IMPURE BLOOD:

The blood is the life! and when any foreign or unhealthy matter gets mixed with it, it is at once distributed to every organ of the body. Every nerve feels the poison, and all the vital organs quickly complain. The stomach will not digest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feelds. The lung become cloged with the poisonous matter; hence, a coughs—and all from a slight impurity at the foundain head of life—the Blood! As if you had thrown some earth, for instance, in a pure spring, from which ran a tiny rivulet, in a few minutes the whole course of the stream becomes disturbed and discolored. As quickly does impure blood by to every part, and leave its sting behind. All the passages become obstructed, and unless the obstruction is removed, the lamp of life soon dies out. These pills not only purity the blood, but regenerate all the secretions of the body; they are, therefore, unrivalled as a

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when give in small does for bilious dysentery and diarrhems. Abeir sugar-coating makes them very acceptable and convenient for the use of women and children. Dyspepsia, Impurity of the Blood.

To much cannot be said of your Pills for the cure of costiceness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe conferences to originate in the liver, but your Pills affect that origin and cure the disease.

So Most of the Pills in market contain Mercury,
which, although a valuable remedy in skifful hand, is
dangerous in a public pill, from the dreadful consequences that frequently follow its incantious use. Thee
contain no mercury or mineral substance whatever. Price, 25 cents per Box, or 5 Boxes for \$1. Prepared by Dr. J. C. AYER & CO., Lowell, Mass. Sold Wholesale by MORION & COURSWELL, Hollis Street, Halifax, And at retail by all druggists in city and Country stober 8

Are you sick, feeble, and complaining? Are you cut of order, with your system deranged, and your feelings uncomfortable? These symptoms are eften the preluxe to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayor's Fills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make the functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the darangements, take Ayer's Fills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the desp-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Fills, will neglect to employ them when suffering from the disorders they cure.

From Dr. Theoders Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperiont, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complement than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

Six: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to my they are the best eathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious discuss so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., Physicians of the Marine Hospital.

I find one or two large doses of your Pills, taken at the
proper time, are excellent promotives of the natural servtion when wholly or partially suppressed, and also very
effectual to cleanse the stomach and expet worms. They
are so much the best physic we have that I recommend
no other to my patients.
