of his intention to go down. Coston signals were constantto introduce, at this session of Council, a ly kept burning. A strict look-out was By-law providing for confirming the appoint- kept upon all parts of the vessel to catch a ments of John Campbell, as Treasurer and glimpse, if possible, of the missing boat.

Robert Stead as Inspector of Inns for the "At daylight nothing was seen on the waves, and with heavy hearts we ran round

the spot, as nearly as could be judged, where the Monitor had disappeared, until late in the afternoon. Several steamers and other vessels were spoken, to learn, if possible, the fate of the missing boat, but nothing could be heard. "The survivors reached Fortress Monroe last evening on the Rhode Island. Nothing

whatever was saved except the apparel the officers and crew stood in. The conduct of both the officers and men of the Monitor on deferred to some future meeting of Council. that night was beyond reproach. No sign of panic was visible. Each stood to his post confident in his commander, and it was hard Affleck, That the Treasurer be paid £15 to prevail upon the men to get into the boats, each wishing to remain until the last.

The names of the officers who were saved are as follows: J. P. Bankhead, Commander; S. D. Green, Lieutenant; Louis N. Moved by Mr. Campbell, seconded by Mr. Affleck, That the Inspector of Inns be paid \$1.24 for each day he may be necessarily engaged in the discharge of his duties.

Illustrated SCIENTIFIC AMERICAN

THE BEST MECHANICAL PAPER IN THE WORLD. Eighteenth year .- Vol. VIII .- New Series

A new volume of this popular Journal comand every number contains sixteen pages of useful information, and from hee to ten original engravings of new inventions and discoveries, all of which is prepared expressly for its columns. TO THE MECHANIC & MANUFACTURER.

No person engaged in any of the mechanical or manufacturing pursuits should think of doing with-put the Scientific American, lt costs but six centr per week; every number contains from six to ten eng avings of new machines and inventiors, which cannot be found in any other publication. TO THE INVENTOR.

The Scientific American is indispensible to every invenior, as it not only contains illustrated decriptions of nearly all the best inventions as it ey come

tions of nearly all the best inventions as they come out, but each number contains an official list of the Claims of the patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France and Germany; thus placing in our possession all that is nanspiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers. A pamphlet of instruction as to the best modobtaining Letters Patent on new inventions, it nished free on application.

done business.

No charge is made for examining sketches and models of new inventions and for advising inventors at to their patentability.

to their patentability,

CHEMISTS, ARCHITECTS, MILLWRIGH IS

AND FARMERS.

The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and millowners will be found in the Feientific American, which information they cannot possibly obtain trom any other source. Subjects in which tarmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TER^{3/4}S—To mail subscribers, \$3 s. year, or \$1 for four mouths. The volumes commence on the tirst of January and July. Specimen capite will be
