

DEERING MACHINES

MAKE SURE OF RESULTS

MONEY making farmers all belong to the class who are ready for each season's work when it comes.

It is of greatest importance to be ready for the grain harvest. It is double waste to lose any part of the grain after the labor and expense of growing it.

The most important step is to purchase one of the old reliable Deering harvesting machines.

Then you can go into the field knowing that the work will go right along. There will be no breakdowns or delays.

You can do fast work and good work, and it does not matter about the condition of the grain. Whether it be long or short, thick or thin, even lodged and tangled, the Deering harvester will save it all.

If your grain is dead ripe or you have a large acreage to cut, you will want to crowd the work. The Deering harvester will enable you to do it.

Machines are made in 5, 6, 7 and 8-foot cut. If you keep the working parts oiled, you can keep your machine going till you are through, and not be troubled with vexatious delays.

The famous Deering line includes, in addition to harvesters, binder twine, mowers, tedders, sweep rakes, side delivery rakes, hay loaders, stackers, corn machines and knife grinders. Also a complete line of tillage implements and seeding machines, comprising disk drills, shoe drills, hoe drills, cultivators and seeders, smoothing, spring-tooth and disk harrows, land rollers and scufflers. Also gasoline engines, cream separators, hay presses, wagons, sleighs and manure spreaders.

Call on the local Deering agent for catalog and all particulars or write to any of the following branch houses:

IMPORTANT TO FARMERS

Your fences are your fortress against loss and damage. They must be strong enough to resist invasion from without, and to keep within bounds your flocks and herds. You can't afford to take chances on soft, slack, or brittle wire fences, which may fail just when most needed.

Peerless Woven Wire Fence

has the elastic springiness and resisting qualities that make an A 1 farm fence. Once up it lasts—no breaking—no falling down. There are reasons why. We can't tell them all in this ad, but if you will write to us we will send you some valuable fence facts.

The Banwell Hoxie Wire Fence Co. Ltd.
Rept. B, Hamilton, Ont.
Winnipeg, Manitoba.

IF ZENOLEUM IS NOT SATISFACTORY, EITHER WE OR YOUR DEALER WILL REFUND YOUR MONEY
THE ZENNER DISINFECTANT CO., MAKERS, 112 WINDSOR, ONTARIO.

GOSSIP.

Mr. R. J. Doyle, Owen Sound, Ont., in ordering a change in his advertisement of Shorthorn cattle, writes: "The young bulls offered are exceptionally good ones, and should sell quickly at the prices asked."

Earl Beauchamp's grand Shire mare, Sussex Bluegown, that so nearly won the female championship in London last year, recently gave birth to a good colt foal, the sire of which is Present King II., that won the championship for Messrs. Forshaw & Sons, at the London Show in 1906.

The Lincoln Long-wool Sheep-breeders' Association of Great Britain will hold its annual auction sales of Lincoln rams in the City of Lincoln, on July 11th and September 4th, 1908, as advertised in this issue, when selections from a number of high-class flocks will be offered. The sheep will be on view the day previous to each sale.

BRAMPTON JERSEYS.

The far-famed Brampton Jersey herd, the property of Messrs. B. H. Bull & Son, Brampton, Ont., were never stronger, numerically or otherwise, than at present, with 150 head, twenty of which were imported directly from the Island by the firm, a great many others being daughters and granddaughters of these imported cows. No trouble or expense has ever been spared to make this the leading herd in Canada, and one of the leading herds in America; and that the firm have been successful in their efforts is proven by the fact that for years, at the leading Canadian exhibitions, they have persistently won the lion's share of the first prizes, the individual male and female championships, and the senior and junior herd championships. A great deal of this phenomenal success is due to the high-class character of the stock bulls always found at the head of the herd. Those in use at the present time are Fereor (imp.), that last fall won second at Toronto and first at Ottawa and Sherbrooke; Arthur's Golden Fox (imp.), which last fall won first at London and third at Toronto, and Brampton King (imp. in dam), a son of Imp. Crusoe's Belle, which was fourth at Toronto, and second at Ottawa and Sherbrooke; a trio of stock bulls, strictly high-class in character and individuality, and proven sires of show-ring winners. In young bulls for sale is a two-year-old, got by Brampton Nameless King, a son of Financial King (imp.), and out of Imp. Adoration. Here is a young bull, built on show lines all over. Another is a two-year-old, got by the great champion of champions, Blue Blood of Dentonia, and out of a daughter of the champion, Imp. Brampton Monarch. Then there are four yearlings, three of them sons of Blue Blood, and out of show cows. Among these young bulls are winners at Toronto and other leading shows, a high-class lot, richly bred, and most desirable herd-headers. Individual mention of the many high-class and imported cows of the herd, winners of first prizes and championships galore, is out of the question, as it would require more space than is at our disposal, but it will be interesting to readers acquainted with the herd to know that the grand old cow, Sunbeam, winner of the dairy test at Brantford over all breeds, in 1896, is still hale and hearty and breeding regularly, and several of her daughters and granddaughters now in the herd are capable of nearly or quite as great things as their illustrious dam and granddam. Imp. Fancy Maid has regularly given 46 lbs. of milk a day, and out of her for sale is a fourteen-months-old bull, sired by the great Blue Blood; this young bull will make a name for himself in the show-ring at the first opportunity. Very prominent among the large number of heifers is a yearling out of the dam of the four-times champion, Blue Blood, and sired by Arthur's Golden Fox (imp.). From present indications, this heifer is a sure winner, and certainly her breeding is royal indeed. In the herd for sale are females of any age, and in almost any number; a lot that for rich show-ring breeding cannot be excelled, and whose individuality leave little to be desired.

Stock-raisers Getting Better Results Than Ever Before.

If the stock-raisers that are making their stock food at home with Barnes' English Compound did not get the very best results, would they keep on buying it, would they send in for from one to six cans more and tell me that it is the best they have ever used?

I your friends find my formula right, why won't you keep away from the secret preparations and know that you are using the purest medicine in concentrated form? Make a stock food at home that will fatten and condition your stock as it has never been before.

Thoroughly mix one pound of Barnes' English Compound with six pounds of corn meal and three pounds of linseed meal.

I will send postpaid one-pound can of Barnes' English Compound for 50c, or 6 cans for \$2.50, with full directions.

Elijah said on Mount Carmel: "Fill four barrels with water and pour it on the burnt sacrifice and on the wood."

Few of us have faith like this! We are not so sure of God that we dare to pile difficulties in His way. We all try our best to make it easy for Him to help us.

Yet what Elijah had, we, too, may have, by prayer and fasting.—Rev. F. B. Meyer.
