THE LAWRENCE-WILLIAMS CO., Toronto, Canada.

## Grind Your Feed at Home

If you would investigate you would find that you could grind all your feed, cut all your straw and pump all your water at home with a

## STICKNEY Gasoline Engine

and save the price of the engine in a very short while by saving the miller's tolls, and the hire of the man who owns a portable engine. Think of it—Without leaving your barn you could do all your work that requires power. And the Stickney never balks. It is ready at all times. No trouble. No tinkering. The cost of the gasoline is very small. We carry all sizes from 3 to 16 horse-power. Write for our catalogue.

MAY MFG. CO.,  
ELORA, ONTARIO.

FOR SALE  
IMP. CLYDESDALE STALLION

Banquet (9644) (13292)

The imported brown five-year-old stallion, Banquet, is a son of the famous Silver Cup, three times first at the Highland and twice first at the Royal. On the maternal side he is bred through the dam of Darnley (222); his second dam, the famous Kelt Peggy 4th, being uterine sister of that horse; her dam being Kelt Peggy, Darnley's dam.

Banquet is a big, handsome, quality horse, a sire of rare merit, and an exceedingly sure foal-getter; absolutely sound and smooth in every way, and one of the handsomest Clydesdale horses living.

Having no immediate use for him, I offer him for sale at a figure that will appeal to intending purchasers who want a tried sire at a moderate price.

B. Rothwell, Hillsdale Farm, Ottawa P.O., Ont.

NOTICE TO HORSE IMPORTERS

Eight years old. Pair registered Shire mares rising three years old. M. Sexsmith, Ridgeway, Ont.

QUESTIONS AND ANSWERS.  
Veterinary.

## ELEPHANTIASIS.

Horse had lymphangitis last December. It broke and discharged for a time, and then healed up, leaving a big leg. I have tried everything, but cannot reduce the size of the leg.

A. McD.

Ans.—This is called "Elephantiasis," and very little can be done for it. That is, treatment is seldom successful. Treatment consists in giving the patient 1 dram iodide of potassium three times daily. If this causes loss of appetite, reduce the dose to 40 grains, or even less, but it is probable he will be able to stand dram doses. Rub the swollen parts well once daily with a liniment made of 4 drams each of iodine and iodide of potassium, and 4 ounces each of alcohol and glycerine.

V.

## DIARRHEA IN CALVES.

My calves become affected with diarrhea shortly after birth, and die at from two to three days.

J. G. W.

Ans.—This is due to a germ that exists in the stable, and gains the circulation through the navel opening. Prevention consists in thoroughly disinfecting the stable. Sweep out thoroughly, and then wash thoroughly with a hot five-per-cent. solution of carbolic acid. Clean the stalls out every day, and scatter freshly-slaked lime on the floors before scattering fresh bedding. Dress the navel of the calf as soon as possible after birth, and four or five times daily until it heals, with 1 part formalin to 9 parts water. Curative treatment consists in adding 1 ounce aqueous solution of formaldehyde to 15½ ounces water, or 1 to 31, and adding a teaspoonful of this to every pint of milk fed to the calf.

V.

## INAPPETENCE, ETC.

1. Jersey bull, 16 months old now, did well until three months ago, when he began to lose his appetite. I have purged him, but he has not regained his appetite. I have also given him condition powders without results. He looks rough and seems itchy.

2. Berkshire boar, nine months old, breeds well, but is not sure.

J. R. S.

Ans.—1. If he is tubercular, nothing can be done. The only means of diagnosing is by the tuberculin test, applied by a veterinarian. If he is not tubercular, tonics and good feed should cause an improvement. Give him a dessertspoonful of the following three times daily, viz.: Equal parts sulphate of iron, gentian, ginger and nuxvomica.

2. All that can be done is to keep in fair condition, allow plenty of exercise, and not breed oftener than once weekly.

V.

## LAME HORSE.

Horse went lame in front more than six months ago. A small lump appeared in front of fetlock joint, but it has disappeared. There does not appear to be any extra heat in the leg or foot, and drawing does not appear to hurt him, but he goes very lame on hard roads. I have sent for a bottle of —. Do you think this is a good remedy?

T. H. M.

Ans.—We do not care to discuss the proprietary medicine mentioned, but if it can do all it is claimed to do, of course, it will effect a cure.

The greatest trouble in lameness is to make a correct diagnosis. The long standing in your case, the absence of apparent disease in leg or foot, and the effects of hard roads, indicate trouble in the navicular joint. I would advise repeatedly blistering the coronet. Get a blister made of two drams each of cantharides and biniodide of mercury, mixed with two ounces vaseline. Clip the hair off for two inches high all around the hoof. Tie so that he cannot bite the parts. Rub well with the blister once daily for two days; on the third day apply sweet oil. Let loose in box stall now, and oil every day. As soon as the scale comes off, tie up and blister again, and, after this, blister once every month so long as you think it necessary or wise. Of course, it will be better if he can be given a long rest.

Clydesdale Stallions; Fillies  
Hackney Stallions

We have been importing Clydesdales and Hackneys for 5 years, and in that time have won at the leading shows in Canada and the United States the grand total of 40 championships against all comers on both sides of the line, besides dozens of firsts, seconds and thirds. We never had a better lot on hand than just now. They were winners in

Scotland, winners at New York, and winners at Guelph and Ottawa. They are the best types of the breed, with size, character, quality, action and breeding, and we sell them as reasonably as inferior ones can be bought, and give terms to suit. Clydesdale stallions and fillies and Hackney stallions.

## SCOTLAND'S BEST IN CLYDESDALES

I believe I can show intending purchasers of Clydesdale stallions or fillies a bigger selection, better breeding, bigger horses, more character, more quality, more right-down high-class individuality, and will sell them for more reasonable prices, and give better terms, than any other man in Canada. Let me hear from you if you want a topper.

T. H. HASSARD, MARKHAM, ONT.

## IMPORTANT TO INTENDING BUYERS

MR. JOHN SEMPLE, of the firm of Semple Bros., Spring Hill Stud Farm, Milverton, Ont., and Luverne, Rock Co., Minn., U. S. A., importer of high-class Clydesdales, Shires and Percheron Horses, sails for Europe on Jan. 6th for his second shipment since August, 1910. This shipment will never have been equalled for their high-class breeding and individual merit. Intending buyers should see this shipment before purchasing elsewhere. By doing so they will save hundreds of dollars. Please note their arrival.

CLYDESDALES—Imported and Canadian-bred  
Our several importations per year place us in a particularly favorable position to meet all demands for the best and most fashionably bred representatives of the breed. We are never undersold, and give favorable terms.

ROBT. NESS & SON, HOWICK, QUE.

## A FEW CLYDESDALE SELECTS LEFT.

I have one 6-year-old Clydesdale stallion that is hard to beat for size, quality and breeding; 6 others, rising 3 years, that are big, drafty, character colts, and bred the best; 3 Percherons rising 3. There is no better selection in Canada, nor no better prices for a buyer.

T. D. ELLIOTT, BOLTON, ONT.

Mount Victoria Stock Farm, Clydes and Hackneys.  
We are just now offering exceptional values in Clydesdale and Hackney stallions and fillies of all ages; prizewinners and champions, highest-class types of the breed, to make room for our new importation.

ED. WATSON, Manager.

T. B. MACAULAY, Prop.  
Hudson Heights, Que.
