

Closing Address of Prosecution

Prosecution points out defence has been raising a point that man did not try to use the false pass. Refuses to charge. Man is not charged with using pass but with being in possession of same. Submits that evidence to prove charge has been produced in Court and that finding of guilt should be made.

Closing Address of Defence Counsel

Counsel states that due to man's inability to read or write and his poor knowledge of English language he did not know if pass was good or not.
