

Barrett Money Savers for Farmers

MADE IN CANADA

It's the Little Things that Count

A TINY acorn makes the mighty oak with its numerous uses for man. Noble buildings result from placing small stones or bricks one on top of another. It's the little things that count in life. It's attention to details that means success.

Right now, around your home and farm, there are little things that you would be too wise to neglect if they were called to your attention. Read the seven short paragraphs on this page. They may mean the difference between profit and loss.

CREONOID—Real economy consists of getting a product that is cheap to start with and lasts a long time. Such is Creonoid, the famous lice destroyer and cow spray. With this wonderful product you have care-free live stock.

And you know the importance of this. A little on the woodwork of the henery will drive away mites. Use it in the piggery and stable. It means healthy live stock; more eggs from your hens; more milk from your cows; more flesh from your porkers. You need Creonoid. It's animal insurance.

EVERLASTIC ROOFING—You don't know the real value of a good ready roofing until you've seen Everlastic. No better "rubber roofing" made at anything like the price. It means insurance against leaks and protection against the weather. Everlastic presents to the weather a tough well built surface that wears wonderfully. And it's easily laid without skilled labor. Before you pay more and get less, try Everlastic on your next roofing job. You will find it a great comfort.

AMATITE—Just think of a ready roofing that greatly improves a building's appearance and doesn't need painting. That's Amatite. Then consider that Amatite is not high priced in spite of its fame and fitness. Once you have seen this roofing you will want it for all your steep roofs and sidings. Each roll of Amatite covers 100 square feet allowing a 3 inch lap. Send for sample.

EVERJET—Everjet Elastic Paint is the best carbon paint ever made. It will add to the life of any felt or metal roof. And its glossy, permanent black surface adds beauty. It will keep your roofs watertight and wear-proof. Your farm implements will also last longer if you keep them painted. You need Everjet to "keep things up".

ELASTIGUM—Get a can of Elastigum and watch the annoyance and expense of little repairs vanish. Elastigum is a tough, adhesive, elastic cement. It seals leaks, joins or relines gutters, fixes imperfect joints, stuffs cornices, refashes chimneys. And it makes all these things permanently sound. Adheres to wood or metal and is waterproof. It is cheap and easy to use, being applied with a trowel. Handy in a hundred different places.

CARBONOL—Chemistry cannot make a more widely useful or more effective disinfectant than Carbonol. It has a thousand uses in every home and is invaluable to farmers. When you clean house, a little Carbonol in the water will kill germs and odors. If you cut yourself, Carbonol solution will heal the cut and prevent blood poisoning. Use it in the sick room to prevent contagion. Sprinkle garbage pails with it. Disagreeable odors as well as flies will disappear. Carbonol is carbolic acid minus the danger. You can't afford to be without it.

WOOD PRESERVATIVE—Here's the first chance for you to use the wonderful preservative qualities of Creosote without the difficult, expensive closed-cylinder method of applying it. Grade-One Creosote Oil is a boon to the average landowner because it can be applied by spraying, brushing or dipping. It penetrates deeper than any other. It is permanent. It destroys fungi, keeps out moisture and prevents rot. You can make cheap fence posts and woodwork

last 20 years. Let us tell you how.

Sold by good dealers everywhere. Send for new "Money Saver" Booklet.

PEERLESS PERFECTION

applies to our Poultry Fencing just right. It keeps your chickens at home—and their enemies out. Each intersection securely locked—the kind that stays "put."

Peerless Poultry Fence

is made of the best Open Hearth steel fence wire—tough, elastic and springy—and will not snap or break under sudden shocks or quick atmospheric changes. Our method of galvanizing prevents rust and will not flake, peel or chip off. The joints are securely held with the "Peerless Lock," which will withstand all sudden shocks and strains, yet Peerless Poultry Fence can be erected on the most hilly and uneven ground without buckling, snapping or kinking. The heavy stay wires we use prevent sagging and require only about half as many posts as other fences. We also build Farm and Ornamental Fencing and gates. Write for catalog. AGENTS NEARLY EVERYWHERE. LIVE AGENTS WANTED IN UNASSIGNED TERRITORY. THE HANWELL-HOXIE WIRE FENCE CO., Ltd., Winnipeg, Man., Hamilton, Ont.

"I've seen a lot of engines but the ALPHA is in a class by itself"

THE more a man knows about gas engines the stronger is his recommendation of the Alpha. Users of the Alpha who have had lots of engine experience will tell you that the Alpha gives them the most power for the fuel consumed, is the least troublesome to keep in good working order, costs the least for repairs, and that they can always rely on it to give them plenty of steady power when needed.

The fact that the Alpha is not affected by cold weather is one of its good points that is especially appreciated by Canadian users. The speed and fuel consumption of the Alpha are accurately regulated to all loads by the quickest acting and most sensitive governor ever used on a gas engine. There is no waste of fuel and the engine runs steadily under all loads—light, heavy or varying.

The Alpha has no troublesome batteries. It starts and operates on a simple low speed magneto. The entire ignition system is remarkably simple and assures you of a hot, fat spark at all times. You can use either gasoline or kerosene for fuel.

The strong recommendation the Alpha gets from its users is the result of features that you can readily appreciate when you see the engine or the illustrations and descriptions in our large catalogue. Send for a copy of this catalogue at once. Read it carefully and you will agree with Alpha users that this engine is in a class by itself, and gives you the most for your money.

Alpha Engines are made in eleven sizes—2 to 28 H.P. Each furnished in stationary, semi-portable, or portable style, with hopper or tank cooled cylinder.

DE LAVAL DAIRY SUPPLY CO., Ltd.

LARGEST MANUFACTURERS OF DAIRY SUPPLIES IN CANADA.

Sole distributors in Canada of the famous De Laval Cream Separators. Manufacturers of Ideal Green Feed Silos. Catalogues of any of our lines mailed upon request.

MONTREAL PETERBORO WINNIPEG VANCOUVER

How Do You Fill Your Silo?

CORN—Always a wonderful crop—is more of a king each year. That is not to be wondered at since ensilage is proving so cheap and economical a feed. More and more we realize the extra profits in the all-year-round use of green fodder.

In the same proportion INTERNATIONAL Ensilage Cutters have grown popular. Here are some INTERNATIONAL big points: There's the famous special concave knife, with inward shear cut, cutting at outer edge first, hence the greatest volume is cut near the shaft with least power. The handy knife-grinder that is always on the machine grinds one of the two sets of knives while the other is working. It's a water stone, leaving the temper in the knives. Perfect adjustment of knife blades to cutter bar can always be maintained, saving power and doing good work. Heavy channel steel frame, trussed, hot-riveted, so that working parts can't get out of line. Self-feed keeps cutting always even; silage may be cut in various lengths. BLOWER PIPE IS ADJUSTABLE TO ANY angle; silage may be delivered to a silo of any height. Full equipment of safety devices.

These features make the INTERNATIONAL the best to buy. See the local agent who sells them. Write to the nearest branch house for the interesting booklet, "A Silo for Every Farm."
