June 26th. 1925.

Hon Arthur Meighen,
Ottawa.Ont.

Dear Sir:-

I have returned to Saskatoon and am glad to say that I find considerable life and enthusiasm in the Conservative Party here. We succeeded in electing Dr.Anderson and there is a good strong organization in active operation preparing for the Federal Elections.

The results of the Nova Scotia elections I think indicate that a change is likely to take place when the present Government faces the country.

I understand that there are bulletins being issued from Conservative headquarters at Ottawa and if so I would like very much to have my name placed on the mailing list. You understand that we have no press support in the west whatever so we have to get our information from other sources.

The Hudson's Bay Railway is still a live question here and it appears to me that the Party that would undertake its completion would get the support of the West.

Trusting that we will have better success at the next Federal election, I am,

Yours Sincerely.

G. W. Lantorn
