

**Make the Deering New Ideal Binder Your Standard**

WHETHER your grain is short or tall, clean or filled with undergrowth, a Deering New Ideal binder will cut and bind it all without waste. It assures you a full harvest.

Deering binder features appeal to the farmer. The elevator, open at the rear, delivers the grain properly to the binding attachment. Because the elevator projects ahead of the knife it delivers grain to the binder deck straight. A third packer reaches up close to the top of the elevator and delivers the grain to the other two packers. A third discharge arm keeps the bound sheaves free from unbound grain. The T-shaped cutter bar is almost level with the bottom of the platform and allows the machine to be tilted close to the ground to pick up down and tangled grain without pushing trash in front of the knife. The reel has a wide range of adjustment for cutting tall, short, down, or tangled grain. Either smooth section or serrated knives can be used. The Deering knotter is one of the efficient mechanical wonders of the age. The I H C local agent will explain features which make Deering New Ideal binders the standard of binder construction. See him, or, write to the nearest branch house for a catalogue.

**International Harvester Company of Canada, Ltd.**  
EASTERN BRANCH HOUSES

At Hamilton, Ont.; London, Ont.; Montreal, P. Q.;  
Ottawa, Ont.; St. John, N. B.; Quebec, I. C.

These machines are built at Hamilton, Ont.

**Here is the Engine They're Talking About**

Sizes 2 1/2 to 60 h.-p. Semi-portable, as illustrated; also stationary and portable.

To-day the sensation in the Canadian gasoline engine field is the success of the Renfrew Standard Engine. People started talking about the

**Renfrew Standard**

when they saw it at the big fairs last autumn. Here was an engine that started without cranking—that was so perfectly balanced it did not need to be anchored down—that had a governor of the fly-ball steam engine type—that had a remarkably simple carburetor—that had no pipes, fittings, cooling pumps or fans to freeze or get out of order. Was it any wonder that people talked?

It will set you talking, too, when you see it. You'll want one right away. That seems to be the case with everyone, judging by the way our sales are increasing by leaps and bounds. Write for our engine, bulletin and name of nearest agent.

**The Renfrew Machinery Company, Limited**

Head Office and Work: RENFREW, CANADA  
AGENCIES EVERYWHERE IN CANADA

Write us about the Gifford 1 1/2 h.-p., which we believe is the handiest most compact, most efficient little engine made.

**Reliable Help for the Farmer**

Farm labor is scarce. Wages are high. All the more need for a BARRIE ENGINE. Soon pays for itself in time and labor saved. Grinds grain, shells seed corn, pumps water, cuts straw, threshes beans, saws wood, drives churns, separators and washing machines. Does many other things, too.

**Barrie Engines Work Long**

hours without getting tired. Very simple in construction. Reliable in operation. 3 to 100 h.-p. Stationary or portable. For gasoline, distillate, natural gas, producer gas. Write for catalogue. Agents wanted.

**The CANADA PRODUCER & Gas Engine Co., Limited**

**DISTRIBUTORS:**

James Rae, Medicine Hat; Canada Machinery Agency, Montreal; McCusker Imp. Co., Regina; The Tidhope-Anderson Co., Ltd., Winnipeg, Calgary, Edmonton, Lethbridge, Saskatoon, and Regina.

**EUREKA SANITARY CHURN**

There's no comparison between the ordinary wooden churn and the "EUREKA". Barrel is stoneware—top is clear glass. Besides being absolutely sanitary, the glass top enables you to see how the churning is coming along without opening the churn. Also made with Aluminum top. The "EUREKA" is the easiest churn on the market to operate. By tilting back the frame until the weight rests on the wheels, the churn can be quickly and easily moved—while the barrel remain upright. If your dealer does not handle the "EUREKA," do not take a substitute but write us for catalogue.

EUREKA PLANTER CO. LIMITED, WOODSTOCK, ONT.

**Modern Barns Mean Less Work—Bigger Profits**

BT Sanitary Steel Stalls and Stanchions make dairy barns modern—they save work. The Aligning Device on the BT Stall and Stanchion lines up every cow evenly over the gutter, so that no manure falls on the cattle-stand, or gets on the bedding off on the cow. This saves you time and labor in cleaning the stable, and your cows are always kept clean. BT Steel Stalls save time and money in a score of other ways—our Free Stall Book tells about them all. Mail the coupon for a copy to-day.

**BT SANITARY BARN EQUIPMENT**  
STEEL STALLS, STANCHIONS, PENS, Etc.

Send for our Free Stall Book, whether you have 6 cows or 600. Our book will prove to you, beyond a doubt, that the Aligning Device, Divided Steel Mangers, and other labor-saving, time-saving features on the BT Equipment make it a profitable investment, no matter how many cows you have. Mail coupon now for our Stall Book. Also, we'll send you without charge, our valuable book, "How to Build a Dairy Barn," if you will fill in the coupon.
