UNDESIRABLE IMMIGRANTS.

On every side is heard the news that this year will see a marvelous increase in the number of immigrants to this country. The matter is one which demands attention. There is a growing desire in Canada for a closer discrimination regarding the class of immigrants coming to our shores. The authorities of the United States have recently drawn the lines strictly as between the fit and the unfit, one of the immediate results of which is that this country is being overrun with the offscourings of Europe which cannot gain admittance to the once boasted "land of the free." The extent of these inroads is marked by outbreaks of crime in different parts of the country in which the new comers find ready employment. Stabbing affrays have occurred at Winnipeg, Port Arthur, St. Catharines and Niagara Falls, among Greeks, Italians and Galicians, who murder one another with lightness of heart. These aliens have to be taught a stern lesson as to their duties and responsibilities as citizens of Canada. The price of their welcome to this country is simply that they shall be not only industrious, but law-abiding. They must learn that life here is not to be held so cheaply as in the countries where they hail from, and that they cannot too quickly assimilate their conduct to the standards that prevail among our Anglo-Saxon people. We want no such problem here as Great Britain has had flung upon her in the name of her famous "hospitality," and which the United States finds itself compelled to wrestle with on a stupendous scale. In England, writes Walter Frewen Lord, in a recent article on this subject, "the alien immigrant is a nuisance in every walk of life. In the academic world, he shoulders his way, craves down the more courteous, homebred literature, and proclaims aloud his right to be kept at the expense of our own sons. From dim academic circles up to the strenuous and glaring life of the streets he is all-pervading, always the same, invariably a nuisance. To those whose food tomorrow depends upon their labor to-day he is more than a nuisance; he is a danger, a cause of hunger and degradation." The pity is in England no solution is promised in way of legislative acts. The Liberals cling to the idea of an open hospitality to every nation and tongue, to the massacre of the home population, and the Tory party hesitates to move for the exclusion of the "nuisance." We in Canada are not hampered by traditional prejudices regarding the sacredness of asylum for the offscourings of the earth. We want more inhabitants to do the work that is to be done, but with the flood of aliens now driving headlong toward our doors we can be more particular than ever before as to the class suitable for admission. The degenerate are not wanted on any terms. The diseased should be turned back with the same severity as that exercised in the United States for the public welfare. Those who abuse their privilege of citizenship by shooting, stabbing and murdering in the lawless fashion of their native lands should be shown no mercy, but made a complete example of to their fellows.

should be rigorously insisted upon when buying medicine, for upon that depends one's health. **ALLEN'S LUNG BALM** contains NO OPIUM in any form, and is safe, sure, and prompt in cases of CROUP, COLDS, deep-seated COUGHS. Try it now, and be convinced.

Lenten Services

There was quite a large congregation present in Christ Church last night at the special Lenten service. The Rev. R. McCosh, conducted the service and the Rev. M. G. Freeman, of Thamesville, preached. The text was taken from Galatians 1: 8—"But though we or an angel from heaven preach any other gospel unto you than that which we have preached unto you, let him be accursed."

Mr. Freeman pointed out the necessity for a revelation from God and dwelt very strongly on the inestimable value of the word of God. "The word of God," he said, "is an everlastingly source of light and comfort, and wretchedly dark and hopeless would this world be without it. What a consolation and strength it has been to all who have made it the rule of their life. It is indeed a lamp unto our feet and a light to our path."

Mr. Freeman urged his hearers to love and study the word of God and to never cease giving praise for the glorious gospel of Jesus. The next special service will be held tomorrow night at eight o'clock.

The members of the confirmation class will meet this evening at a quarter to eight.

A SPRING DANGER.

Many People Weaken Their System by the Use of Purgative Medicines.

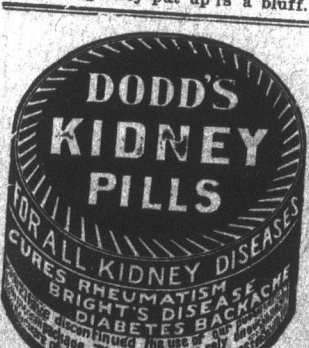

Ask any doctor and he will tell you that the use of purgative medicine weakens the system, and cannot possibly cure disease. Thousands of people take purgative medicines in the spring, and make a most serious mistake in doing so. People who feel tired and depressed, who have occasional headaches and backaches, or whose food shows impurities through pimples and eruptions, need a spring medicine. But they should not dose themselves with harsh, gripping purgatives that gallop through the bowels, tearing the tissues and weakening the system. A tonic medicine is what is needed in the spring and Dr. Williams' Pink Pills is the best tonic that science has yet discovered. They are quietly absorbed into the system filling the veins with pure, rich blood that carries health and strength to every part of the body. Dr. Williams' Pink Pills cure skin eruptions, indigestion, headaches, nervousness, rheumatism and all blood troubles. They improve the appetite, and make depressed, easily tired men and women cheerful, active and strong. Mr. James McDougall, Little Shippegan, N. B., says: "I have used Dr. Williams' Pink Pills as a tonic and blood purifier and have found them superior to all other medicines."

If you need a medicine this spring, and who would not be the better of a tonic after the long dreary in-door months, give Dr. Williams' Pink Pills a trial. They will send rich, red blood coursing through your veins and give you the buoyancy of perfect health. See that the full name, "Dr. Williams' Pink Pills for Pale People," is printed on the wrapper around each box. All dealers in medicine sell these pills, or you can get them by mail at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

YOUNG BUSINESS MAN

Norman French, son of Assessor Thomas French, has gone into the chicken business on a large scale. He has purchased three incubators and already has birds a month old. He expects to raise between 1,500 and 2,000 birds this year. He has one large chicken house built, and is already preparing to erect another.

If this weather continues, I have an idea of all the flood we'll get.

To-day was notable for the prevalence of Scotch mist. I wish it had mist.

I'm glad that no one has suggested to have something else "Beside the Bonnie Briar Bush."

"For I'm not coming back," I can just imagine that I hear Dan Forsythe singing that refrain.

James H. Stoddard makes his last appearance in Beside the Bonnie Briar Bush in this city on Friday, Mar. 31st.

Other winters generally the river would break up once or twice just to keep its hand in. This winter and last winter no water got away all winter, so you know what is very likely to happen unless the weather man is kind.

LARGE CONTRACT FOR FIRE ROSE AWARDED

At the last regular meeting of the Montreal Municipal Council, a large contract for fire hose was awarded to The Canadian Rubber Company of Montreal. This Company tendered for the full requirements of the Municipality in the matter of fire hose, viz., 5,000 feet, and were successful in being awarded the whole contract. The hose this Company tendered to supply was "Keystone" wax and gum treated, of which they are the exclusive manufacturers for the Dominion. A feature worthy of note in this matter was that the contract was awarded to the highest tender, although the price of "Keystone" hose was 50 per foot higher than any other make of hose offered to the Municipality, but the Council justified their action in paying the highest price, by explaining that the superior quality of "Keystone" hose over other makes justified the extra expenditure.

THE CAUSE OF WOMAN'S TROUBLES

Is Diseased Kidneys and the Cure is Dodd's Kidney Pills.

Wonderful Cure of Mrs. James Kin-sella, Who Slept in a Chair for Two Summers—What She Says Of It.

St. Malachie, Que., March 20.—(Special).—A cure of great interest to those interested in medical matters in this neighborhood. Mrs. Jas. Kin-sella, wife of a well known citizen, had suffered from a complication of troubles for about two years. She had a pain in the right hip, in the back, and was obliged to pass water every fifteen minutes in a burning itching sort of way. She could not sleep at night and had to sit up in a chair for two summers.

Dodd's Kidney Pills cured her. Mrs. Kin-sella speaking of her cure says, "After the first box of Dodd's Kidney Pills I felt much better. Then I got more and they did me a world of good. I have never slept in the chair since I used Dodd's Kidney Pills."

Woman's health depends on her diseased kidneys. Nine-tenths of the so-called female complaints are caused by uric acid in the blood. Cure your kidneys with Dodd's Kidney Pills and you can have no uric acid in the blood.

DISTRICT DOINGS

TILBURY

March 22.—Tilbury North council yesterday granted a franchise to the Windsor and Chatham electric railway along the town line from Windsor to Tilbury, as well as along Middle Road from Tilbury West to the Tilbury West line. The company was willing to commence the work within 30 days but the township granted it on the usual conditions of beginning work within one year and completing a year later. The company also gets exemption from taxation for 21 years.

A couple of young Tilburyites were assessed \$2.50 the other day for breaking an electric street light. There has been considerable from

this cause in the past and the practice will likely stop.

A young man named Goodison, from Wheatley, was fined \$2.00 and costs yesterday by Magistrate Foster for disorderly conduct. He was accompanied by others, and after he was released they raised a disturbance at Trudel's hotel at Tilbury Corner, and something further may be heard from the case.

E. F. Adams and Chas. Forbes left yesterday for the Canadian North-west.

VALUABLE ADVICE TO MOTHERS
If your child comes in from play coughing or showing evidences of cold, sore throat, or sickness of any kind, get out your bottle of Nerviline, rub the chest and neck with Nerviline, and give internal doses of ten drops of Nerviline in sweetened water every two hours. This will prevent any serious trouble. No liniment or pain reliever equals Pol-great's Nerviline, which has been the best family remedy in Canada for the past fifty years. Try a 25c. bottle of Nerviline.

Cultivation is as necessary to the mind as food is to the body.

MESSRS. C. C. RICHARDS & CO.

Gentlemen,—My three children were dangerously low with diphtheria. On the advice of our priest my wife began the use of MINARD'S LINIMENT. In two hours they were greatly relieved, and in five days they were completely well, and I firmly believe your valuable Liniment saved the lives of my children.

Gratefully yours,
ADILARD LEEBEVRE.
