

This is our Latest Waist

We are offering the "Pomegranate" Waist as the freshest and newest thing in Easter "finery"---at a price you'll gladly pay

Look at the yoke of Heavy Guipure lace that extends around to the back. It reproduces that rich appearance rarely seen except in laces of real Irish handiwork; the panel insertion in front is made of the same handsome material.

We supply this waist in *White* or *Ecrú* net, lined with pure Jap silk; front, back and sleeves of half inch tucking, with fancy buttons in front. *Note the Cavalier Sleeve, Separate from the elbow.*

Our waist department considers this the very best value they have ever offered at

\$2.95

N.B.—When ordering, ask for the "Pomegranate Waist" and be sure to send 14 cents extra for postage.
