

**Electric Lighting for Canning**

A very successful public meeting was held at Canning on Monday evening, when the citizens ratified the electric lighting act secured some time ago, and it was decided to purchase current from Messrs. Wright & Jodrey, and install an efficient service as soon as possible. The current will be supplied at Port Williams and the Canning people will construct the line to Canning. THE ACADIAN congratulates the citizens of our sister town on the forward step which they are taking.
